Getting Ahead Collectively Grassroots Experiences In Latin America:

Getting Ahead Collectively Albert Otto Hirschman, 1984 **Getting Ahead Collectively** Albert O.

Hirschman, 2013-10-22 *Getting Ahead Collectively Grassroots Experiences in Latin America* is a seven chapter book that first discusses certain types of developmental sequences in Latin America The emergence of cooperative action and the intangible benefits and costs of cooperatives are then explained The book also explores the intermediate organizations that have grown all over Latin America to help low income people better their condition The last chapter details the social and political effects of a dense network of grassroots development efforts Cultural Producers and Social Change in Latin America Felipe Cala

Buendía, 2014-12-03 In Argentina Colombia and Peru there has been an out pouring of popular performative activities that have asked citizens to pose questions about the social order and about the memories of recent atrocities Cala Buendía looks at ways in which cultural producers adapted or developed strategies as resources for social actors to use for change *The Making Of Social Movements In Latin America* Arturo Escobar, 2018-02-19 This book paying attention to the axes of identity strategy and democracy grew out of the authors shared and growing interest in contemporary social movements and the vast theoretical literature on these movements produced during the 1980s particularly in Latin America and Western Europe

Democratic Multiplicity James Tully, Keith Cherry, Fonna Forman, Jeanne Morefield, Joshua Nichols, Pablo Ouziel, David Owen, Oliver Schmidtke, 2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science **State, Foreign Operations, and Related Programs Appropriations for 2012** United States.

Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2011

Science for the Protection of Indonesian Coastal Ecosystems (SPICE) Tim C. Jennerjahn, Tim Rixen, Hari Eko Irianto, Joko Samiaji, 2021-10-13 *Science for the Protection of Indonesian Coastal Ecosystems SPICE* provides key information on all aspects related to the management of coastal ecosystems This includes the coastal management involved the ecology of this area and the relationship between humans and the environment found here The book presents guidelines defined by scientific experts allowing for proper application of science products into ecosystem management The bio geo physical importance of coastal ecosystems of Indonesia makes this a book of global importance and interest Written by an Indonesian German author team giving a unique and global perspective on the coastal ecosystems Presents text boxes with research gaps and policy implications giving the reader an easy grasp of what needs to be done in terms of research and management Features best practice case studies that can be applied to coastal ecosystems around the world offered through the lens of Indonesia a region of global relevance in terms of climate and environmental change The Oxford Handbook of Urban Planning Randall Crane, Rachel Weber, 2015 Why plan How and what do we plan Who plans for whom These three questions are then applied across three major topics in planning States Markets and the Provision of Social Goods The Methods and Substance of Planning and Agency Implementation and Decision Making **The Politics of Water** Vivienne

Bennett,1995-11-15 Monterrey is Mexico s second most important industrial city emerging in this era of free trade as a cornerstone of Mexico s economic development But development has been uneven and has taken a toll As recently as the early 1980s nearly a quarter of the city s almost three million inhabitants did not have running water in their homes At the same time heavy industry especially steel iron chemical and paper works were major users of water in their production processes Extensive industrialization coupled with a lack of infrastructure development astonishing in a major industrial city raises serious questions about the process of planning urban services in Mexico Bennett uses the water crisis of the 1980s as a lens through which to reveal this planning process and the provision of public services in Monterrey She finds three groups who were central to the evolution of the city s water system federal and state government leaders the regional private sector elite the Grupo Monterrey and women living in the low income neighborhoods of the city Bennett unravels the politics of water in Monterrey by following three threads of inquiry First she examines the water services themselves what was built when why and who paid for them She then reveals the response of poor women to the water crisis analyzing who participated in protests the strategies they used and how the government responded And finally she considers the dynamics of planning water services for the private sector and the government in investment and management In the end Monterrey s water services improved because power relations shifted and because poor women in Monterrey used protests to make national news out of the city s water crisis The Politics of Water makes a significant contribution to the emerging scholarship on regional politics in Mexico and to a deeper understanding of the Monterrey region in particular Until recently most scholarly writing on Mexico spoke of the national political system as a monolithic whole Scholars such as Vivienne Bennett are now recognizing the power of local citizens and the significant differences among regions when it comes to politics policy making and governmental investment decisions

