The Starfish and the Spider Ori Brafman, Rod A. Beckstrom, 2006-10-05 If you cut off a spider's leg it's crippled if you cut off its head it dies But if you cut off a starfish's leg it grows a new one and the old leg can grow into an entirely new starfish What's the hidden power behind the success of Wikipedia Craigslist and Skype What do eBay and General Electric have in common with the abolitionist and women's rights movements What fundamental choice put General Motors and Toyota on vastly different paths How could winning a Supreme Court case be the biggest mistake MGM could have made After five years of ground breaking research Ori Brafman and Rod

The text offers a holistic perspective on diverse couples and families that is consistent with the increasing prominence of models that transcend individual diagnoses and biology to include social factors and context. Theory, policy, prevention, assessment, treatment, and research considerations are included in each chapter. Topics include African American, Asian American, Latino, Native American, white, biracial, multiracial, intercultural, LGBT, Christian, Jewish, and Muslim couples and families as well as diverse family structures. The depth of every chapter includes attention to subgroups within each category such as African American and Caribbean couples and families as well as those who represent the intersection between varying oppressed identities such as an intercultural gay family or a poor, homeless, interracial couple. Additionally, each chapter provides a review section with condensed and easy-to-understand summaries of the key take-away lessons.

Benefit Siobhan Phillips, 2022-04-19. A young woman discovers what lurks beneath the system that anointed her among the best and brightest of her generation. A smart, razor-sharp exploration of the precarious island of academic life and the cold, unforgiving waters that surround it. Jenny Offill, author of *Dept of Speculation* and *Weather*. Laura, a student from a modest background, escapes her small town to join the ranks of the academic elite on a Weatherfield fellowship to study at Oxford University. She enthusiastically throws herself into her coursework yet she is never able to escape a feeling of unease and dislocation among her fellow chosen students of promise and ambition. Years later, back in the United States with a PhD and dissertation on Henry James, she loses her job as an adjunct professor and reconnects with the Weatherfield Foundation. Commissioned to write a history for its centennial, she becomes obsessed by the Gilded Age origins of the Weatherfield fortune, rooted in the exploitation and misery of sugar production. As she is lured back into abandoned friendships within the glimmering group, she discovers hidden aspects of herself and others that point the way to a terrifying freedom. *Benefit* is a vivid debut novel of personal awakening that offers a withering critique of toxic philanthropy and the American meritocracy.
