This groundbreaking work takes readers deep behind the blue wall of policing and police misconduct to expose what really happens when you try to hold the police accountable When you think about the police who do you think of Do you think of one officer or the police as an institution From movies and TV to everyday life a police presence looms over most civil conflict But if there were a defining feature of the 2020 protests over the murder of George Floyd and the many well publicized police incidents since it would be the collective confusion as to how we got to this point Policing it seemed had become as convoluted as it was brutal Despite fragmented media coverage about police unions militarization and systemic racism the average citizen's knowledge remained hazy on what exactly police officers had been doing all along There is indeed a Blue Wall but for the first time it is possible to get behind it The authors were senior investigators in the government agency tasked with policing the police in New York City They are our eyes on the inside and this book takes us into their world *Cop Cop* lays bare the web of real cases investigated by the authors over several years working for the Civilian Complaint Review Board CCRB As the authors probe cases from offensive language and chokeholds to stop and frisk and shootings the larger narrative builds to six simple solutions to fix American policing Combining the unique perspectives of police misconduct investigators with a synthesized history of policing this book offers new insights into current problems and issues and the practical steps necessary to create a criminal justice system that is truly just      *The Legacy of Indian Indenture* Maurits S. Hassankhan, Lomارش Roopnarine, Hans Ramsodh, 2016-11-10 This book is the second publication originating from the conference Legacy of Slavery and Indentured Labour Past present and future which was organised in June 2013 by the Institute of Graduate Studies and Research IGSR Anton de Kom University of Suriname The articles are grouped in four sections Section one concentrates on indenture in the Caribbean and the Indian Ocean and includes four diverse but inter related chapters and contributions These reveal some newly emerging impressive trends in the study of indenture essentially departing from the over used neo slave scholarship Not only are new concepts explored and analysed but this section also raises unavoidable questions on previously published studies on indenture Section two shows that there are many areas that need to be re examined and explored in the study of indenture The chapters in this section re examine personal narratives of indentured labourers the continuous connection between the Caribbean and India as well as education and Christianization of Indians in Trinidad The result is impressive The analysis of personal accounts or voices of indentured servants themselves certainly provides an alternative perception to archival information written mostly by the organizers of indenture Section three in this volume focuses on ethnicity and politics In segmented societies like Suriname Guyana and Trinidad Tobago institutional politics and political mobilization are mainly ethnically based In Suriname Trinidad Tobago and Guyana this has led to ethnic and political tensions These themes are explored in these three articles Section four addresses health medicine and spirituality themes which until recently have received little attention The first article examines the historical impact of

colonialism through indentureship on the health alternatives and health preferences of Indo Trinidadians from the period between 1845 to the present The second examines the use of protective talismans by Indian indentured labourers and their descendants Little or no psychological research has been done on the spiritual world of Indian immigrants enslaved Africans and their respective descendants with special reference to the use of talismans

**Animal Oppression and Human Violence** David A. Nibert, 2013-05-07 Jared Diamond and other leading scholars have argued that the domestication of animals for food labor and tools of war has advanced the development of human society But by comparing practices of animal exploitation for food and resources in different societies over time David A Nibert reaches a strikingly different conclusion He finds in the domestication of animals which he renames domesecration a perversion of human ethics the development of large scale acts of violence disastrous patterns of destruction and growth curbing epidemics of infectious disease Nibert centers his study on nomadic pastoralism and the development of commercial ranching a practice that has been largely controlled by elite groups and expanded with the rise of capitalism Beginning with the pastoral societies of the Eurasian steppe and continuing through to the exportation of Western meat centered eating habits throughout today's world Nibert connects the domesecration of animals to violence invasion extermination displacement enslavement repression pandemic chronic disease and hunger In his view conquest and subjugation were the results of the need to appropriate land and water to maintain large groups of animals and the gross amassing of military power has its roots in the economic benefits of the exploitation exchange and sale of animals Deadly zoonotic diseases Nibert shows have accompanied violent developments throughout history laying waste to whole cities societies and civilizations His most powerful insight situates the domesecration of animals as a precondition for the oppression of human populations particularly indigenous peoples an injustice impossible to rectify while the material interests of the elite are inextricably linked to the exploitation of animals Nibert links domesecration to some of the most critical issues facing the world today including the depletion of fresh water topsoil and oil reserves global warming and world hunger and he reviews the U S

government's military response to the inevitable crises of an overheated hungry resource depleted world. Most animal advocacy campaigns reinforce current oppressive practices. Nibert argues. Instead, he suggests reforms that challenge the legitimacy of both domestication and capitalism. *Mightier Than the Sword* Alice Hunt Friend, 2024-04-16. The civilian role in managing the military has never been more important. Today, civilian leadership of defense policy is challenged by the blurring line between war and competition and the speed of machine decision making on the battlefield. Moreover, the legitimacy of political leaders and civil servants has been undermined by a succession of foreign policy failures and by imbalances of public faith in the military on the one hand and disapproval of civilian institutions on the other. A central question emerges: What does appropriate and effective civilian control of the military look like? Combining scholarly expertise and firsthand civilian experience in the Department of Defense, Friend argues that civilians combine authoritative status, institutional functions, and political expertise to ensure that democratic preferences over the use of force prevail. Friend focuses on the ways political context shapes whether and how civilian controllers, the civilians in professional and institutional positions with the responsibility for defense matters, exercise control over the military and each other. *Mightier Than the Sword* provides insights that enrich civil-military relations scholarship as well as lessons aimed at revitalizing American democracy.
