An Intergenerational Feminist Media Studies Jessalynn Keller, Jo Littler, Alison Winch, 2019-10-23 Feminism and

generation are live and ideologically freighted issues that are subject to a substantial amount of media engagement. The figure of the millennial and the baby boomer for example regularly circulate in mainstream media often accompanied by hyperbolic and vitriolic discourses and effects of intergenerational feminist conflict. In addition theories of feminist generation and waves have been and continue to be extensively critiqued within feminist theory. Given the compelling criticisms directed at these categories we ask why bother examining and foregrounding issues of generation intergeneration and transgeneration in feminist media studies. While remaining skeptical of linearity and familial metaphors and of repeating reductive heteronormative and racist versions of feminist movements we believe that the concept of generation does have critical purchase for feminist media scholars. Indeed precisely because of the problematic ways in which it is used and its prevalence as a volatile yet only too palpable organizing category generation is in need of continual critical analysis and is an important tool to be used with care and nuance when examining the multiple routes through which power functions in order to marginalize reward and oppress. This book covers a range of media forms film games digital media television print media and practices of media production intervention and representation. The contributors explore how figures at particular stages of life particularly the girl and the aging woman are constructed relationally and circulate within media with particular attention to sexuality. The book emphasizes exploring the ways in which the category of generation is mobilized in order to gloss sexism racism ageism class oppression and the effects of neoliberalism. The chapters in this book were originally published as a special issue of *Feminist Media Studies*.

The Future of the Nineteenth-Century Dream-Child Amy Billone, 2016-06-10 This book investigates the reappearance of the 19th century dream child from the Golden Age of Children's Literature both in the Harry Potter series and in other works that have reached unprecedented levels of popular success today. Discussing Harry Potter as a reincarnation of Lewis Carroll's Alice

and J M Barrie's Peter Pan Billone goes on to examine the recent resurrection of Alice in Tim Burton's Alice and of Peter Pan in Michael Jackson and in James Bond Visiting trends that have emerged since the Harry Potter series ended the book studies revisions of the dream child in texts and films that have inspired mass fandom in the twenty first century Stephenie Meyer's Twilight E L James's 50 Shades of Grey and Suzanne Collins's The Hunger Games The volume argues that the 21st century desire to achieve dream states in relationship to eternal youth results from the way that dreams provide a means of realizing the fantastic yet alarming possibility of escaping from time This current identification with the dream child stems from the threat of political unrest and economic and environmental collapse as well as from the simultaneous technophilia and technophobia of a culture immersed in the breathless revolution of the digital age This book not only explores how the dream child from the past has returned to reflect misgivings about imagined dystopian futures but also reveals how the rebirth of the dream child opens up possibilities for new narratives where happy endings remain viable against all odds It will appeal to scholars in a wide variety of fields including Childhood Studies Children's YA Literature Cinema Studies Cultural Studies Cyberculture Gender Studies Queer Studies Gothic Studies New Media and Popular Culture **Darker** E.
