Ecopiety Sarah McFarland Taylor, 2019-11-12 Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth The stories we encounter about the environment in popular culture too often promote an imagined moral economy assuring us that tiny acts of voluntary personal piety such as recycling a coffee cup or purchasing green consumer items can offset our destructive habits No need to make any fundamental structural changes The trick is simply for the consumer to buy the right things and shop our way to a greener future It s time for a reality check Ecopiety offers an absorbing examination of the intersections of environmental sensibilities contemporary expressions of piety and devotion and American popular culture Ranging from portrayals of environmental sin and virtue such as the eco pious depiction of Christian Grey in *Fifty Shades of Grey* to the green capitalism found in the world of mobile device carbon sin tracking software applications to the socially conscious vegetarian vampires in *True Blood* the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments Taylor makes the case that it is not through a framework of grim duty or obligation but through one of play and delight that we may move environmental ideals into substantive action

Representing Kink Sara K. Howe, Susan E. Cook, 2019-09-06 Representing Kink raises awareness about non normative texts and non normative erotic practices and desires It defines kink broadly encompassing a range of

inappropriate texts and understanding it in frequent reference to non normative erotic fantasies and experiences Kink is treated as both a set of practices as well as a category of texts at the nexus of subject and form In addition to canonical texts that take up erotic and marginalized themes the collection also studies forms that are themselves fringe and feature kink taboo literature self published erotica SM narratives fan fiction role playing games and other disavowed texts The purpose of this study is to focus attention on the margins of an already marginalized subject in order to highlight the extent to which non normative textuality and eroticism both shape and are shaped by culture and context It sheds light on a category of subjects that is at once mainstream in the form of texts such as Fifty Shades of Grey and yet nevertheless repeatedly disparaged and undertheorized This book advocates for conversations about kinky texts that transcend dichotomous frameworks of good and bad and normal and deviant thinking instead in new theoretically rigorous and flexible directions *Cultivating Copyright* Bhamati Viswanathan,2019-06-27 Creators and creative industries are struggling to navigate the digital age Intellectual property rights including copyrights trademarks and patents offer invaluable tools to help creative industries remain viable and sustainable But to be fully effective they must be considered as part of a greater ecosystem Cultivating Copyright offers a framework for tailoring flexible strategies and adaptive solutions suited to diverse creative industries Tailored solutions entail change on four fronts business models and strategies legal policies and practices technological measures and cultural and normative features Creating strong creative industries through tailored solutions serves critical functions promoting richly varied artistic endeavors and supporting democratic flourishing Literature in the Digital Age Adam Hammond,2016-03-03 Literature in a Digital Age An Introduction guides readers through the most salient theoretical interpretive and creative possibilities opened up by the shift to digital literary forms such as e books digital archives and electronic literature While Digital Humanities DH has been hailed as the next big thing in literary studies many students and scholars remain perplexed as to what a DH approach to literature entails and skeptical observers continue to see literature and the digital world as fundamentally incompatible In its argument that digital and traditional scholarship should be placed in dialogue with each other this book contextualizes the advent of the digital in literary theory explores the new questions readers can ask of texts when they become digitized and investigates the challenges that fresh forms of born digital fiction pose to existing models of literary analysis **Global Manga** Casey Brienza,2016-03-09 Outside Japan the term manga usually refers to comics originally published in Japan Yet nowadays many publications labelled manga are not translations of Japanese works but rather have been wholly conceived and created elsewhere These comics although often derided and dismissed as fake manga represent an important but understudied global cultural phenomenon which controversially may even point to a future of Japanese comics without Japan This book takes seriously the political economy and cultural production of this so called global manga produced throughout the Americas Europe and Asia and explores the conditions under which it arises and flourishes what counts as manga and who gets to decide the implications of global manga for

contemporary economies of cultural and creative labour the ways in which it is shaped by or mixes with local cultural forms and contexts and ultimately what it means for manga to be authentically Japanese in the first place Presenting new empirical research on the production of global manga culture from scholars across the humanities and social sciences as well as first person pieces and historical overviews written by global manga artists and industry insiders Global Manga will appeal to scholars of cultural and media studies Japanese studies and popular and visual culture

50 Shades of Divorce Vineeta Niar, 2025-05-09 The promise of I do often shimmers with a luminous hopeful glow a vow whispered against a backdrop of bright fragrant florals and joyous uplifting music But life in its relentless often unpredictable unfolding can dim even the most radiant beginnings Doors once opened with a shared eager breath of anticipation can slowly creak shut on rusty un oiled hinges and rooms that once echoed with the warm harmonious laughter of shared jokes and dreams can fall into a chilling isolating silence broken only by the hollow tick tock of a clock marking time passing separately Divorce a word often spoken in hushed somber tones behind closed hands or erupting in loud jagged shouts of anger and pain is rarely a single stark event It is a spectrum a complex tapestry woven from a thousand different threads some thick and dark with the stain of betrayal others worn thin and pale with unspoken neglect some vibrantly colored with sudden explosive fury others faded with the grey ash of slow creeping despair

Press, Francesca Tripodi, 2021-03-01 Feminism can reflect the cultural moment especially as media appropriate and use feminist messaging and agenda to various ends Yet media can also push boundaries exposing audiences to ideas they may not be familiar with and advancing public acceptance of concepts once considered taboo Moreover audiences are far from passive recipients especially in the digital age In Media Ready Feminism and Everyday Sexism Andrea L Press and Francesca Tripodi focus on how audiences across platforms not only consume but also create meanings sometimes quite transgressive meanings in engaging with media content If television shows such as Game of Thrones and Jersey Shore and dating apps such as Tinder are sites of persistent everyday sexism then so too are they sites of what Press and Tripodi call media ready feminism In developing a sociologically based conception of reception that encompasses media s progressive potential as well as the processes of domestication through which audiences and users revert to more limited cultural schemas Press and Tripodi make a vital contribution to gender and media studies and help to illuminate the complexity of our current moment
