*idea journal: interior technicity: unplugged and/or switched on* Julieanna Preston, 2020-10-07 Interior Technicity Unplugged and or Switched On invites reflection on how interiors have always been augmenting entities and how they continue to be so in other words extending facilitating and consolidating bodies within socio cultural environments Rather than seeing an interior as an inside in opposition to a world beyond it asks what modes of folding inward have equipped and enabled the spatial environment Technicity the world of tools and technical objects that extend and mediate memory as Bernard Steigler 1998 describes it has never been what inside ness in its sheltering of life keeps at bay mediation is from the start technical indexed to inscribing practices rich in temporal and embodied implications By this reading interiors have always been augmented and augmenting in the sense of the Latinaugmentare to increase enlarge or enrich This IDEA Journal issue considers this mode of folding inward as a condition of an interior specificity Whether it be a small structure such as a tramping hut or a tiny house a large complex interior environment such as an airport or shopping mall handmade with local materials such as Samoan fale or the result of manufacturing processes assembling artificial and prefabricated elements as in the case of a spacecraft boat or train interiors are augmented mediated generated or embellished by technologies The effect of these technologies is not neutral one's experience of an interior is significantly influenced by the affective resonance of its technologies *idea journal: co-constructing body-environment* Julieanna Preston, 2020-12-09 This special guest edited issue extends the current discussions of art inclusive of interior spatial design and architecture as a process of social cognition and to address the gap between descriptions of embodied cognition and the co construction of lived experience Papers and exhibitions presented at the 2019 Bodies of Knowledge Conference have been advanced significantly as research articles and visual essays to focus on interdisciplinary connections across research practices that involve art and theories of cognition These contributions emphasise how spatial art and design research approaches have enabled the articulation of a complex understanding of environments spaces and experiences including the spatial distribution of cultural organizational and conceptual structures and relationships as well as surrounding design features Contributions address the following questions How do art and spatial practices increase the potential for knowledge transfer and celebrate diverse forms of embodied expertise How the examination of cultures of practice Indigenous knowledges and cultural practices offer perspectives on inclusion diversity neurodiversity disability and social justice issues How the art and spatial practices may contribute to research perspectives from contemporary cognitive neuroscience and the philosophy of mind The dynamic between an organism and its surroundings for example How does art and design shift the way knowledge and thinking processes are acquired extended and distributed How do art and design practices demonstrate the ways different forms of acquiring and producing knowledge intersect ***idea journal: (extra) ordinary interiors: practising critical reflection*** Julieanna Preston, 2021-09-01 Extra Ordinary Interiors features research articles and visual essays by academics research

students and practitioners that demonstrate contemporary modes of criticality and reflection on specific interior environments in ways that expand upon that which is ordinary of the everyday common banal or taken for granted *The Networked Library* Melissa A. Purcell, 2012-07-16 The lesson plans in this book enable educators to easily incorporate networking technologies into the classroom not just a fun enrichment activity but one that is selective and intentional to teach the required standards Our Web 2.0 world is based on participation Incorporating networking sites into classroom lesson plans invites students to participate and get involved using the digital learning styles with which they are already accustomed interacting with new information building knowledge and sharing that knowledge with an authentic responsive audience The Networked Library A Guide for the Educational Use of Social Networking Sites demonstrates how integrating networking tools that students enjoy using can improve their learning in the classroom The book is designed to take educators who are new to networking sites from the ground up while allowing experts to jump directly into the lesson plan chapters It covers many types of networking sites that educators can use to their advantage media sharing sites including YouTube TeacherTube Wikimedia Commons and Flickr microblogs and wikis such as Wikispaces PBworks and Twitter and social networking sites including Facebook Ning and Edmodo **Library Journal** Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 2007 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **EBOOK: Enhancing Learning through Technology in Lifelong Learning: Fresh Ideas: Innovative Strategies** Steve Ingle, Vicky Duckworth, 2013-04-16 This book provides an essential resource for both new and experienced teachers trainers and lecturers looking to harness the benefits of technology in their approaches to teaching learning and assessment Those working across the Lifelong Learning Sector including schools and universities face increasing pressures in demonstrating their purposeful engagement with technology to provide outstanding teaching and learning and professional standards place a clear emphasis on the demonstrable use of emerging technology Underpinned by a theoretical and critical discussion the book presents a rationale for the use of technology in today's 21st century classrooms as teaching practitioners prepare themselves for the arrival of technologically mature and digitally literate 21st century learners with high expectations of their learning journey It offers 25 activities that are presented in a user friendly and accessible format illustrated with case studies from across the sector to bring the ideas to life Each example demonstrates how freely and easily accessible technologies can be used to create engaging interactive and learner centric lessons which promote retention achievement and the development of digital literacies Example technologies include Social networking and micro blogging PowerPoint alternatives The use of avatars and virtual characters Mobile devices and applications apps Creative technologies Whatever level of technical ability teaching practitioners and those supporting learning in lifelong learning schools and universities will find new and innovative ideas to easily and quickly enhance their approaches to

creative teaching and learning with the use of technology This welcome book fills a real need within lifelong learning literature through providing an exploration of the different ICT technologies available to students and teachers in the sector that combines the practical and applicable with the theoretical and reflective Through the course of this book the authors introduce and analyse a number of key theoretical themes such as digital wisdom and digital literacy providing an accessible entry point to rich and complex ideas They also provide the reader with a considerable number of helpful summaries of readily available technologies that cover relevant topics such as presentations and e portfolios linking them to a critical understanding of pedagogy and inclusion Throughout the authors maintain a writing style that is always engaging and easy to follow reinforced by practitioners case studies that demonstrate how e learning can move from being the property of the technological fetishist to an aspect of the professional practice of all teachers in the lifelong learning sector I cannot think of another book on this subject that has managed to accomplish this Dr Jonathan Tummons Teesside University UK This book is an indispensable guide to the discovery and use of learning technologies for new and experienced teachers in the lifelong learning sector The structure and presentation make it easy to navigate and a pleasure to read There is a very useful overview of relevant learning theory and discussion of key issues relating to developments in technology The heart of the book provides concise and accessible introductions to twenty five learning technologies with ideas about integrating them into learning and teaching This isn't just a book about technology it is more importantly a book about learning Peter Scales University of Derby UK This book is addressed to practitioners in search of digital wisdom and I was immediately inspired to explore the activities with my students It offers accessible but non patronising information definitions and terminology related to specific applications and tools These are packaged in short 2 3 page sections that are easy to read and include practical tips and online links to the applications Reflection points are built in throughout and each section includes an example of how the tool has been used by a classroom practitioner The authors address their readers as creative practitioners who are as a matter of course looking for better more exciting ways to learn and teach The positive tone and clear writing demystifies the whole idea of using digital tools for learning and makes such explorations sound fun easy and inevitable Although the main idea is to offer quick access to techniques for classroom use these are put into context by a clear introduction that explains basic concepts of approaches to learning with technology and by a narrative running throughout that connects the dots of the specific applications There is surely something here for everyone no matter what the level of their existing expertise Mary Hamilton Lancaster University UK
