Chern on Dispute Boards Cyril Chern, 2015-05-22. *Chern on Dispute Boards* examines the law of dispute boards and their development internationally while also covering procedural topics that are of particular concern to those utilising dispute boards. It deals with advanced practitioner issues in the emerging law of dispute boards on an international scale, laying out their methods and methodology not only under the common law but also under other legal systems such as Civil law and Shari'ah law. Excelling in describing the how and why, this book also gives samples and forms of actual working dispute boards that any practitioner could use and adapt to their own needs. Readers of this updated third edition will have explained to them the various international formats and types of dispute boards in use today and be brought up to date on the ever-evolving law within the field. New to this 3rd edition is the extensive coverage of appeals from Dispute Board Decisions, the laws relative to appeals and the ICC enforcement procedures and new forms and guidelines for the practitioner. This book guides the reader through the complexities of actual commercial and construction disputes and their successful resolution and also presents a way forward for the dispute board members themselves to administer actual dispute boards all over the world. It is therefore the number one guide for construction lawyers, engineers and dispute board stakeholders worldwide.

**Remedies in Construction Law** Roger ter Haar, 2017-06-14. *Remedies in Construction Law* brings together various well-established strands of the law and considers practical remedies for breach of contract and tort in connection with construction projects. Now in a fully updated second edition, it covers topics such as Damages, Termination, Quantum Meruit, Recovery, Injunctions, Limitation, ADR. This book continues to be a vital reference to lawyers and construction professionals seeking specialist insight into how remedies function in the construction sector.

*International Construction Law* Wolfgang Breyer, 2024-03-29. The construction industry routinely operates across international borders, which means that construction professionals need to have a good understanding of how legislation in different jurisdictions might affect their work. This book is an in-depth analysis of international construction law from all the major jurisdictions of the world alongside their relevant contract law principles, helping the reader to prepare for the complexity of an international construction project. The book begins by introducing the major families of law before looking at individual jurisdictions. Each chapter is written by an experienced legal professional operating in that region and covers subjects such as taking over defects, liabilities, warranties, design issues, termination, bonds and guarantees, limitation of liability and more. The systems included are German civil system, Germanic code, French civil system, Napoleonic code, English common law system, GCC countries civil law system with emphasis on UAE, Qatar, Saudi Arabia and Egypt, Nordic legal system, Chinese civil system. Finally, the book will discuss the national standard construction contracts used in the differing legal systems and the widely used FIDIC contracts. The combination of truly international coverage with the practical insight of

experienced practitioners means that this book will be invaluable to any professional involved in the construction industry including lawyers project managers contractors and investors as well as academics in the field      **International**
