English Longbowman 1330-1515 Clive Bartlett,1995-05-15 The English military ascendancy which lasted from the mid 14th to the early 16th century was founded upon defensive tactics based on the use of the longbow This weapon distinctive in that it was used by English forces alone was probably the most effective missile weapon of the Late Middle Ages its arrow had the same penetrative ability as a modern day bullet and the bow s rate of fire was not equalled by any weapon used by English forces until the adoption of the Lee Enfield rifle at the beginning of the 20th century The English longbowmen s involvement in wars such as the War of the Roses 1455 1485 and One Hundred Years War 1337 1453 is discussed **The**

The Unknown Warrior Richard Osgood,2005-11-17 A tale of the poor bloody infantry and what we glean of their lot from prehistory right through to World War I This book compares the life of the soldier across time and cultures It includes the great battles of medieval Europe *Battle Of Aljubarrota, August 14, 1385* André Geraque Kiffer,2020-01-03 As an outline of the tactical maneuver that will be tested in the wargame simulated battle of chapter 3 we present the English

chess Opening as a model where we will consider a hypothesis compared to chess in which a combination of the Cuneus battle orders would be employed that is a staggered attack on the center or Convex but with flanks on discontinuous lines taking care to simulate more decisive flank actions The maneuvers will be complementary geographically with the Portuguese army trying to lure the opponent into its concave device in a kill zone and with the Castilian army trying to exploit the numerical weight of its convex device to penetrate overflow and destroy the Portuguese blockade *Battle Of Azincourt, October 25, 1415* André Geraque Kiffer,2019-12-27 As an outline of the tactical maneuver that will be tested in the wargame simulated battle of chapter 3 we present the model of the Sicilian Opening where we will consider a hypothesis compared to chess in which Azincourt was a great French attack of opportunity that shocked head on against a solid ground and weapons support English defensive position It could have been different if Constable Albret and Marshal Boucicault had been heard and after updating the battle plan by the terrain and the enemy situation had taken a more appropriate offensive device When an Arab or Double Perpendicular battle order would then be employed that is simultaneous pressure on two flanks in this simulation at the northern and southern entrances of the Tramecourt Azincourt clearing which would require numerical geographical and moral superiority **Battle Of Poitiers, September 19, 1356** André Geraque Kiffer,2019-12-27 In the simulation of the battle of Poitiers we will take into account that the center of gravity of both maneuvers defensive and offensive was the support on obstacles natural and or artificial which in the case of the English compensated their numerical inferiority and the possibility of maneuvers looking for gaps in the defensive device should the French remain on horseback As for the French infantry we will understand that this force led by the constable Brienne before the king compensated for the smaller quantity 3 of the 15 20 thousand men with a better quality Considering the English historical device maintained a Cuneus battle order will be employed by the French combining the clash of an infantry over the center with subsequent flanking and encirclement by the cavalry **Battle Of Crécy, August 26, 1346** André Geraque Kiffer,2019-12-26 Although the information of the prior recognition of the English strong position had not altered the count of Alen on s willingness to attack King Philip in verifying his blatant failure could have halted this let s call it forceful recognition and taken an offensive device for the attacks in the early hours of the next day When a typical Byzantine or Double Perpendicular with forward pressure combined with flank attacks would then be employed that is a force frontally threatened the enemy formation by fixing it especially if it were a solid infantry block but without engaging decisively then other forces sought to flank and or engage the enemy device **The Men of the Mary Rose** A J Stirland,2005-04-21 The Mary Rose was one of King Henry VIII s favourite warships until she sank during an engagement with the French fleet on 19 July 1545 Her rediscovery and raising were seminal events in the history of nautical archaeology Apart from the Captain and the Vice Admiral nothing is known about the crew of the Mary Rose the only evidence about her complement of 415 men rests with their skeletal remains In *The Men of the Mary Rose* A J Stirland uses archaeological and skeletal evidence to give

the reader a welcome insight into the soldiers of the Mary Rose from their ages and height to their health diet and physical condition This book examines the building sinking and raising of the Mary Rose and her historical context before moving on to the examination of what the remain of the crew can reveal to us about the fighting men of that period Many new findings have been made through analysis of their bones including the effects of some activities and occupations on the skeletons of the men This is the first book to deal with the men who made up the crew of the Mary Rose It provides an exciting glimpse of Tudor life and the Tudor navy relating archaeological findings to existing documentary evidence opening a fascinating window into one of Henry VIII s great ships and a frozen moment of sixteenth century time This book will appeal both to professionals in the area and to those for whom Tudor history holds a general fascination

Armies of Plantagenet England, 1135-1337 Gabriele Esposito,2023-10-05 The ascent of the Plantagenets to the English throne in 1154 led to the beginning of a new historical phase in the British Isles which was marked by numerous wars that were fought between the Kingdom of England and the Celtic nations of Wales Scotland and Ireland During the rule of the Norman kings the English armies had not completed the conquest of Wales and had established only some footholds in Ireland Scotland was still independent and was ready to contest the Plantagenets possession of northern England As a result of this situation the two centuries between the rise of the new dynasty and the beginning of the Hundred Years War were characterized by a series of wars that ravaged feudal England Gabriele Esposito covers all these conflicts following the campaigns of Richard the Lionheart as well as those of his younger brother who was defeated on the continent at the large Battle of Bouvines the conquest of Wales is analyzed in detail as well as the First Scottish War of Independence that saw William Wallace playing a prominent role The organization and equipment of all the troop types taken into account is described in full detail and lavishly illustrated with color images of reenactors bringing these forces to life

Armies of the Hundred Years' War 1337-1453 Gabriele Esposito,2025-03-30 The Hundred Years War is one of the most famous conflicts in British history featuring such renowned battles as Crecy Poitiers and Agincourt It is a period littered with such legendary names as the Black Prince Henry V and Joan of Arc and a fascinating one for the development of warfare weapons and armour Gabriele Esposito puts the conflict in context with an overview of earlier Anglo French conflicts and the roots of the dispute between the Plantagenet and Valois dynasties He then devotes several chapters to giving a concise overview of the dramatic events of the war before moving on to describe in detail the organization tactics weapons armour and equipment of all the varied forces Those drawn in by various alliances such as Scottish Spanish and Burgundian troops are not forgotten He shows the evolution of warfare across the period from the early dominance of the longbowmen over the French knights to the increasing importance of artillery in the Valois recovery As usual for The Armies of the Past series Gabriele Esposito s informative text is lavishly illustrated with colour photographs of replica weapons armour and clothing in use
