Nelsen,2003 The general purpose of this study was to deepen and broaden thinking about the nature and implications of possible Multi Skilled Soldier MSS Concept implementation Specific objectives were 1 to determine applicability of the MSS to the Stryker Brigade Combat Team SBCT as it might be implemented in Initial Entry Training IET and 2 to prototype MSS Concept implementation for the SBCT considering possible implementation for the Future Force The report also defines the MSS shows how the MSS Concept might fit conceptually within a larger Army training education and professional development model for Soldiers of all ranks offers an MSS Program design for IET and crafts actionable recommendations regarding general MSS implementation for IET The study concludes that the MSS Concept is fully applicable to the SBCT as well as the so called Current Force It also concludes that MSS implementation would have a significant salutary effect on unit training readiness postures across the force This study relied heavily on insights and analysis gained from interviews with groups of senior NCOs and officers within the 3rd Brigade SBCT 2nd Infantry Division Ft Lewis WA during September 2002      **Perspective** ,1992-11      **The US Volunteers in the Southern Philippines** John Scott Reed,2020-07-23 In fighting the Philippine American War the United States counted heavily on twenty five new regiments raised in the summer of 1899 the United States Volunteers USVs The USVs outnumbered regular regiments in eleven of eighteen military pacification districts particularly through the southern archipelago where they bore the brunt of field service combat and disease casualties until relieved in spring 1901 by a reconstituted Regular Army The US Volunteers in the Southern Philippines offers the first full account of this historically unique 35 000 man force and in the process describes how the USVs decisively contributed to the United States single most successful counterinsurgency campaign waged outside the Western Hemisphere A close examination of the military achievements garrison life and institutional characteristics of the US Volunteers reveals how the force effectively combined the best elements of the

American regular and militia traditions during its brief existence abetted by an Army medical system vastly improved since debilitating losses in Cuba and the United States during 1898 Countering recent readings of the pacification of the Philippines as a near genocidal event John Scott Reed uses court martial records to argue for a high disciplinary and behavioral standard among the USVs in garrison in the field and most critically in their interactions with Filipino villagers This standard his evidence suggests was supported by a late Victorian reflexively patriotic sense of masculinity that motivated the Volunteers along with a profound belief in the self evident superiority of American institutions He also draws on recent Filipino scholarship to clarify the role of landed and commercial elites in initially supporting the Philippine Revolution and later collaborating with the US occupation Bridging military history and post colonial studies Reed s work provides a new and clearer understanding of the short lived but highly effective US Volunteer force and a new perspective on a critical moment in America s military and colonial past

INTRODUCTION Today s operational environment presents threats the Army has not faced in nearly 20 years Against peer competitors the joint force may face air parity or even localized enemy air overmatch challenging the assumption of air superiority the joint force has held since the Korean War This will make maneuver forces vulnerable to air attack by fixed and rotary wing aircraft unmanned aircraft systems and cruise missiles Maneuver forces lack capacity and capability to address these threats and the Army requires a speedy response Stinger missiles provide a key capability for maneuver forces to defend themselves from aerial observation and attack However without direct involvement from senior brigade combat team leaders and effective leader training these missiles will become dead weight at best or a fratricide in waiting at worst Units must plan effectively to utilize this capability and ensure it ties directly to their scheme of maneuver as opposed to simply task organizing one Stinger team per company Just a SAMPLE of the CONTENTS
