Difference Identity A Theological Anthropology:

Difference & Identity Ian Alexander McFarland, 2001 Ian A McFarland uses Jesus to overcome the block of acknowledging those who are considered different from ourselves and explores the premise that knowing what we are as human beings is less important than the knowing who makes us what we are Reflecting on scripture and theological concepts McFarland explores the way in which Jesus Christ's personhood shapes our own and mediates our encounters with others Rather than suppressing human differences in order to provide a common denominator and affirm equality among persons this book explores the notion of difference as being fundamental to our identity as human beings **T&T Clark Handbook**

of Theological Anthropology Mary Ann Hinsdale, Stephen Okey, 2021-01-28 Including classical modern and postmodern approaches to theological anthropology this volume covers the entire spectrum of thought on the doctrines of creation the human person as imago Dei sin and grace The editors have gathered an exceptionally diverse range of voices ensuring ecumenical balance Protestant Roman Catholic and Orthodox and the inclusion of previously neglected perspectives women African American Asian Latinx and LGBTQ The contributors revisit authors from the Great Tradition early church medieval and modern and discuss them alongside critical and liberationist approaches ranging from feminist decolonial and intersectional theory to critical race theory and queer performance theory This is a much needed overview of a rapidly evolving field *Sex Difference in Christian Theology* Megan K. DeFranza, 2015-05-16 How different are men and women When does it matter to us or to God Are male and female the only two options In *Sex Difference in Christian Theology* Megan DeFranza explores such questions in light of the Bible theology and science Many Christians entrenched in culture wars over sexual ethics are either ignorant of the existence of intersex persons or avoid the inherent challenge they bring to the assumption that everybody is born after the pattern of either Adam or Eve DeFranza argues from a conservative theological standpoint that all people are made in the image of God male female and intersex and that we must listen to and learn from the voices of the intersexed among us **Personal Identity in Theological Perspective** Richard Lints, Michael Scott

The Theological Imperative to Authenticity Christy Capper, 2022-11-04 From a theological viewpoint this book explores the junction between the philosophical existential idea of the authentic self and its cultural appropriation The text builds on the theology of John Macquarrie and the narrative formation of identity to construct a theological definition of authentic selfhood It then contrasts this definition with the common idea that authenticity in the moral sense can be used to justify any action The author argues that this is not genuine authenticity Instead they consider

that authenticity rests upon loyalty to something greater than oneself and for Christians this is the character of the God in whose image they are created and are being formed This book is illuminating reading for students and scholars of theological anthropology pastoral theology ethics and moral philosophy **The Oxford Handbook of Evangelical Theology** Gerald R. McDermott, 2013-12 This volume surveys the state of the discipline on topics of greatest importance to evangelical theology The authors critically assess the state of the question from both classical and evangelical traditions and propose a future direction for evangelical thinking on the subject R sum de l diteur *Original Sin and the Evolution of Sexual Difference* Megan Loumagne Ulishney, 2022-11-03 *Original Sin and the Evolution of Sexual Difference* develops an interdisciplinary conversation between evolutionary biology feminist philosophy and theology in order to illuminate the entanglement of Christian thinking about original sin with theologies of sexual difference It then assesses the opportunities for rethinking original sin and its implications for theologies of sexual difference in light of developments in evolutionary biology and feminist theology and philosophy Despite some resistances in the present age to conceptions of both original sin and meaningful sexual differences this study argues that both can provide essential insights that help to make sense of some of the features of human life in the twenty first century especially the stubborn persistence of inequality poverty environmental degradation and the pernicious patterns of sexual violence and abuse that have been uncovered by the MeToo movement To this end Megan Loumagne Ulishney marshals resources from a variety of places Augustine of Hippo feminist theology the Extended Evolutionary Synthesis John Paul II and a new group of feminist philosophers known as the New Feminist Materialists to develop an analysis of original sin and sexual difference that is grounded in both scientific and theological insights about creaturely life The project cultivates a sense of wonder at the diversity and unpredictability of human biology a value for the role of creativity in the human participation that partially shapes our ongoing evolution and humility about the extent to which we can predict and control the future of the evolution of our species It illuminates the interdependencies that define creaturely life the persistent entanglement of nature and culture the centrality of desire to human identity and behaviour and the role played by biology in the transmission of sin It develops a vision of material life as evolving generative and imbued with activity but also as simultaneously infected with sin and saturated with the divine

