increasingly corporatized web Drawing on interviews with craigslist insiders and ordinary users Jessa Lingel looks at the site's history and values showing how it has mostly stayed the same while the web around it has become more commercial and far less open She examines craigslist's legal history describing the company's courtroom battles over issues of freedom of expression and data privacy and explains the importance of locality in the social relationships fostered by the site More than an online garage sale job board or dating site craigslist holds vital lessons for the rest of the web It is a website that values user privacy over profits ease of use over slick design and an ethos of the early web that might just hold the key to a more open transparent and democratic internet

[The Death of the Artist](#) William Deresiewicz, 2020-07-28 A deeply researched warning about how the digital economy threatens artists lives and work the music writing and visual art that sustain our souls and societies from an award winning essayist and critic There are two stories you hear about earning a living as an artist in the digital age One comes from Silicon Valley There's never been a better time to be an artist it goes If you've got a laptop you've got a recording studio If you've got an iPhone you've got a movie camera And if production is cheap distribution is free it's called the Internet Everyone's an artist just tap your creativity and put your stuff out there The other comes from artists themselves Sure it goes you can put your stuff out there but who's going to pay you for it Everyone is not an artist Making art takes years of dedication and that requires a means of support If things don't change a lot of art will cease to be sustainable So which account is true Since people are still making a living as artists today how are they managing to do it William Deresiewicz a leading critic of the arts and of contemporary culture set out to answer those questions Based on interviews with artists of all kinds *The Death of the Artist* argues that we are in the midst of an epochal transformation If artists were artisans in the Renaissance bohemians in the nineteenth century and professionals in the twentieth a new paradigm is emerging in the digital age one that is changing our fundamental ideas about the nature of art and the role of the artist in society

John Portmann,2013-07-18 A growing epidemic Alzheimer s punishes not only its victims but also those married to them This book analyzes how Alzheimer s is quietly transforming the way we think about love today Without meaning to become rebels many people who find themselves married to Alzheimer s deflate the predominant notion of a conventional marriage By falling in love again before their ill spouse dies those married to Alzheimer s come into conflict with central values of Western

civilization personal sexual familial religious and political Those who wait sadly for a spouse's death must sometimes wonder if the show of fidelity is necessary and whom it helps Most books on Alzheimer's focus on those who have it as opposed to those who care for someone with it This book offers a powerful and searching meditation on the extent to which someone married to Alzheimer's should be expected to suffer loneliness The diagnosis of dementia should not amount to a prohibition of sexual activity for both spouses Portmann encourages readers to risk honesty in assessing the moral dilemma using high profile cases such as Nancy Reagan and Justice Sandra Day O'Connor to illustrate the enormity of the problem Ideal for classes considering the ethics of aging and sexuality
