information at any time and from anywhere as well as buy goods with the click of a button and have them delivered within hours while time management apps and locative media have altered how everyday scheduling and mobility unfolds Digital Timescapes makes the case that we have transitioned to an era where the production and experience of time is qualitatively different to the pre digital era Rob Kitchin provides a synoptic account of this transition charting how digital technologies in a wide range of manifestations are reconfiguring everyday temporalities Attention is focused on the temporalities associated with six sets of everyday practices history and memory politics and policy governance and governmentality mobility and logistics planning and development and work and labour Critically how to challenge and reorder digitally mediated temporal power is examined through the development of an ethics of temporal care and temporal justice Conceptually and empirically rich Digital Timescapes is an essential guide to our new temporal regime It will be of interest to students and scholars of Media Studies Science and Technology Studies Sociology Anthropology Human Geography and History and Memory Studies as well as those who are interested in how digital technologies are transforming society   *Digital Decision Making* Ray Corrigan,2009-10-12 Since the mid 1990s when the general public began using the Internet governments and commerce have made vast investments in digital communications technology There has been confusion and sometimes controversy over these for example the proposed UK identity card system The far reaching commercial and social implications of decisions made in invisible or opaque specialist fields should concern every citizen This book argues that decisions should be based on an understanding of the systems technology and environment within which they operate that experts and ordinary people should work together and that technology and law are evolving in restrictive rather than enabling ways   **Digital Leadership and Organizational Learning: Technologies for Business Transformation and Operational Excellence** Rakibul Hasan Chowdhury,2025-05-21 The idea for this book emerged from a deep reflection on the technological revolution reshaping the foundations of modern business In recent years I have witnessed firsthand both in research and practice how technologies such as Artificial Intelligence Machine Learning Blockchain and Business Analytics have moved from the periphery to the very core of organizational strategy Yet as these tools continue to evolve it has become increasingly evident that technology alone cannot drive sustainable excellence It is the intersection of digital innovation and organizational learning that unlocks true transformation As a researcher consultant and practitioner in the field of digital business and analytics I have had the privilege of engaging with organizations of all sizes across multiple sectors and in various stages of digital maturity This book is a synthesis of those experiences bolstered by academic rigor empirical research and case based insights It reflects my belief that leaders who can learn and organizations that can adapt will define the future of enterprise success My intention is not merely to describe technological trends but to equip leaders managers analysts and educators with a framework for action one that balances strategy systems and human capability in pursuit of operational excellence Purpose and Scope of the Book The primary purpose of this book is to guide current and future leaders in understanding how

to leverage today s business technologies to foster continuous learning improve operational performance and sustain competitive advantage Rather than offering a narrow view of digital tools this book adopts an ecosystem perspective examining how various technologies interact with organizational structures cultures and capabilities to shape outcomes At the core is a vision of the organizational learning ecosystem a structured yet adaptive environment where learning is constant technology is contextual and excellence is iterative Key themes include The evolving role of leadership in digital transformation Emerging technologies that drive operational efficiency The importance of data driven decision making Strategies for implementing learning cultures and systems Real world case studies and practical frameworks for change Tools to measure sustain and scale technological impact This book covers twelve core chapters moving from foundational principles to advanced implementation strategies It is supported by appendices that provide templates glossaries and curated reading lists for those seeking to operationalize the concepts in their own environments Intended Audience This book is written for a broad but strategically focused audience those spans sectors and professional roles It will be especially useful for Business leaders and executives seek to future proof their organizations through technological innovation and learning Operational managers and team leaders are responsible for optimizing processes performance and digital adoption Chief Learning Officers HR professionals and L D specialists aiming to build scalable and adaptive learning ecosystems Technology consultants and enterprise architects are involved in systems integration and digital transformation Academic researchers and graduate students in the fields of business analytics information systems and management Entrepreneurs and innovation champions are eager to apply emerging technologies for strategic advantage Whether you re a C suite executive navigating enterprise wide transformation or a data analyst striving to improve performance metrics this book aims to offer actionable insights conceptual clarity and practical tools that empower you to lead through learning and leverage technology for sustained excellence Let this book be both a map and a compass as you journey into the evolving landscape of digital business leadership   *Rethinking Culture and Creativity in the Digital Transformation* Luciana Lazzeretti,Stefania Oliva,Niccolò Innocenti,Francesco Capone,2023-03-31 This book discusses the role of digital technologies in the growth and development of cultural organizations and the creative sector It includes contributions by authoritative scholars who address this topic through different perspectives methodologies and approaches The first part of the volume focusses on theoretical contributions that identify the main transformations caused by the digital revolution the use of data outlining new possible analytic frameworks and future lines of research The second part of the volume presents empirical contributions applied to different fields in the study of the cultural and creative sectors These range from analyses of traditional cultural organizations such as museums the evolution of trajectories in the fashion industry techno creative communities digital services for tourism to cultural and creative industries and wealth and creative work This edited volume will be of great value to scholars in the fields of Economics and Management including Economic Geography and Economic Development Students

and researchers interested in learning more about new technologies and their impact on cultural and creative sectors will also benefit from this book This book was originally published as a special issue of European Planning Studies