Who God Says You Are Klyne R. Snodgrass, 2018-01-08 **WHO ARE YOU** For respected New Testament scholar Klyne Snodgrass this is the most important question a person can ask the question from which everything else in life flows Other questions follow What made you who you are Who gets to say who you are And perhaps most vital Who does God say you are In this book Snodgrass offers wise guidance to all who are wrestling with such universal human questions He examines nine factors including one's body personal history commitments and boundaries that shape human identity and he expertly draws out what the Bible tells us about who God says we are how we fit within God's purposes and how our God-given identity can and must impact the way we live our lives *Lutheran Identity and Political Theology* Carl-Henric Grenholm, Goran

Gunner,2015-03-26 Lutheran tradition has in various ways influenced attitudes to work the economy the state education and health care One reason that Lutheran theology has been interpreted in various ways is that it is always influenced by surrounding social and cultural contexts In a society where the church has lost a great deal of its cultural impact and authority and where there is a plurality of religious convictions the question of Lutheran identity has never been more urgent However this question is also raised in the Global South where Lutheran churches need to find their identity in a relationship with several other religions Here this relationship is developed from a minority perspective Is it possible to develop a Lutheran political theology that gives adequate contributions to issues concerning social and economic justice What is the role of women in church and society around the world Is it possible to interpret Lutheran theology in such a way that it includes liberating perspectives These are some of the questions and issues discussed in this book *Racism and the Image of God* K. Teel,2010-11-22 From her perspective as a white feminist theologian Karen Teel dialogues with five womanist thinkers to develop a Christian theology of the body that can compel Christians especially U S Christians of European descent to actively resist the sin of racism A Theology of Race and Place Andrew Thomas Draper,2016-08-26 In a world marked by the effects of colonial displacements slavery's auction block and the modern observatory stance can Christian theology adequately imagine racial reconciliation What factors have created our society's racialized optic a view by which nonwhite bodies are objectified marginalized and destroyed and how might such a gaze be resisted Is there hope for a church and academy marked by difference rather than assimilation This book pursues these questions by surveying the works of Willie James Jennings and J Kameron Carter who investigate the genesis of the racial imagination to suggest a new path forward for Christian theology Jennings and Carter both mount critiques of popular contemporary ways of theologically imagining Christian identity as a return to an ethic of virtue Through fresh reads of both the tradition and liberation theology these scholars point to the particular Jewish flesh of Jesus Christ as the ground for a new body politic By drawing on a vast array of biblical theological historical and sociological resources including communal experiments in radical joining A Theology of Race and Place builds upon their theological race theory by offering an ecclesiology of joining that resists the aesthetic hegemony of whiteness embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% **Identity, Ethics, and Nonviolence in Postcolonial Theory** S. Abraham,2007-04-30 Abraham argues that a theological imagination can expand the contours of postcolonial theory through a reexamination of notions of subjectivity gender and violence in a dialogical model with Karl Rahner She questions of whether postcolonial theory with its disavowal of religious agency can provide an invigorating occasion for Catholic theology **Christian Doctrine and the Grammar of Difference** Janice McRandal,2015-02-01 McRandal argues that the doctrinal narrative of creation fall and redemption provides resources to resolve the theological impasse of difference in contemporary feminist theology The divine

economy reveals a God who enters into history and destabilizes fixed binaries and oppressive categories As created subjects we are sustained affirmed and drawn back into the Triune life patterns present in liturgy prayer and practices of contemplation The grammar of Christian faith cannot ultimately be uncovered except in prayer opened beyond itself to a source of life and giving *A Different Way of Being* David Kirwa Tarus,2019-02-28 If my people who are called by my name will humble themselves and pray and seek my face and turn from their wicked ways then I will hear from heaven and I will forgive their sin and will heal their land 2 Chronicles 7 14 Kenya is a diverse nation with many ethnic communities and cultural traditions However this diversity has led to deep divisions over the years resulting in entrenched ethno-political tension and conflict In this book Dr David Kirwa Tarus advocates for a Christian theological response to the nation's divisions by presenting various theological perspectives on anthropology society and politics including those of John Calvin and John Mbiti as well as other prominent Kenyan theologians This work traces the history of ethno-political conflict in Kenya and the church's response from 1895 to 2013 and thoroughly examines how a reformed theology can provide a pathway to social cohesion in Kenya David Tarus humbly yet boldly challenges Kenyans to pursue national unity and peace by interrogating their allegiances to their ethnic communities and political parties This book carefully argues why it is only a Christian identity commitment to humanity as bearing the divine image and the triune God himself that can heal the divisions in this land and in turn bring an end to other social evils such as corruption intolerance and violence Ethno-political conflict is not confined to one nation and this study will bear much fruit in other contexts where people yearn for social cohesion

