Digital Diaspora Anna Everett, 2009-02-05 Traces the rise of black participation in cyberspace *Digital Diasporas*
Jennifer M. Brinkerhoff, 2009-03-02 In the first full length scholarly study of the increasingly important phenomenon of digital diasporas Jennifer M Brinkerhoff examines how immigrants who still feel a connection to their country of origin use the internet She argues that digital diasporas can ease security concerns in both the homeland and the host society improve diaspora members quality of life in the host society and contribute to socio economic development in the homeland Drawing on case studies of nine digital diaspora organizations Brinkerhoff s research supplies new empirical material regarding digital diasporas and their potential security and development impacts She also explores their impact on identity negotiation arguing that digital diasporas create communities and organizations that represent hybrid identities and encourage solidarity identity and material benefits among their members The book also explores these communities implications for policy and practice

Korean Digital Diaspora Hojeong Lee, 2020 Through a critical examination of the Korean diaspora in transnational contexts as a case study Korean Digital Diaspora Transnational Social Movements and Diaspora Identity unmasks the process of how people of the diaspora have built social interactions and communication with others online how they have orchestrated social movements and finally how they have narrated and reshaped their diaspora identities in their everyday lives Utilizing an ethnographical approach including in depth interviews participant observation and a field study in New York City and Philadelphia Hojeong Lee delineates how digital media technology has expanded into a new form of diaspora digital diaspora within the Korean diaspora community and how it has mobilized the social movements of Korean diaspora members Accordingly Korean diaspora members have begun to imagine their community as a transnational global diaspora Korean Digital Diaspora concludes with an analysis of how the changed attitudes of diaspora members have also influenced how they define themselves and how they are reshaping their diaspora identities This multi site three year study reveals the nexus of media individuals and society highlighting the transnational social movements of diaspora members

Digital Diasporas Radhika Gajjala, 2019-06-26 When we work or play through digital technologies we also live in them Communities form conversations and social movements emerge spontaneously and through careful offline planning While we have used disembodied communication and transportation technologies in the past and still do we have never before actually synchronously inhabited these communicative spaces routes and networks in quite the way we do now Digital Diasporas engages conversations across a selection of contemporary gendered Indian identified networks online Desis creating place through labour and affective network formation in secondlife Indian diasporic women engaged in digital domesticity to Indian digital feminists engaged in debate and dialogue through Twitter Through particular conversations and ethnographic journeys and linking back to personal and South Asian histories of Internet mediation Gajjala and her co authors reveal how affect and gendered digital labour combine in the formation of global socio economic environment *Nigeria's Digital*

Diaspora Farooq A. Kperogi, 2020 *Digital Research Methods and the Diaspora* Dang Nguyen, 2023-11-29 The computational turn in the social sciences and humanities has generated much excitement about the potential to refresh our approaches to the study of the techno social. From natively digital to digitised data, researchers of digital diasporas increasingly find themselves working with a range of disparate digital objects. These digital objects can include anything from hyperlink to timestamps, from platform behavioural metrics such as react, share or retweet to different media formats such as text, image, pre-recorded or livestreamed videos. Taking these disparate objects into account, this book introduces digital methods as research strategies not only for dealing with the ephemeral and unstable nature of tracing the diaspora with digital data but also for reconceptualizing digital diasporas as assemblages and networks of more than human actors. The book also introduces a range of theoretical perspectives and methodological techniques to studying digital diasporas as contingent and processual hybrid collectives of heterogeneous material, cultural and practice-based assemblages. This book will be essential reading for students and scholars interested in the digital space and transnational communities.

