Wonder Boy Angel Au-Yeung, David Jeans, 2023-04-25 A Financial Times best business book of 2023 In 1998 at the age of 24 Tony Hsieh sold his first company to Microsoft for 265 million In 2009 at the age of 35 he sold his e-commerce company Zappos to Amazon for 1.2 billion In 2020 at the age of 46 he died Tony Hsieh revolutionized both the tech world and corporate culture He was a business visionary He was also a man in search of happiness So why did it all go so wrong Tony Hsieh's first successful venture was in middle school selling personalized buttons At Harvard he made a profit compiling and

selling study guides From there he went on to build the billion dollar online shoe empire of Zappos The secret to his success Making his employees happy At its peak Zappos s employee friendly culture was so famous across the tech industry that it inspired copycats and earned a cult following Then Hsieh moved the Zappos headquarters to Las Vegas where he personally funded a nine figure campaign to revitalize the city s historic downtown area But as Hsieh fell deeper into his struggles with mental health and drug addiction the people making up his inner circle began changing from friends to enablers Drawing on hundreds of interviews with a wide range of people whose lives Hsieh touched journalists Angel Au Yeung and David Jeans craft a rich portrait of a man who was plagued by his eternal search for happiness and ultimately succumbed to his own demons

An Internet for the People Jessa Lingel,2022-06-14 How craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e mail to some friends about cool events happening around San Francisco craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn t profit off your data An Internet for the People explores how people use craigslist to buy and sell find work and find love and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site s history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist s legal history describing the company s courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet
