Churches by Train Murray Naylor,2016-11-11 The second millennium saw the spread and consolidation of Christianity in

Britain One means by which the Normans tightened their grip on Britain after 1066 was by the construction of magnificent cathedrals thereby demonstrating their intention to remain here In his earlier book *Englands Cathedrals* by Train Murray Naylor explained how these hallowed buildings could be reached by train relating their history and their principal features His book invited readers to discover how the Normans and Victorians helped to shape our lives either in constructing cathedrals or inventing railways *Englands Great Historic Churches* is the logical follow on to this book *Travelling across England* it selects thirty two of our ancient churches relating their history and identifying those aspects which a visitor might overlook His journeys include the great medieval abbeys at Tewkesbury Selby and Hexham the less well known priories at Cartmel and Great Malvern and other grand churches severely reduced after the Dissolution of Henry VIIIs reign notably at Bridlington and Christchurch He visits a church at Chesterfield where the spire leans at a crooked angle and goes to Boston where the church known as the Stump was a starting point for many who emigrated to America in the 17th Century Pride of place goes to Beverley Minster In parallel he offers further observations on how railways have developed since the early 1800s and their future

England's Other Cathedrals Paul

Jeffery,2012-03-05 England's great cathedrals are widely considered to be the country's finest and most beautiful possessions. Few people realise however that in addition to these famous buildings there are many others that share or once shared some of that greatness. These other cathedrals have very varied origins. There were cathedrals established in Anglo Saxon times that subsequently lost that status. Further cathedrals founded after the Norman Conquest also later ceased. Henry VIII had plans to elevate many great monastic churches to cathedral status but most were unfulfilled. From the nineteenth century onwards many new cathedrals have been created both by the Church of England and by other Churches. Altogether eight groups are discussed containing in total well over a hundred buildings. Most are fine and many are or were in their size and magnificence fully comparable with the great cathedrals themselves. Some today stand complete and glorious. Others are now mutilated or in ruin. Some have been completely destroyed but even these may stir us by their lost glories. Paul Jeffery explores the often fascinating episodes of history that lie behind these groups of magnificent and frequently forgotten buildings. The spotlight is then turned on each one revealing many architectural and historical treasures.
