## **Geropsychological Interventions In Long Term Care:**

*Clinical Neuropsychology and Cost Outcome Research* George Prigatano, Neil Pliskin, 2020-03-27 Neuropsychologists are being increasingly called upon to demonstrate the value of their services This edited book introduces clinical neuropsychologists to the concepts and challenges involved in conducting cost outcome research It provides examples of how such research can be conducted within clinical neuropsychology and therefore is a beginning step in what must become an interdisciplinary effort The text suggests that more than cost effectiveness studies should be considered when demonstrating the clinical utility of neuropsychological services The concept of objective and subjective markers of value is emphasized particularly as it relates to measuring the impact of a neuropsychological examination Chapters review the economic burdens associated with different neurological conditions commonly seen by neuropsychologists They also provide examples of how clinical neuropsychological services to different patient populations may reduce costs and increase benefits and suggest directions for beginning cost outcome research Furthermore the book summarizes the utility of various neuropsychological services that may be helpful to readers concerned with healthcare economies The book is intended as a resource for clinical neuropsychologists who wish to explain to healthcare providers the value of their work It is the first book of the National Academy of Neuropsychology book series entitled Neuropsychology Scientific Bases and Clinical Application **Teaching**

**Empathy and Conflict Resolution to People with Dementia** Cameron Camp, Linda Camp, 2018-01-18 This guide demonstrates how to employ empathy and respect when caring for older people with dementia By addressing these virtues in the care model the authors show how people with dementia can develop positive conflict resolution skills and the ability to self initiate in matters concerning their own care for greater independence and wellbeing **The Study of Anosognosia**

George P. Prigatano, 2010-04-21 The study of anosognosia has witnessed an unprecedented increase in interest over the last 20 years This has resulted in numerous empirical investigations as well as theoretical writings on the nature of human consciousness and how disorders of the brain may influence the person's subjective awareness of a disturbed neurological or neuropsychological function This edited text summarizes many of the advances that have taken place in the field of anosognosia It reviews research findings on anosognosia for hemiplegia following stroke Anton's syndrome and a variety of disorders in which impaired self awareness is common It also provides suggestive guidelines for the management and rehabilitation of persons who have anosognosia or impaired self awareness *Handbook on the Neuropsychology of Aging and Dementia*

Lisa D. Ravdin, Heather L. Katzen, 2019-02-14 This comprehensive update offers practical advice for professionals working in neuropsychology with older adults Focusing on fundamentals common issues special considerations and late life cognitive disorders respected names in this critical specialty address a wide range of presenting problems and assessment diagnostic and treatment concerns Throughout coverage pays keen attention to detail bringing real world nuance to large scale concepts and breaking down complex processes into digestible steps And like its predecessor the new
