Gravity-superconductors Interactions Giovanni Modanese, Glen A. Robertson, 2012 Recent developments in gravity superconductivity interactions have been summarized by several researchers If gravitation has to be eventually reconciled with quantum mechanics the macroscopic quantum character of superconductors might actually matter T

Design Methodologies for Space Transportation Systems Walter Edward Hammond, 2001 Annotation Design Methodologies for Space Transportation Systems is a sequel to the author's earlier text Space Transportation A Systems Approach to Analysis and Design Both texts represent the most comprehensive exposition of the existing knowledge and practice in the design and project management of space transportation systems and they reflect a wealth of experience by the author with the design and management of space systems The text discusses new conceptual changes in the design philosophy away from multistage expendable vehicles to winged reusable launch vehicles and presents an overview of the systems engineering and vehicle design process as well as systems trades and analysis Individual chapters are devoted to specific disciplines such as aerodynamics aerothermal analysis structures materials propulsion flight mechanics and trajectories avionics and computers and control systems The final chapters deal with human factors payload launch and mission operations safety and mission assurance The two texts by the author provide a valuable source of information for the space transportation community of designers operators and managers A companion CD ROM succinctly packages some oversized figures and tables resources for systems engineering and launch ranges and a compendium of software programs The computer programs include the USAF AIRPLANE AND MISSILE DATCOM CODES with extensive documentation COSTMODL for software costing OPGUID launch vehicle trajectory generator SUPERFLO a series of 11 programs intended for solving compressible flow problems in ducts and pipes found in industrial facilities and a wealth of Microsoft Excel spreadsheet programs covering the disciplines of statistics vehicle trajectories propulsion performance math utilities

NASA Technical Memorandum ,1991 *Scientific and Technical Aerospace Reports* ,1995 Lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the NASA Scientific and Technical Information Database **The A.T. Factor** Leonard G. Cramp,2001 British aerospace engineer Cramp began much of his scientific anti gravity and UFO propulsion analysis back in 1955 with his landmark book *Space Gravity and the Flying Saucer* out of print and rare His next books *UFOs and Anti Gravity Piece for a Jig Saw* and *The Cosmic Matrix Piece for a Jig Saw Part 2* began Cramp s in depth look into gravity control free energy and the interlocking web of energy that pervades the universe In this final book Cramp brings to a close his detailed and controversial study of UFOs and Anti Gravity with what he calls the Advanced Time Factor or the AT Factor This fascinating collection of some of the UFO related works is presented here in an autobiographical format in response to popular enquiry In this work the author points out that any preview of future events can logically be regarded as a form of time travel and this may occur in a vast cosmic matrix system in which all things have their shared existence Drawing on his own experience the author discovered that the elapsed time between preview of an event to its manifestation can also be variable and for co ordination and tabulating purposes he has designated this as an advanced time fa Liquid Conspiracy George Piccard,1999 Underground author George Piccard on the politics of LSD mind control and Kennedy s involvement with Area 51 and UFOs Reveals JFK s LSD experiences with Mary Pinchot Meyer The plot thickens with an ever expanding web of CIA involvement from underground bases with UFOs seen by JFK and Marilyn Monroe among others to a vaster conspiracy that affects every government agency from NASA to the Justice Department This may have been the reason that Marilyn Monroe and actress columnist Dorothy Killgallen were both murdered Focussing on the bizarre side of history *Liquid Conspiracy* takes the reader on a psychedelic tour de force **Dig Here!** Thomas Penfield,2004 The most amazing treasure book ever written giving the locations of well over 100 fabulous fortunes waiting to be found in the ore rich Southwest Thomas Penfield has done years of exhaustive research for *Dig Here* and has accomplished the Herculean task of separating fact from fiction For the first time lost treasure stories of the Southwest are stripped bare of their legends and lies Each treasure account is preceded by the approximate location estimated total value and authentication Reading sources for each account are also included so you can do additional research on the intriguing stories of these treasures *Dig Here* is overflowing with lore spellbinding backgrounds driving Western drama and exciting reliable facts **Arktos** Joscelyn Godwin,1996 *Arktos* is the first book ever written on the archetype of the Poles celestial and terrestrial North and South It is a hair raising voyage through cosmology occultism and conspiracy theory leads to startling revelations about the secrets of the Poles The author investigates legends of a Golden Age which some claim ended in a prehistoric catastrophe a shift in the earth s axis This is examined in the light of the latest geological theories as are predictions of a coming pole shift The perennial fascination of these ideas is shown to be part of a polar tradition of hidden wisdom There are many recorded tales of an ancient race said to

have lived in the Arctic regions which later spread through the Northern Hemisphere This supposedly Aryan Race entered the pantheon of Nazi Germany with dreadful consequences The author examines the origins of modern neo Nazi ideology its polar inspiration and its links with other arcana including the survival of Hitler German bases in Antarctica UFOS the Hollow Earth and the hidden kingdoms of Agartha and Shambhala However Arktos differs from most writings on these subjects in its responsible and scholarly treatment and its extensive use of foreign language sources Provided by publisher
