Dogs to the rescue!

If one is asked to think about rescue dogs, the ones likely to come to mind are St Bernards with brandy kegs around their necks digging people out of avalanches in the Alps, earthquake dogs sent to Turkey, Greece and Japan in recent years, and of course the guide dogs for the blind.

There is a growing body of evidence and opinion that the power of dogs' noses is as yet underestimated, and that the acute sense of smell of an ordinary hound can be put to better use than finding lost bones: it could be applied to diagnosing cancer and other serious diseases.

This first came to the attention of the medical profession in 1989, when the letters page of a medical journal described the case of a woman whose dog's repeated sniffing at a lesion on her leg had led her to seek medical advice; it was diagnosed as a malignant tumour. The dog (a Border Collie and Doberman cross) had shown no interest in other moles on her owner's body, but spent several minutes a day sniffing the malignant mole.

Eventually the dog tried to bite off the mole, which was the point at which her owner went to the doctor. In the view of the doctors writing to the magazine, the possible use of animals with highly developed sensory abilities in cancer diagnosis was worth investigating; surgeon John Church began doing further research and discovered other cases of dogs which had detected cancerous growths and saved their owners' lives.

courses **Reconceptualizing English Education in a Multilingual Society** Isabel Pefianco Martin, 2018-03-01 This book brings together chapters that describe, investigate and analyze the place of English in education in multilingual Philippines. Unlike most studies on languages in education which take a neutral de-contextualized stance, this volume takes a pluricentric view of the English language by positioning it in relation to its varieties as well as to other languages in the country. Because of the changing realities of English in the Philippines, traditional assumptions about the language as monolithic and unchanging as well as about how it should be taught and learned need to be revisited and re-conceptualized.

Island of the Blue Dolphins Scott O'Dell, Sara L. Schwebel, 2016-10-04 This is the first authoritative edition of one of the most significant children's books of the twentieth century. Winner of the 1961 Newbery Medal, *Island of the Blue Dolphins* tells the story of a girl left alone for eighteen years in the aftermath of violent encounters with Europeans on her home island off the coast of Southern California. This special edition includes two excised chapters published here for the first time as well as a critical introduction and essays that offer new background on the archaeological, legal and colonial histories of Native peoples in California. Sara L. Schwebel explores the composition history and editorial decisions made by author Scott O'Dell that ensured the success of *Island of the Blue Dolphins* at a time when second wave feminism, the civil rights movement and multicultural education increasingly influenced which books were taught. This edition also considers how readers might approach the book today when new archaeological evidence is emerging about the Lone Woman of San Nicolas Island on whom O'Dell's story is based and Native peoples are engaged in the reclamation of indigenous histories and ongoing struggles for political sovereignty.

The Fall of Heaven Andrew Scott Cooper, 2016-08-02 An immersive gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow Empress Farah. Iranian revolutionaries and US officials from the Carter administration. In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries, President Jimmy Carter and White House officials, US Ambassador William Sullivan and his staff in the American embassy in Tehran, American families caught up in the drama, even Empress Farah herself and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.
