Extreme Leadership Charles Patton,2024-07-26 Leadership is a curious topic It is most noted in its absence and most measured by its need Leadership requires opportunity Leadership is driven by the situation what worked in one situation may be disastrous in another It requires skills to be able to direct the challenge at hand Leadership is both an art and a science It is theoretical and applied cultural and contextual Most importantly leadership is about accomplishment and results Let s face it talking about leadership is tough and in many ways counter intuitive Many people want to be leaders and some people prefer to follow a leader but followers want to follow not just any leader they want to follow a great leader Business leadership textbooks often focus on the process and theory of leadership Not what it is but what it looks like or what it has accomplished Terms like neo charismatic and non hierarchical cross culture participator are used Pictures are drawn showing pyramids and leadership process flows with colored boxes containing value risk qualifiers I have even read in textbooks that leadership is a dated concept and today it is the social environment and individual zones of comfort that produce accomplishments Mumbo jumbo I believe if you want to have the things that great people have you have to do the things great people do The single most identifiable characteristic of successful people is that they are successful leaders This is why Mr Patton developed the term Extreme Leadership for this book and why the book focuses more on extreme examples than process flows and models Charles writing style is straight ahead and his content lays it out as it is This book is designed as a supplement to graduate level leadership courses However it is also very readable and interesting and applicable to all aspects of life This book sends the important message that It is okay to lead it is okay to be a leader It is also okay to follow And that anyone who wants to lead can learn to lead Hopefully after reading this book and thinking about the case studies you will have a rounded view of leadership start to see when opportunities are presented and be able to leverage them for your own leadership successes Dr D E Lady *How to Get Ahead in Life* Anthony Winston,2015-12-07 Why should we strive to become rich All that becoming rich means is that we want a fuller and more abundant life From his opening lines author Anthony Winston reminds us why we are working Riches should not mean a fancy haircut or the newest car True riches mean security and freedom The only way to obtain and keep wealth is through the right mindset and practical steps Reprogram your mind and understand that you are in control of your life and your wealth Self discipline is key Once you have mastered yourself you can move on to mastering the other tenets of wealth creation money and investments real estate and owning your business Filled with practical language and real life examples *How to Get Ahead in Life Hidden Secrets of the Rich* provides financial motivation for anyone interested in taking control of their money Wealth is earned and Winston shows you how **The Secret of the Rosary** Louis de Montfort,2023-12-25 In *The Secret of the Rosary* Louis de Montfort masterfully