The Politics and Poetics of Indian Digital Diasporas Yasmin Jiwani, Arjun Tremblay, Mohita Bhatia, 2024-09-26 The *Politics and Poetics of Indian Digital Diasporas* explores the emancipatory potential and pitfalls of digital platforms and how well or how poorly they reflect intra-communal diversities within South Asian diasporic communities. This book brings together an international network of scholars both established and emerging to explore South Asian diasporic communities in the United States, Canada, Australia and the UK. It is a comparative cross-national analysis of the intersection of digital technologies and South Asian diasporas. The book centres on three key themes: the ever-presence of digital spaces and the importance of exploring them as focal points for defining and contesting identities; an exploration of how home is represented in and across South Asian diasporic communities and intra-communal diversity in South Asian diasporic communities. The chapters show how digital spaces sometimes create unprecedented opportunities for diasporic communities to mobilise multi-cultures, sexuality, race and queerness within South Asian diasporic communities and to move beyond Desi and Brown as homogenising identifiers. The contributors also demonstrate that digital spaces can be and have been used to reassert internal hegemonies far from homelands. Examining the discursive meanings of South Asian-ness, Desi, Brown, South Asians, the book foregrounds how it is defined, performed and contested through digital platforms in ways that redefine the concept of diaspora in innovative, non-territorialized, polyphonic, variegated and dialogic ways. A novel contribution to the intersection of global digital inequalities, digital cultures and the South Asian diaspora, this book will be of interest to a wide scholarly audience of digital media, South Asian diaspora culture and ethnicity, race and the politics of resistance and counter-hegemonic mobilisations.

Diasporas in the New Media Age

Andoni Alonso,Pedro Oiarzabal,2010-04-01 The explosion of digital information and communication technologies has influenced almost every aspect of contemporary life Diasporas in the New Media Age is the first book length examination of the social use of these technologies by emigrants and diasporas around the world The eighteen original essays in the book explore the personal familial and social impact of modern communication technology on populations of European Asian

African Caribbean Middle Eastern and Latin American emigrants It also looks at the role and transformation of such concepts as identity nation culture and community in the era of information technology and economic globalization The contributors who represent a number of disciplines and national origins also take a range of approaches empirical theoretical and rhetorical and combine case studies with thoughtful analysis *Diasporas in the New Media Age* is both a discussion of the use of communication technologies by various emigrant groups and an engaging account of the immigrant experience in the contemporary world It offers important insights into the ways that dispersed populations are using digital media to maintain ties with their families and homeland and to create new communities that preserve their culture and reinforce their sense of identity In addition the book is a significant contribution to our understanding of the impact of technology on society in general

Virtual Homelands Madhavi Mallapragada, 2013-10-15 The internet has transformed the idea of home for Indians and Indian Americans In *Virtual Homelands* Indian Immigrants and Online Cultures in the United States Madhavi Mallapragada analyzes home pages and other online communities organized by diasporic and immigrant Indians from the late 1990s through the social media period Engaging the shifting aspects of belonging immigrant politics and cultural citizenship by linking the home page household and homeland as key sites Mallapragada illuminates the contours of belonging and reveals how Indian American struggles over it trace back to the web's active mediation in representing negotiating and reimagining home As Mallapragada shows ideologies around family and citizenship shift to fit the transnational contexts of the online world and immigration At the same time the tactical use of the home page to make gender racial and class struggles visible and create new modes for belonging implicates the web within complex political and cultural terrain On e-commerce community and activist sites the recasting of home and homeland online points to intrusion by public agents such as the state the law and immigration systems in the domestic the private and the familial Mallapragada reveals that the home page may mobilize to reproduce conservative narratives of Indian immigrants familial and citizenship cultures but the reach of a website extends beyond the textual and discursive to encompass the institutions shaping it as the web unmakes and remakes ideas of India and America

WeChat and the Chinese Diaspora Wanning Sun, Haiqing Yu, 2022-03-31 WeChat the international version of Weixin launched in 2012 has rapidly become the most favoured Chinese social media Globally available equally popular both inside and outside China and widely adopted by Chinese migrants WeChat has fundamentally changed the ways in which Mandarin speaking migrants conduct personal messaging engage in group communication and community business activities produce and distribute news and access and share information This book explores a wide range of issues connected to the ways in which WeChat works and is used across the world among the newest members of the Chinese diaspora Arguing that digital social media afford a great degree of individual agency as well as a collective capacity for sustaining an imagined community the book shows how WeChat's assemblage of infrastructure and regulatory frameworks technical capabilities content and sense of community has led to the construction of a particular

kind of diasporic Chinese world at a time marked both by China's rise and anxiety about Chinese influence in the West Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
