Dialogicality in Development Ingrid E. Theory and Practice of Dialogical Community Development Peter Westoby, Gerard Dowling, 2013-07-18 This book proposes that community development has been increasingly influenced and co-opted by a modernist soulless rational philosophy reducing it to a shallow technique for solving community problems In contrast this dialogical approach re-maps the ground of community development practice within a frame of ideas such as dialogue hospitality and depth For the first time community development practitioners are provided with an accessible understanding of dialogue and its relevance to their practice exploring the contributions of internationally significant thinkers such as P Freire M Buber D Bohm and H G Gadamer J Derrida G Esteva and R Sennett What makes the book distinctive is that first it identifies a dialogical tradition of community development and considers how such a tradition shapes practice within contemporary contexts and concerns economic social political cultural and ecological Second the book contrasts such an approach with technical and instrumental approaches to development that fail to take complex systems seriously Third the approach links theory to practice through a combination of storytelling and theory reflection ensuring that readers are drawn into a practice theory that they feel increasingly confident has been tried and tested in the world over the past 25 years

Bakhtin and Theatre Dick Mccaw, 2015-07-30 What did Bakhtin think about the theatre That it was outdated That is stopped being a serious genre after Shakespeare Could a thinker to whose work ideas of theatricality viscosity and embodied activity were so central really have nothing to say about theatrical practice Bakhtin and Theatre is the first book to explore the relation between Bakhtin's ideas and the theatre practice of his time In that time Stanislavsky co-founded the Moscow Art Theatre in 1898 and continued to develop his ideas about theatre until his death in 1938 Stanislavsky's pupil Meyerhold embraced the Russian Revolution and created some stunningly revolutionary productions in the 1920s breaking with the realism of his former teacher Less than twenty years after Stanislavsky's death and Meyerhold's assassination a young student called Grotowski was studying in Moscow soon to break the mould with his Poor Theatre All three directors challenged the prevailing notion of theatre drawing on disagreeing with and challenging each other's ideas Bakhtin's early writings about action character and authorship provide a revealing framework for understanding this dialogue between these three masters of Twentieth Century theatre

Landmark Essays on Bakhtin, Rhetoric, and Writing Frank Farmer, 2020-11-25 The essays in this collection give voice to the plurality of approaches that scholars in the field of rhetoric and composition have when they set forth to assimilate Bakhtin for their varied purposes The collection is arranged in three major sections The first attempts to capture the most important theoretical extensions of Bakhtin's ideas and does so with an emphasis on what Bakhtin might contribute to the present understanding of language and rhetoric The next section explores the implications of Bakhtin's work for both disciplinary identity and writing pedagogy The final section looks at how Bakhtinian thought can be used to bring new light to concerns

that his work either does not address or could not have imagined addressing concerns ranging from writing across the curriculum to feminism and from computer discourse to the writing of a corporation annual report Together these essays demonstrate how fruitfully and imaginatively Bakhtin's ideas can be appropriated for a context that he could not have anticipated They also serve as an invitation to sustain the dialogue with Bakhtin in the future so that researchers may yet come to realize the fortuitous ways that Bakhtin will continue to mean more than he said

Dialogue and Conflict on Religion. Studies of Classroom Interaction in European Countries Ina ter Avest, Dan-Paul Jozsa, Thorsten Knauth, Javier Rosón, Geir Skeie, 2009 Regarding teaching about religions and worldviews there is a gap between the ambitions of educational policies and our knowledge about what really happens in the classroom Research on classroom interaction about religion is not very far developed either nationally or as international and as comparative research There is a growing awareness however that research on pupils' perspectives on religion in education is needed in order to develop sustainable approaches for future education and this book is a contribution to this research The classroom can be seen as an arena both for learning and for micro politics This arena is shaped and sometimes challenged and restricted or even curtailed by the wider societal and political context In this book we present studies of classroom interaction that focus on the micro sociological level of research The studies presented open up a rather unexplored field of international comparative research on religion in education and the role of diversity for classroom interaction giving deeper insights into what happens in classrooms displaying varieties of interactive patterns and relating these to their specific contexts

Bakhtin and Translation Studies Dr. Amith Kumar P.V., 2016-01-14 This book investigates the process of translation in light of the dialogical principles proposed by the Russian literary theorist and philosopher Mikhail Bakhtin It problematizes interlingual translations by questioning the two extreme tendencies in translation namely complete target orientedness on the one hand and close imitation of the source text on the other In the field of cultural encounters it envisages a Bakhtinian model which is

proposed as an alternative to the existing interpretations that discuss the cultural subtleties when two different cultures encounter each other. The overall framework of the book is Bakhtinian; that is, it adopts a dialogic approach and its main focus is the examination of a Western theoretical formulation through examples from Indian literatures and cultural situations. Such an extension of Bakhtin's ideas especially to explore examples from Indian literary, cultural, and translational fields has not yet received sufficient attention. The study is not only a unique endeavour in filling up the lacunae but also draws Bakhtin closer to the Indian literary condition.