Reading Joshua as Christian Scripture Douglas S. Earl,2010-06-30 The book of Joshua has been received and used as Christian Scripture throughout Christian history The challenge today however is how Christians should appropriately continue to read Joshua as Scripture not least in the light of well known historical and ethical difficulties with the narrative In *Reading Joshua as Christian Scripture* Douglas Earl draws on conceptual resources offered by recent anthropological approaches to myth and combines this with a close literary reading of the text in order to argue that Joshua is misconstrued when it is treated as a historical account of conquest Instead in its ancient Israelite context Joshua functioned to reshape accepted norms of community identity as reflected in the book of Deuteronomy by forming a new cultural memory Furthermore Earl reconsiders the traditional notion of the spiritual sense of Scripture in terms of a rich account of symbol and also makes use of the narrative hermeneutics of Paul Ricoeur The result is a fresh and unexpected reading of Joshua as Christian Scripture that develops the original function of the narrative in a way that resonates with classic premodern readings and is also challenging to contemporary Christian understandings of identity and faithfulness **Human Identity at the Intersection of Science, Technology and Religion** Dr Christopher C Knight,Professor Nancey Murphy,2013-06-28 Humans are unique in their ability to reflect on themselves Recently a number of scholars have pointed out that human self conceptions have a history Ideas of human nature in the West have always been shaped by the interplay of philosophy

theology science and technology The fast pace of developments in the latter two spheres neuroscience genetics artificial intelligence biomedical engineering call for fresh reflections on what it means now to be human and for theological and ethical judgments on how we might shape our own destiny in the future The leading scholars in this book offer fresh contributions to the lively quest for an account of ourselves that does justice to current developments in theology science technology and philosophy

Human Identity at the Intersection of Science, Technology and Religion Christopher C. Knight, 2016-05-13 Humans are unique in their ability to reflect on themselves Recently a number of scholars have pointed out that human self conceptions have a history Ideas of human nature in the West have always been shaped by the interplay of philosophy theology science and technology The fast pace of developments in the latter two spheres neuroscience genetics artificial intelligence biomedical engineering call for fresh reflections on what it means now to be human and for theological and ethical judgments on how we might shape our own destiny in the future The leading scholars in this book offer fresh contributions to the lively quest for an account of ourselves that does justice to current developments in theology science technology and philosophy

Identity and Idolatry Richard Lints, 2015-08-10 In this New Studies in Biblical Theology volume Richard Lints argues that idol language in the Bible is a conceptual inversion of the image language of Genesis 1 He shows how the narrative of human identity runs from creation to fall to redemption in Christ and examines the recent renaissance of interest in idolatry with its conceptual power to explain the culture of desire

Reading Karl Barth Chris Boesel, 2023-01-04 Reading Karl Barth provides a cluster of major themes and signposts by which to orient one's reading of Barth's theology It assists readers in recognizing and understanding what Barth is doing theologically and why and how he is doing it and by assessing the extent to which Barth's theology is or is not a fruitful resource for their own context as individuals and communities of faith The distinctive value of the book's approach lies in its demonstration of the ways in which Barth's theology in both his own time and in ours cuts both ways to the theological left and right This involves identifying various theological logics that constitute the diverse and conflictual landscape of shared Christian identity and faith both in Barth's time and in our own enabling readers to recognize not only where and why Barth is located in that landscape but also where and why they themselves are located together with their respective faith communities This makes the book of particular interest to individuals and communities of faith who feel themselves homeless in today's polemical polarization between theological conservatives and theological progressives especially those who are hungry for the possibility of a progressive socio political vision of the gospel rooted in relatively traditional confessions of Christian faith

Sexual Difference, Gender, and Agency in Karl Barth's Church Dogmatics Faye Bodley-Dangelo, 2019-10-03 This volume is a critical and constructive analysis of the sexually differentiated self in Karl Barth's Church Dogmatic It secures in his Christocentric pattern of human agency an untapped resource for unsettling and reimagining the heteropatriarchal structure of human fellowship at the heart of his theological anthropology Moving through Barth's doctrines of revelation creation

theological anthropology and special ethics Faye Bodley Dangelo locates the human agent in his broader project aimed at rehabilitating the subject of modern protestant theology She argues the human actor comes into view as the recipient of Christ's redemptive activity which redirects it out of self aggrandizing isolation and into relationships of dependency responsiveness and ethical responsibility to multiple sites of divine and creaturely alterity The book debates that Barth's model of human agency cannot on its own terms sustain his version of female subordination nor his repudiation of same sex relationships Rather it contains ethically oriented critical and reflective mechanisms that resist the sexist heterosexist dimension of his theological anthropology and lend themselves to an anti essentialist performative account of gender
