Fighting Sail Fleet Actions 1775 1815 Osprey Wargames:

Fighting Sail Ryan Miller, 2015-05-20 In the years between 1776 and 1815 grand square rigged sailing ships dominated warfare on the high seas *Fighting Sail* is a tabletop wargame of fleet battles in this age of canvas cannon and timbers Players take on the roles of fleet admirals in battles ranging from the American War of Independence to the Napoleonic Wars and the War of 1812 Each fleet has access to different ships tactics and command personalities each with its own strengths and weaknesses Offering a unique blend of detail and simplicity the scenarios included enable the recreation of historic actions or what if scenarios Join the battle and experience the adventurous age of the fighting sail **The Improbable Victory: The**

Campaigns, Battles and Soldiers of the American Revolution, 1775-83, 2017-09-21 A lavishly illustrated volume marking the defining point in American history The American Revolution reshaped the political map of the world and led to the birth of the United States of America Yet these outcomes could have scarcely been predicted when the first shots were fired at Lexington and Concord American rebel forces were at first largely a poorly trained inexperienced and disorganized militia pitted against one of the most formidable imperial armies in the world Yet following a succession of defeats against the British the rebels slowly rebounded in strength under the legendary leadership of George Washington The fortunes of war ebbed and flowed from the humid southern states of America to the frozen landscapes of wintry Canada but eventually led to the catastrophic British defeat at Yorktown in 1781 and the establishment of an independent United States of America *The Improbable Victory* is a revealing and comprehensive guide to this seminal conflict from the opening skirmishes through the major pitched battles up to the Treaty of Paris in 1783 Impressively illustrated with photographs and artwork it provides an invaluable insight into this conflict from the major command decisions down to the eye level of the front line soldier

Published to coincide with the official opening of the new American Revolution Museum at Yorktown **Chosen Men** Mark Latham, 2016-12-15 *Chosen Men* is a set of fast action skirmish rules detailing the bloody skirmishes between light troops in the Napoleonic Wars The primary focus of the game is on soldiers and NCOs in light flank companies as they scout ahead of larger forces and take part in man to man actions against enemy skirmishers Although the game allows for the formation of accurately sized companies of light infantry and cavalry if you wish these formations are broken down into small groups of up to a dozen men For the most part officers are not swashbuckling super heroes but staunch commanders who rally and direct their men to achieve the battlefield objectives Although the game uses an alternating action turn sequence officers can use their influence on multiple units at the same time in an effort to steal the initiative With all rolls resolved using standard 6 sided dice this game combines a classic wargaming feel with modern wargame mechanics **Poseidon's Warriors** John

Lambshead, 2016-06-16 *Poseidon's Warriors* is a set of wargaming rules for large scale naval actions between fleets of Classical galleys from the Greek and Persian clash at the battle of Salamis to the battle of Actium that decided the fate of Rome With so many of these battles taking place around islands or in narrow channels and shallow waters sneaky tactics and

cunning manoeuvres are a hallmark of warfare of this era and the rules use an integrated turn system to allow a commander to position ships to go in and ram without being rammed in return or to employ feints and traps to tempt the enemy out of position and leave his ships vulnerable to a follow up strike With data for ships throughout the period rules for famous admirals historical scenarios a campaign system and a brief historical summary for those who wish to refresh their memory of the era Poseidon s Warriors offers everything players need to bring to the tabletop the battles and campaigns of the first great age of naval warfare **Honours of War** Keith Flint,2015-11-20 The Seven Years War was the pinnacle of 18th century warfare with dramatic campaigns and battles famous leaders and wide variety of colourful uniforms Compared with the later Napoleonic Wars tactics were simpler armies more professional and battles tended to be smaller Using these quick to learn rules players can bring this period to the tabletop recreating anything from a small skirmish to a major pitched battle Although simple the rules allow for a wide range of tactics and reward historical play That said fog of war sometimes produces unexpected results and units don t always obey their orders The game moves quickly and players must be prepared to regroup and counterattack or to press home an advantage a lot can happen in one move En Garde! Craig Woodfield,2016-01-20 En Garde is a small scale skirmish game based on the successful Ronin rules in which small groups of warriors fight each other for honour or riches Rather than just rolling a few dice the rules allow players to make tactical decisions about how the models that they control will fight offensively defensively or by applying special skills and abilities En Garde covers the conflicts of the 16th 17th and early 18th centuries when black powder weapons started to become common in battle but martial prowess still determined the outcome Play as Border Reivers Conquistadors Landsknechts Aztecs French Musketeers Caribbean Pirates and many more in scenarios that evoke classic engagements of the genre Simple campaign rules allow multiple scenarios to be played in sequence and permit warbands to develop over time An appendix is also included to provide brief rules for supernatural creatures of the period monsters demons revenants and witches and new abilities and equipment to fight them making En Garde the perfect ruleset for gamers who want something a bit different from the norm *Black Ops* Guy Bowers,2015-10-20 Black Ops is a skirmish wargame of tactical espionage combat that recreates the tension and excitement of modern action thrillers such as the Bond and Bourne films The fast play rules keep all the players in the thick of the action while the mission generator provides a wide range of options for scenarios from stealthy extraction or surveillance missions to more overt raids and assaults Stealth combat and technical expertise all have a role to play and players may recruit a number of different operative types spies mercenaries criminals hackers special forces and many more to recruit the best possible team for the job Players may also choose to join a faction powerful organizations intelligence agencies criminal syndicates militaries or rebel groups each with a stake in international affairs By doing so their team may receive certain benefits but may also find itself limited at a crucial time With the variety offered by the characters factions and scenarios no two games of Black Ops should ever be the same **Broadsides** Castle

Books, Nathan Miller, 2005 Roosevelt is brought to life once again in a clear concise and well documented story from beginning to end it is a pleasure Washington Post Book World *Fighting Sail* ,1977 *Naval Warfare Under Sail* W. E. McKenzie, Barry Llewellyn Thomas Edwards, 1991 **The Age of Fighting Sail** Cecil Scott Forester, 1968 *The Age of Fighting Sail* Cecil Scott Forester, 1970 **Don't Give Up the Ship!** Ron Toelke, 2007-07
