Contested Homelands Nazima Parveen,2021-01-31 This book argues that the changing character of Muslim community and their living space in Delhi is a product of historical processes The discourse of homeland and the realities of Partition established the notion of Muslim dominated areas as exclusionary and contested zones These localities turned out to be those pockets where the dominant ideas of nation had to be engineered materialized and practiced The book makes an attempt to revisit these complexities by investigating community space relationship in colonial and postcolonial Delhi It raises two fundamental questions How did community and space relation come to be defined on religious lines In what ways were Muslim dominated areas perceived as contested zones Invoking the ideas of homeland as a useful vantage point to enter into the wider discourse around the conceptualization of space the book suggests that the relation between Muslim communities and their living spaces has evolved out of a long process of politicization and communalization of space in Delhi *Global Sustainable Practices in Gastronomic Tourism* Rana, Varinder Singh,Raina, Ashish,Bathla, Gaurav,2024-12-02 Developing sustainable practices in gastronomic tourism is essential for creating a responsible and impactful travel experience As travelers become conscious of their environmental and social impact the culinary tourism sector prioritizes sustainability at every stage This includes promoting local ingredients supporting small scale producers and minimizing food waste while also celebrating cultural heritage through authentic culinary experiences Gastronomic tourism enhances the visitor experience while contributing to the preservation of local ecosystems and communities Further research into gastronomic tourism is necessary to promote multi stakeholder cooperation between local communities companies NGOs and governments for improved sustainability of culinary tourism *Global Sustainable Practices in Gastronomic Tourism* explores sustainability principles in relation to culinary tourism including its effects on the environment society and economy It examines how sustainable tourism practices incorporate gastronomic heritage emphasizing the value of maintaining regional food systems and culinary customs This book covers topics such as conservation and preservation social media and waste management and is a useful resource for hospitality and tourism professionals economists environmental scientists marketers business owners academicians and researchers *Izzat Ka Khana* Chef Izzat Husain,2018-08-16 This book is a composition of recipes which is beneficial for the human body as food is a source of energy According to me food is essential for one s well being and cooking is a culmination of science and arts which maintains the overall balance of our health My dishes are prepared with the utmost care and effects in making my food healthy digestible and satisfying to your taste buds My dishes are just not simple meals it is a healing medicine energy making tonic booster mood elevator and a delicious pleasurable eating experience These recipes include medicinal preparations of selected herbal and beneficial spices including fruits and vegetables which are used in Unani and herbal practices to enhance the daily consumption of a healthy balanced diet which improves our digestive mechanisms absorption and assimilation of food building up the immune system against common

Vegetarianism, Meat and Modernity in India Johan Fischer,2023-04-07 Never before in human history have vegetarianism and a plant based economy been so closely associated with sustainability and the promise of tackling climate change Nowhere is this phenomenon more visible than in India which is home to the largest number of vegetarians globally and where vegetarianism is intrinsic to Hinduism India is often considered a global model for vegetarianism However in this book which is the outcome of eight months of fieldwork conducted among vegetarian and non vegetarian producers traders regulators and consumers I show that the reality in India is quite different with large sections of communities being meat eaters In 2011 vegetarian veg green and nonvegetarian non veg brown labels on all packaged foods drinks were introduced in India Paradoxically this grand scheme was implemented at a time when meat and non vegetarian food production trade and consumption were booming The overarching argument of the book is that a systematic study of the complex and changing relationship between vegetarian and non vegetarian understandings and practices illuminates broader transformations and challenges that relate to markets the state religion politics and identities in India and beyond The book s empirical focus is on the changing relationship between vegetarian non vegetarian as understood practised and contested in middle class India while remaining attentive to the vegetarian non vegetarian modernities that are at the forefront of global sustainability debates Through the application of this approach the book provides a novel theory of human values and markets in a global middle class perspective

Meat! Sushmita Chatterjee, Banu Subramaniam, 2021-02-15 What is meat Is it simply food to consume or a metaphor for our own bodies Can bloody vegan burgers petri dish beef live animals or human milk be categorized as meat In pursuing these questions the contributors to Meat trace the shifting boundaries of the meanings of meat across time geography and cultures In studies of chicken fish milk barbecue fake meat animal sacrifice cannibalism exotic meat frozen meat and other manifestations of meat they highlight meat's entanglements with race gender sexuality and disability From the imperial politics embedded in labeling canned white tuna as the chicken of the sea to the relationship between beef bans yoga and bodily purity in Hindu nationalist politics the contributors demonstrate how meat is an ideal vantage point from which to better understand transnational circuits of power and ideology as well as the histories of colonialism ableism and sexism Contributors Neel Ahuja Irina Aristarkhova Sushmita Chatterjee Mel Y Chen Kim Q Hall Jennifer A Hamilton Anita Mannur Elspeth Probyn Parama Roy Banu Subramaniam Angela Willey Psyche Williams Forson **The Global Vegetarian** Mridu Shailaj-Thanki, Juhee Prabha Rathor, Vandana Shailaj-Thanki, 2013-12-22 **Proto-Australian** Mark Harvey, Robert Mailhammer, 2024-08-19 This book is the first full evaluation of the Proto Australian hypothesis which proposes that most Australian languages have a common ancestor Proto Australian PA Using the standard methodologies of historical linguistics the authors show that nearly all Australian languages descend from PA Given that PA was a single language it was spoken

only in a small area of Australia Its descendants have spread across the continent Current theories of language spread do not offer clear motivations for large scale spread in hunter gatherer economies This raises significant questions for analyses of Australian prehistory and archaeology specifically and more widely for general theories of hunter gatherer prehistory and language spread *Kundalini science* Premyogi vajra,2022-02-16 This book is third part book 3 of the Kundalini science series Its first part and second part book 2 are also available It is the compiled form of blog posts Those posts are written by Premyogi vajra a mystic yogi He is enlightened as well as he has his kundalini awakened These all posts are related to kundalini One post corresponds to one chapter Premyogi vajra is writing about Kundalini since 4 years ago when his kundalini awakened after one year long continued kundalini yoga meditation He became amazed on seeing that nowhere Kundalini had been mentioned or described completely Even Kundalini had not been defined properly He searched and read many kundalini awakening experiences but he found none as genuine and complete Although he found Samadhi as mentioned in Patanjali Yoga Sutras as equivalent to Kundalini but that was described in a mystic and ancient way that was difficult to be understood by the laymen type general public Therefore inspired by these shortcomings he decided to present every know how about kundalini in very simple or childish way keeping everything at ground level true experiential scientific original practical and intuitive That genuine honest and humane effort resulted into the origination of this wonderful book That is why this book appears as a blessing for kundalini seekers Because it is not comfortable to read so many blog posts together on glare producing screens therefore those posts were presented in the form of a kindle e book that is comfortable and enjoying to read As a result it is fully hoped that readers will find this book spiritually uplifting and comfortable to read
