**Building a Fiberglass Boat** Arthur Edmunds,2000-09 Arthur Edmunds is one of the country s top naval architects and his knowledge of the boat building industry has never been more apparent than in this book Art has written this book so the reader unfamiliar with the construction process will understand every aspect of the process But this is not a beginner s only boat building book Advanced craftsmen and top professionals have equally as much to learn from Art s years of experience Art takes the reader from the first step of Building a Fiberglass Boat to the last step in a manner that will certainly inspire all who ever pondered the notion He expertly explains why a competent craftsman would want to undertake the seemingly overwhelming task of building his own boat Art has described the two most popular sizes and styles of boats as examples for the project a twenty five foot open boat and a thirty three foot cruising boat Sail is also explained By referring to these example boats the reader can envision a boat of any size limited only by the imagination Everyone can learn from this book If you have a boat just waiting to be built you will now have the knowledge If you never plan to build a boat you will understand the entire process making the Buying Experience far less confusing There are no Trade Secrets only knowledge not yet learned      Cruising World ,1986-01      **MotorBoating** ,1963-12      Motorboating - ND ,1984-01      **Boating** ,1983-01