Monthly Catalogue, United States Public Documents ,1995 **Monthly Catalog of United States Government Publications** United States. Superintendent of Documents,1995 **Handbook of Development Economics** Hollis Burnley Chenery,J. Behrman,T.N. Srinivasan,1988 Handbooks of development economics edit Chenery v 1 *The Development Dictionary* Wolfgang Sachs,2010-01-15 In this classic collection some of the world s most eminent critics of development review the key concepts of the development discourse Each essay examines one concept from a historical and anthropological point of view highlights its particular bias and exposes its historical obsolescence and intellectual sterility The authors argue that a bidding farewell to the whole Eurocentric development idea is urgently needed in order to liberate people s minds in both North and South for bold responses to the environmental and ethical challenges now confronting humanity The combined result forms a must read invitation to experts grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse

Localizing Development Ghazala Mansuri,Vijayendra Rao,2012-11-01 This book examines the conceptual foundations of the participatory approach to local development assesses the evidence of its efficacy and draws key lessons for policy

The Search for Empowerment Anthony Bebbington, 2006 Exploration of the nature of bureaucracy and bureaucratic change Comprehensive examination of debates about social capital within the World Bank Contributors include both long time Bank insiders as well as external analysts and observers of the Bank's development policies The contributors to this collection examine the vast bureaucracy of the World Bank and explore the possibilities of internally generated change The book focuses on the debates within the Bank about the efficacy of social capital concepts for the encouragement of more participatory and empowering forms of development These debates reach to the heart of the bank and its mission Indeed the debate over social capital is less an argument about definitions and more a struggle between competing paradigms of development The Search for Empowerment is simultaneously a fascinating account of the concept of social capital a powerful ethnography of a huge development organization and a profoundly insightful exploration into the nature of bureaucracy and organizational change Other contributors Julie Van Domelen Michael Edwards Jonathan Fox John Gershman Jeffrey Hammer David Lewis Deepa Narayan Martien Van Nieuwkoop Lant Pritchett M Shameen Siddiqi and Jorge Uquillas Popular Voices in Latin American Catholicism Daniel H. Levine, 2014-07-14 Throughout Latin America observers and activists have found in religion a promise of deep and long lasting democratization But for religion to change culture and politics religion itself must change Such change is not only a matter of doctrine ritual or institutional arrangements but also arises out of the needs values and ideas of average believers Combining rich interviews and community studies in Venezuela and Colombia with analysis of broad ideological and institutional transformations Daniel Levine examines how religious and cultural change begins and what gives it substance and lasting impact The author focuses on the creation of self confident popular groups among hitherto isolated and dispirited individuals Once silent voices come to light as peasants and urban barrio dwellers reflect on their upbringing and community on poverty and opportunity on faith prayer and the Bible and on institutions like state school and church Levine also interviews priests sisters and pastoral agents and explains how their efforts shape the links between popular groups and the larger society The result is a clear understanding of how relations among social and cultural levels are maintained and transformed how programs are implemented why they succeed or fail and how change appears both to elites and to ordinary people Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Politics of NGOs in Southeast Asia* Gerard Clarke, 2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this The main focus is on the period from the mid 1990s when NGOs first became a notable force in the region It documents the complex relations

between NGOs and other political actors including the state organised religion foreign donors the business sector and underground insurgent groups and their impact on NGO strategy **Handbook on Planning and Complexity** Gert de Roo, Claudia Yamu, Christian Zuidema, 2020-06-26 This Handbook shows the enormous impetus given to the scientific debate by linking planning as a science of purposeful interventions and complexity as a science of spontaneous change and non linear development Emphasising the importance of merging planning and complexity this comprehensive Handbook also clarifies key concepts and theories presents examples on planning and complexity and proposes new ideas and methods which emerge from synthesising the discipline of spatial planning with complexity sciences *Development Economics* Alain de Janvry, Elisabeth Sadoulet, 2015-12-22 Development Economics Theory and Practice provides students and practitioners with the perspectives and the tools they need to think analytically and critically about the current major economic development issues in the world Alain de Janvry and Elisabeth Sadoulet identify seven key dimensions of development growth poverty vulnerability inequality basic needs sustainability and quality of life and use them to structure the contents of the text This book gives a historical perspective on the evolution of thought in development It uses theory and empirical analysis to present readers with a full picture of how development works how its successes and failures can be assessed and how alternatives can be introduced The authors demonstrate how diagnostics design of programs and policies and impact evaluation can be used to seek new solutions to the suffering and violence caused by development failures This text is fully engaged with the most cutting edge research in the field and equips readers with analytical tools for the impact evaluation of development programs and policies illustrated with numerous examples It is underpinned throughout by a wealth of student friendly features including case studies quantitative problem sets end of chapter questions and extensive references This unique text aims at helping readers learn about development think analytically about achievements and alternative options and be prepared to compete on the development job market **Monthly Catalog of United States Government Publications** ,1995
