Play Among Books Miro Roman,Alice _ch3n81,2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science *Operation Pedro Pan and the Exodus of Cuba's Children* Deborah Shnookal,2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors drove the exodus including Cold War propaganda and the Catholic Church s opposition to the island s new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities *The Cuba Reader* Aviva Chomsky,Barry Carr,Alfredo Prieto,Pamela Maria Smorkaloff,2019-05-17 Tracking Cuban history from 1492 to the present The Cuba Reader includes more than one hundred selections that present myriad perspectives on Cuba s history culture and politics The volume foregrounds the experience of Cubans from all walks of life including slaves prostitutes doctors activists and historians Combining songs poetry fiction journalism political speeches and many other types of documents this revised and updated second edition of The Cuba Reader contains over twenty new selections that explore the changes and continuities in Cuba since Fidel Castro stepped down from power in 2006 For students travelers and all those who want to know more about the island nation just ninety miles south of Florida The Cuba Reader is an invaluable introduction **World Communism, 1964-1969, a Selected Bibliography** United States. Law and Time Klara Polackova Van der Ploeg, Luca Pasquet, León Castellanos-Jankiewicz, 2022-12-16 This book explores the close complex and consequential yet to a large extent implicit relationship between international law and time There is a conspicuous discrepancy between international law s technical preoccupation with the mechanics of temporal rules and the absence of more foundational considerations of how time both as an irrepressible physical dimension manifesting in the passage of time and as a social construct shaped by diverse social and cultural factors impacts and interacts with international law Divided into five parts and 21 chapters this book explores key aspects of the relationship between international law and time and puts the spotlight on time s fundamental significance for international law as a legal order and as a discipline Pursuing diverse approaches to international law the authors consider the notion significance manifestations uses and implications of time in international law in a wide range of contexts and offer insights into the various ways in which international law and international lawyers cope with time both in terms of constructing narratives and in devising and employing particular legal techniques

Three Revolutions Simon Hall, 2025-07-01 A salve for our current reactionary times ANDREW HARTMAN The gripping untold story of how six epic journeys launched the three communist revolutions that changed world history forever From the streets of Petrograd during the heady autumn of 1917 to Mao s stunning victory in October 1949 and Fidel s triumphant arrival in Havana in January 1959 the history of the twentieth century was transformed in dramatic and profound ways by the Russian Chinese and Cuban revolutions In Three Revolutions the stories of these epoch defining events are told together for the first time At the heart of each revolution was an epic journey Lenin s 1917 return to Russia from exile in Switzerland Mao s Long March of 1934-35 covering some 6 000 miles across China and Fidel Castro s return to Cuba in 1956 following his exile in Mexico Told in tandem with these are the corresponding journeys of three extraordinary journalists John Reed Edgar Snow and Herbert L Matthews whose electric testimony from the frontlines of each revolution would make a decisive contribution to how these revolutions were understood in the wider world Here in Simon Hall s masterful retelling these six remarkable journeys are brought vividly to life Featuring a stellar cast extraordinary drama and an epic sweep Three Revolutions raises fundamental questions about the nature of political power the limits of idealism and the role of the journalist questions that remain of utmost urgency today

Reporting the Cuban Revolution Leonard Ray Teel, 2015-12-16 Reporting the Cuban Revolution reveals the untold story of thirteen American journalists in Cuba whose stories about Fidel Castro s revolution changed the way Americans viewed the conflict and altered U S foreign policy in Castro s favor Between 1956 and 1959 the thirteen correspondents worked underground in Cuba evading the repressive censorship of Fulgencio Batista s dictatorship in order to report on the rebellion led by Fidel Castro The journalists stories appeared in major newspapers magazines and national television and radio influencing Congress to abruptly cut off

shipments of arms to Batista in 1958 Castro was so appreciative of the journalists efforts to publicize his rebellion that on his first visit to the United States as premier of Cuba he invited the reporters to a private reception at the Cuban Embassy in Washington where he presented them with engraved gold medals While the medals revealed Castro s perception of the correspondents as like minded partisans the journalists themselves had no such intentions Some had journeyed to Cuba in pursuit of scoops that could rejuvenate or jump start their careers others sought to promote press freedom in Latin America still others were simply carrying out assignments from their editors Bringing to light the disparate motives and experiences of the thirteen journalists who reported on this crucial period in Cuba s history Reporting the Cuban Revolution is both a masterwork of narrative nonfiction and a deft analysis of the tension between propaganda and objectivity in the work of American foreign correspondents *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1969 First multi year cumulation covers six years 1965 70

Radical Documentary and Global Crises Ryan Watson,2021-10-05 When independent filmmakers activists and amateurs document the struggle for rights representation and revolution they instrumentalize images by advocating for a particular outcome Ryan Watson calls this militant evidence In *Radical Documentary and Global Crises* Watson centers the discussion on

extreme conflict such as the Iraq War the occupation of Palestine the war in Syria mass incarceration in the United States and child soldier conscription in the Congo Under these conditions artists and activists aspire to document archive witness and testify The result is a set of practices that turn documentary media toward a commitment to feature and privilege the media made by the people living through the terror This footage is then combined with new digitally archived images stories and testimonials to impact specific social and political situations Radical Documentary and Global Crises re orients definitions of what a documentary is how it functions how it circulates and how its effect is measured arguing that militant evidence has the power to expose to amass and to adjudicate
