## **Created Equal Vol 1 Chapters 1 15:**

**Created Equal** Michael Nava, Robert Dawidoff, 2014-12-16 Why should Americans who are not gay care about gay rights In **Created Equal** Michael Nava and Robert Dawidoff argue that the movement for gay equality is central to the continuing defense of individual liberty in America Beginning with an examination of the determined assault on gay issues by the religious right the authors show how this sectarian movement to legislate private religious morality into law undermines the purpose of American constitutional government the protection of the individual's right to determine how best to live his or her life The book starts from the premise that gay men and lesbians are first and foremost American citizens and then looks to what rights belong to every individual American citizen arguing from the Declaration of Independence and the Constitution Addressing their argument to the great majority of their fellow Americans Dawidoff and Nava emphasize that what is at stake is not the fate of the gay community but the future of constitutional principle and the rights of free individuals in American society

**Stamped from the Beginning** Ibram X. Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created spread and deeply rooted in American society Some Americans insist that we're living in a post racial society But racist thought is not just alive and well in America it is more sophisticated and more insidious than ever And as award winning historian Ibram X Kendi argues racist ideas have a long and lingering history one in which nearly every great American thinker is complicit In this deeply researched and fast moving narrative Kendi chronicles the entire story of anti black racist ideas and their staggering power over the course of American history He uses the life stories of five major American intellectuals to drive this history Puritan minister Cotton Mather Thomas Jefferson abolitionist William Lloyd Garrison W E B Du Bois and legendary activist Angela Davis As Kendi shows racist ideas did not arise from ignorance or hatred They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities In shedding light on this history **Stamped from the Beginning** offers us the tools we need to expose racist thinking In the process he gives us reason to hope

Brodersen,2023-01-02 The Book of Ben Sira written in Hebrew in the early second century BCE is often regarded as containing the earliest references to the canon of the Hebrew Bible Old Testament In contrast Alma Brodersen examines methodological and historical issues regarding the beginning of the biblical canon and Ben Sira and demonstrates that the book itself as distinct from the later Prologue to its Greek translation does not actually refer to texts as canonical In addition a systematic analysis of key passages in Ben Sira 38 39 and 44 50 in Hebrew and Greek uncovers similarities with other ancient texts which are not canonical today but preserved in the Dead Sea Scrolls Far from proving the existence of the biblical canon in his day Ben Sira s book indicates instead the importance of oral teaching and the relevance of a wide range of traditions

**Slavery and the American Founding** Jude M. Pfister,2025-03-21 Since 1776 the Founding generation has been portrayed as creators of a new world where liberty and freedom were the inherent birthright of all peoples The Founders although brilliant were nonetheless human and fashioned a country conceived in liberty and freedom for themselves The enslaved women and other minorities were not part of the original Founding documents All men created equal was a political statement not some ethereal message of Enlightenment understanding This book demonstrates that to understand the American Founding is to understand the totality of America The American Founding and the so called compromises forged by state delegates to ensure national unity despite existing alternatives that could have rejected enslavement defined the period from 1765 to 1800 and planted the seeds for a horrific civil war Two of the most debated words from the Age of Enlightenment freedom and liberty not only made America independent but also made it dependent on an execrable system rejected by most of the European thinkers who inspired the uprising against Britain
