Fifty Readings in Philosophy Donald C. Abel, 2003 This is a collection of classic and contemporary primary sources in philosophy The readings cover all the main topics of Western Philosophy and each one is carefully edited to be long enough to present an argument Back cover CREATE COLLECTION ONLY Discourses Collection (Philosophy Readings) Donald Abel, 2015-03-13 *Social Philosophy 2' 2005 Ed. (including Gen.& Professional Ethics for Teachers)* , Evil and Pain Joseph B. Onyango Okello, 2017-06-15 A specific form of understanding of evil in the problem of evil debate gets assumed among a variety of materialistic naturalists Owing to their physicalist and in some cases behaviorist philosophies this understanding assumes a hedonistic view of pain that reduces valuation to pleasure and pain Herein all forms of good and evil get reduced to pleasure and pain This work reorients the debate toward a more biblical understanding of evil based on an essentialist reading of ethics The book argues that the hedonistic understanding of value characterizing prominent naturalistic materialists such as those alluded to by J L Mackie semantically seems to entail either a synonymous or a near synonymous relationship between evil and pain The book further argues that this understanding given the essentialist reading of ethics seems wrongheaded By reorienting the contours of the debate it suggests that the problem of pain might in effect be quite different from the problem of evil and that neither problem necessarily entails the other Seen in this way

neither problem casts doubt on belief in God's existence      **The Revolt of Unreason** Michael Candelaria, 2012-01-01 This book examines solutions to the crisis of modernity proposed by the Spanish philosopher Miguel de Unamuno and the Mexican philosopher Antonio Caso. Acceptance of the objective claims of modern scientific rationality and the consequent rejection of the objective validity of artistic, moral, and religious claims generates the crisis of modernity. The problem is that of justifying artistic, moral, and religious claims. Miguel de Unamuno in his classic work *The Tragic Sense of Life* addresses the conflict between the belief in personal immortality and modern scientific rationality. Holding that there is no rational justification for the belief in immortality, Unamuno finds a solution in a saving scepticism to act as if he deserved immortality. In his book *Existence as Economy as Art and Charity*, Caso attempts to create an *aposteriori* metaphysics based on the current results of science supplemented by the intuitions of art and morality. In doing so, Caso believes that he has enlarged the scope of the knowable to include objects of art, morality, and religion. Unamuno, by accepting the strict line of demarcation between faith and reason, has no other recourse but to turn to decisionism. By turning to intuitionism, Caso believes that he has blurred the line of demarcation. Decisionism and intuitionism therefore are worthy of further exploration.      **Proceedings and**

While seeking to be comprehensive, historian Joseph Early Jr. centers on key events, people, theological developments, and conflicts that have shaped Christianity over its two thousand year history. He also presents the development of Christianity within the social, political, and economic challenges of the times. In doing so, he paints a clear, detailed, and balanced picture of the opportunities and struggles faced by the church and the contributions made by significant people, institutions, and traditions. A History of Christianity is an ideal introductory survey for undergraduate students and any reader who desires to know more about the broad scope of Christianity.      **Taste and the Household** Janet McCracken, 2001-09-20 Shows how lousy food, cheesy clothes, and dingy homes can ruin our lives.

**Postmodern Racial Dialectics** Richard A. Jones, 2015-12-07 Postmodern Racial Dialectics is a collection of ten essays on African American philosophy. Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U.S. to conceptions of Black utopianism to the nature of postmodern revolutions, these essays are beyond the bounds of traditional racial discourse. The essays are dialectical in the sense that they are conversations between personal histories, between ideologies, and between changing ways that the races talk to one another. The book is postmodern in that it is beyond

modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line     The Cumulative Book Index ,1996 A world list of books in the English language     American Book Publishing Record ,2003     História da filosofia e teologia ocidental John Frame,2023-11-28 História da filosofia e da teologia ocidental fruto de quarenta e cinco anos de ensino de John Frame sobre temas filosóficos Nenhuma outra investigação da história do pensamento ocidental oferece a mesma mistura revigorante de clareza expositiva insight crítico e sabedoria pública Complementada por guias de estudo bibliografias links para citações famosas de pensadores influentes vinte apêndices e um capítulo de glossário este livro que ganhou o prêmio Gold Medallion Book Award uma excelente escolha como manual para cursos de nível universitário seminários e estudo pessoal     Gandhi's Thought and Liberal Democracy Sanjay Lal,2019-03-13 This work explores issues in Gandhi scholarship political theory and religion By applying core aspects of Gandhian philosophy to the present age it shows a harmony between commonly taken to be disparate aspects of social life that should interest anyone concerned about the future prospects for liberalism     **The British National Bibliography** Arthur James Wells,1994     *Can There be Morality Without Religion* S.
