Palm Springs Noir Barbara DeMarco-Barrett, 2025-07-01 Palm Springs now joins Los Angeles San Diego Orange County San Francisco Oakland and Berkeley in California's Noir Series arena Contrary to popular belief noir doesn't require a bleak city street for its setting Nor water for that matter Noir thrives on secrets lies and lust all flowing plentifully through the jewel in the Coachella Valley's fragile crown For all the playfulness of the genre and the location the wisecracks and the kidney shaped pools there is an unmanageable darkness waiting to seep in like so much blood in the pool water Los Angeles Times Akashic Books continues its award winning series of original noir anthologies launched in 2004 with Brooklyn Noir Each book comprises all new stories each one set in a distinct neighborhood or location within the respective city Brand new stories by T Jefferson Parker Janet Fitch Eric Beetner Kelly Shire Tod Goldberg Michael Craft Barbara DeMarco Barrett Rob Roberge J D Horn Eduardo Santiago Rob Bowman Chris J Bahnsen Ken Layne and Alex Espinoza From the introduction by Barbara DeMarco Barrett The best noir writers make us feel the heat of the sun the touch of a lover Setting can be gritty but can also be sublime no longer relegated to urban locales and seedy hotel rooms but also mansions and swimming pools Hence Palm Springs which may seem like an odd setting for a collection of dark short stories it's so sunny and bright here The quality of light is unlike anywhere else and with an average of three hundred sunny days a year what could go wrong The stories in this collection come on like the wicked dust storms common to the area More than half are by writers who live here full time all have homes in Southern California They know this place in ways visitors and outsiders never will These are not stories you'll read in the glossy coffee table books that feature Palm Springs's good life There is indeed a lush life to be found here but for the characters in these stories it's often just out of reach

An Internet for the People Jessa Lingel, 2022-06-14 How craigslist champions openness democracy and other vanishing principles of the early web Begun by Craig Newmark as an e mail to some friends about cool events happening around San Francisco craigslist is now the leading classifieds service on the planet It is also a throwback to the early internet The website has barely seen an upgrade since it launched in 1996 There are no banner ads The company doesn't profit off your data An Internet for the People explores how people use craigslist to buy and sell find work and find love and reveals why craigslist is becoming a lonely outpost in an increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site's history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist's legal history describing the company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet

his footing in this unfamiliar landscape leaving Kim to wonder if their relationship can survive the snowbird season But when Grant goes missing on a hike in the Palm Springs mountains Kim is forced to consider two terrifying outcomes either Grant is truly lost or this time he s really left her Is it ever too late to become the person we wanted to be and is there still time to change into someone better The exhilarating but often confusing transitions of midlife are pitched against the promise and glamour of Palm Springs in this tender honest story of what it takes to commit to someone for a lifetime With compassion and humor Clancy explores the redemptive power of finding ourselves and of being found *Falter* Bill McKibben,2019-04-16

Thirty years ago Bill McKibben offered one of the earliest warnings about climate change Now he broadens the warning the entire human game he suggests has begun to play itself out Bill McKibben s groundbreaking book *The End of Nature* issued in dozens of languages and long regarded as a classic was the first book to alert us to global warming But the danger is broader than that even as climate change shrinks the space where our civilization can exist new technologies like artificial intelligence and robotics threaten to bleach away the variety of human experience *Falter* tells the story of these converging trends and of the ideological fervor that keeps us from bringing them under control And then drawing on McKibben s experience in building 350 org the first truly global citizens movement to combat climate change it offers some possible ways out of the trap We re at a bleak moment in human history and we ll either confront that bleakness or watch the civilization our forebears built slip away *Falter* is a powerful and sobering call to arms to save not only our planet but also our humanity
