## English For A Journey To England:

English for a journey to England James Brotherhood, C. L. Dönszelmann, C. J. Munters, 1970      Being English Sayan Chattopadhyay, 2021-11-29 This book critically examines the cultural desire for anglicisation of the Indian middle class in the context of postcolonial India. It looks at the history of anglicised self-fashioning as one of the major responses of the Indian middle class to British colonialism. The book explores the rich variety of nineteenth and twentieth century writings that document the attempts by the Indian middle class to innovatively interpret their personal histories, their putative racial histories and the history of India to appropriate the English language and lay claim to an English identity. It discusses this unique quest for Englishness by reading the works of authors like Michael Madhusudan Dutt, Rabindranath Tagore, Cornelia Sorabji, Nirad C. Chaudhuri, Dom Moraes and Salman Rushdie. An important intervention, this book will be of interest to scholars and researchers of postcolonial studies, Indian English literature, South Asian studies, cultural studies and English literature in general.

*The Return of England in English Literature* M. Gardiner, 2012-08-07 This lively study provides an account of the fall and rise of the English nation within the British discipline of English Literature between the late eighteenth century and the present day, offering a reconceptualisation of the relationship between English Literature and the formation of English cultural identity.

English Journeys, *English Travel Writing From Pilgrimages To Postcolonial Explorations* NA, 2019-06-12 Travel writing has gained new appeal and writers from the British Isles have been particularly productive and successful in this genre. This volume provides a concise introduction to the basic characteristics and historical development of travel writing as it has emerged in the British Isles from the Middle Ages to the present day. Examples considered include many classics such as Defoe, Sterne and Smollett, Isabella Bird and Mary Kingsley, Chatwin and Raban, and also lesser known representatives. Types of travel writing discussed include pilgrims' itineraries, exploration writing, tourist accounts as well as postmodern varieties.

**The English** Jeremy Paxman, 2001-10-02 The acclaimed author of *On Royalty* explores the mysteries of English identity in this witty argumentative book bursting with good things. The Daily Telegraph, A Sunday Times Top Ten Bestseller. *Being English* used to be easy. As the dominant culture in a country that dominated an empire that dominated the world, they had little need to examine themselves and ask who they were. But something has happened over the past century. A new self-confidence seems to have taken hold in Wales and Scotland while others try to forge a new relationship with Europe. What exactly sets the English apart from their British compatriots? Is there such a thing as an English race? Renowned journalist and bestselling author Jeremy Paxman traces the invention of Englishness to its current crisis and concludes that for all their characteristic gloom about themselves, the English may have developed a form of nationalism for the twenty-first century. Paxman's irrepressibly witty bit of Anglo scholarship offers stirring insights.

Vanity Fair      The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson, Ian R. Willison, 1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of *The*

Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries England Through Colonial Eyes in Twentieth-Century Fiction A. Blake, L. Gandhi, S. Thomas, 2015-12-27 Much attention has focused on the imperial gaze at colonised peoples cultures and lands But during and after the British Empire what have writers from those cultures made of England the English and issues of race gender class ethnicity and desire when they have travelled expatriated or emigrated to England This question is addressed through studies of the domestic novel and the Bildungsroman and through essays on Mansfield Rhys Stead Emecheta Lessing Naipaul Emecheta Rushdie and Dabydeen **English Journey** J. B. Priestley, 2023-04-13 The finest book ever written about England and the English Stuart Maconie J B Priestley is one of our literary icons of the 20th Century and it is time that we all became re acquainted with his genius Dame Judi Dench

*Records of the English Province of the Society of Jesus* Henry Foley, 1875 Ireland, Revolution, and the English Modernist Imagination Eve Patten, 2022 Studies the response of English writers during the first half of the twentieth century to the process of revolution in neighbouring Ireland It explores novels letters travelogues and memoirs from writers such as Wyndham Lewis Virginia Woolf D H Lawrence Evelyn Waugh May Sinclair Ethel Mannin George Thomson and T H White

**The Making of English National Identity** Krishan Kumar, 2003-03-13 Why is English national identity so enigmatic and so elusive Why unlike the Scots Welsh Irish and most of continental Europe do the English find it so difficult to say who they are The Making of English National Identity first published in 2003 is a fascinating exploration of Englishness and what it means to be English Drawing on historical sociological and literary theory Krishan Kumar examines the rise of English nationalism and issues of race and ethnicity from earliest times to the present day He argues that the long history of the English as an imperial people has as with other imperial people like the Russians and the Austrians developed a sense of missionary nationalism which in the interests of unity and empire has necessitated the repression of ordinary expressions of nationalism Professor Kumar's lively and provocative approach challenges readers to reconsider their pre conceptions about national identity and who the English really are **Handbook of British Travel Writing** Barbara Schaff, 2020-09-07 This handbook offers a systematic exploration of current key topics in travel writing studies It addresses the history impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters Combining theoretically informed astute literary criticism of single texts with the analysis of the circumstances of their production and reception these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing *Orwell in Context*

B. Clarke, 2015-12-26 This bold new reading of Orwell's work focuses upon his representation of communities and the myths that shape them. It analyzes his interpretations of class, gender, and nationality within the context of the period. The book uses a range of texts to argue that Orwell attempted to integrate traditional communal identities with socialist politics. **Library of Congress Subject Headings** Library of Congress, Cataloging Policy and Support Office, 2009 [Travel Writing in an Age of Global Quarantine](#) Gary Fisher, David Robinson, 2021-09-07 Travel Writing in an Age of Global Quarantine is an anthology of travel accounts by a diverse range of writers and academics. Challenging conventional academic authority, each contributor writes from memory during the Covid 19 lockdown about a place they have previously visited, accompanied by an historical traveller who published an account of the same place. As immobility is forced upon us at least for the immediate future, we have the chance to reflect. Travel Writing in an Age of Global Quarantine presents opportunities to approach a text as a scholar differently. We break with the traditional academic rules by inserting ourselves into the narrative and foregrounding the personal, subjective elements of literary scholarship. Each contributor critiques an historical description of a place about which simultaneously they write a personal account. The travel writer Philip Marsden posits a fundamental difference between traditional academic writing and travel writing in that travel narratives do not or ought not anyway begin by assuming a scholarly, authoritative understanding of the places they describe. Instead, they attempt to say what they found and how they felt about it. The very good point we think Marsden makes, and the one this book tries to demonstrate, is that as a matter of form, the first person narrative has the ability to expose the research process to allow the reader to see when and how a scholarly transformation takes place to give the scholar the opportunity to openly foreground their own subjectivity and say this is the personal journey that led me to my conclusions, to problematize the unchallenged authority of the scholar. Travel Writing in an Age of Global Quarantine challenges the idea of scholarly authority by embracing the subjective nature of research and the first person element. We address a problematic distance between travel writing practice and travel writing scholarship in which the latter talks about the former without ever really talking to it. Defining travel writing as a genre has often proved more difficult than it might seem, but Peter Hulme has suggested that it is ethically necessary for the writer to have visited the place described. Hulme asserts that travel writing is certainly literature, but it is never fiction. If this seems obvious, Travel Writing in an Age of Global Quarantine asks the reader to consider the idea that if visiting the place described is necessary for the writer to claim they have produced a travel account, might it also be necessary or at least advantageous and valuable for the writer of a scholarly critique of that account to have done the same. **Library of Congress Subject Headings** Library of Congress, 1994 **The Prose Works of Jonathan Swift: Historical and political tracts-English** Jonathan Swift, 1901 **The Rough Guide to England (Travel Guide eBook)** Rough Guides, 2018-02-01 Discover England with the most incisive and entertaining guidebook on the market.
