Creating A Scene In Corinth A Simulation:

Creating a Scene in Corinth Reta Halteman Finger, George D. McClain, 2013-05-16 Creating a Scene in Corinth imaginatively draws readers into Chloe's house church which has just received a letter from their church planter the apostle Paul. Using group simulation the book brings to life scholarly research on how the gospel penetrated the Roman Empire. As participants role play early believers and debate with each other they gain new insights and will never read 1 Corinthians the same way again. First century Corinthians were just as human as church people today. They did not consider Paul's letters authoritative Scripture when he wrote them so lively group discussion and debate are encouraged. This method of Bible study works for many levels from youth groups to Sunday school classes or in college and seminary courses. In Paul's first letter to the Corinthians he calls the small band of new believers to unity and cautions against factionalism. Themes that pastor Dan Nighswander unpacks for contemporary readers in this thirty second volume in the Believers Church Bible Commentary series: Any Christians who experience division over loyalty to different leaders who find it hard to agree on sexual ethics or to live up to them and who feel tension between their theological convictions and social context will find common ground with believers in Corinth. Home of the exalted love chapter which roots all Christian action in the greatest gift 1 Corinthians equips those who follow Jesus to craft true community with other believers differences notwithstanding. With keen theological biblical and pastoral insight Nighswander illuminates for readers the apostle Paul's challenge to the Corinthian church and calls Christians today to unity through the reconciling work of Christ. Free downloadable study guide available here **The Food and Feasts of the Apostle Paul** Douglas E. Neel, 2024-12-17 With a vibrant narrative, recipes and menus this absorbing volume will be of interest to readers of Christian history and those interested in cookery and Mediterranean diets. Booklist: The Food and Feasts of the Apostle Paul takes readers inside the world of the early Christian church through a new lens: what people ate and didn't eat. The early church encompassed diverse communities and people and understanding its food helps us understand both the worship and culture of these people as well as their sources of conflict. Each chapter introduces readers to a different community or church Paul visited or started, explores one or two key foods and offers recipes that reflect each community. Recipes range from simple to complex from snack to feast. This book will help readers more fully experience the diverse cultures of the early Christian church to better understand the teachings of Jesus, Paul and early Christian leaders.

Salt, Light, and a City, Second Edition Graham Joseph Hill, 2017-06-13 Graham Hill's pioneering classic remains the seminal work on missional ecclesiology. The bestselling first edition redefined theology for the missional church. Hill builds biblical foundations in conversation with major theologians including Sarah Coakley, John Zizioulas, Stanley Hauerwas, Miroslav Volf, and Jürgen Moltmann. In this major update, he offers new insights and provides fresh examples of missional churches. In the first edition, Hill interacted with twelve major theologians to build a missional ecclesiology. In this thoroughly updated edition, he interacts with sixteen major theologians from the Western world. This edition includes five new chapters and an expanded treatment on the key convictions of global missional theology. It also offers a new study guide that has been uploaded on an innovative website linked to this book. This expanded edition now becomes volume 1 in a series on missional ecclesiology. In volume 2, Hill will turn our attention to voices from the Majority World. Known for his groundbreaking approach to theology, Hill shows how God is releasing his global church to mission across all cultures and Christian traditions. This extensive update to Hill's influential work offers pioneering theology and practices that will continue to shape the global missional church for generations.

Innovating with Augmented Reality P. Kaliraj, Devi Thirupathi, 2021-12-16 Augmented Reality (AR) has many advantages that include increased engagement and interaction as well as enhanced innovation and responsiveness. AR technology has applications in almost all domains such as medical training, retail repair and maintenance of complex equipment, interior design in architecture and construction, business logistics, tourism, and classroom education. *Innovating with Augmented Reality: Applications in Education and Industry* explains the concepts behind AR, explores some of its application areas, and gives an in-depth look at how this technology aligns with Education 4.0. Due to the rapid advancements in technology, future education systems must prepare students to work with the latest technologies by enabling them to learn virtually in augmented ways in varied platforms. By providing an illusion of physical objects which takes the students to a new world of imagination, AR and Virtual Reality (VR) create virtual and interactive environments for better learning and understanding. AR applications in education are covered in four chapters of this book, including a chapter on how gamification can be made use of in the teaching and learning process. The book also covers other application areas of AR and VR. One such application area is the food and beverage industry with case studies on virtual 3D food, employee training, product-customer interaction, restaurant entertainment, restaurant tours, and product packaging. The application of AR in the healthcare sector, medical education, and related devices and software are examined in the book's final chapter. The book also provides an overview of the game development software Unity, a real-time development platform for 2D and 3D AR and VR, as well as the software tools and techniques used in developing AR-based apps.
