J. T. O'Donnell, 2008-04 Why are so many people unhappy on the job As many as 7 out of 10 Americans are currently dissatisfied with their careers Expensive college degrees are seen by our society as a requirement to enter the American workforce Yet many students fail to graduate with the skills and knowledge necessary to embark on a satisfying career path The result is an unprepared individual saddled with debt and frustrated with a system that has left them hanging with respect to making good career decisions The concept of work life balance continues to elude our society as thousands of workers complain of

living to work instead of working to live It s no secret that career satisfaction eludes much of the American working population but what s worse is the lack of resources and coaching to help today s employee find the career satisfaction they seek In this innovative step by step guide workplace expert professional development specialist and nationally syndicated career advice columnist J T O Donnell www.jtodonnell.com unlocks the secrets to working smarter when it comes to creating a career you can get excited about With more than 15 years experience having coached thousands of individuals O Donnell will show you how to develop an authentic definition of professional success that will get you results Here s what readers have to say Her strategic approach really helped me flesh out what traits and experience I brought to the table for a potential employer in a different field Her methods encouragement and continued support have led me to find the right career path Helen D I hated my job wanted out and didn t know where to begin I had a decision to make I could continue on the track to working my 9 5 job in front of a desk and let it define me and make me miserable or look for something different J T showed me that it s not your job that defines you at all it s you who defines your job She worked with me to figure out my strengths and work on my weaknesses J T helped me learn that who I am is far more than the paycheck I bring in Through that exploration of my own real desires J T helped me to realize that I needed a far more creative outlet to be successful in I can truly say that without J T s help I certainly would not be where I am today I m more aware of my life and the people in it I absolutely love my job and really feel successful I owe an immense amount of gratitude to J T for getting me to this place in my life Danielle H The information in this book is so on target I wish I d found it earlier in my career I can t begin to express what it is like to have finally found not just the reasons but the solutions to my past career disappointments John T
