## **Cold Counsel Women Norse Literature:**

**The Cold Counsel** Sarah M. Anderson, Karen Swenson, 2013-05-13 Cold Counsel is the only collection devoted to the place of women in Old Norse literature and culture. It draws upon the disciplines of history, sociology, feminism, ethnography, and psychoanalysis in order to raise fresh questions about such new subjects as gender, class, sexuality, family structure, and ideology in medieval Iceland. Masculinities in Old Norse Literature Gareth Lloyd Evans, Jessica Clare Hancock, 2020 Compared to other areas of medieval literature, the question of masculinity in Old Norse Icelandic literature has been understudied. This is a neglect which this volume aims to rectify. The essays collected here introduce and analyse a spectrum of masculinities from the sagas of Icelanders, contemporary sagas, kings sagas, legendary sagas, chivalric sagas, bishops sagas, and eddic and skaldic verse, producing a broad and multifaceted understanding of what it means to be masculine in Old Norse Icelandic texts. A critical introduction places the essays in their scholarly context, providing the reader with a concise orientation in gender studies and the study of masculinities in Old Norse Icelandic literature. This book's investigation of how masculinities are constructed and challenged within a unique literature is all the more vital in the current climate in which Old Norse sources are weaponised to support far right agendas and racist ideologies are intertwined with images of vikings as hypermasculine. This volume counters these troubling narratives of masculinity through explorations of Old Norse literature that demonstrate how masculinity is formed, how it is linked to violence and vulnerability, how it governs men's relationships, and how toxic models of masculinity may be challenged. JESSICA HANCOCK is a Lecturer in Educational Development at City University of London. GARETH LLOYD EVANS is Lecturer in Medieval Literature at St Hilda's College, Oxford. Contributors: Sigríður Egilsdóttir, David Ashurst, Brynja Órgeirsdóttir, Gareth Lloyd Evans, Oren Falk, Alison Finlay, Jessica Clare Hancock, Jhanna Katrín Fríðriksdóttir, Philip Lavender, Thomas Morcom, Carl Phelpstead, Matthew Roby. **Emotion in Old Norse Literature** Sif Ríkhartsdóttir, 2017 Draws on Old Norse literary heritage to explore questions of emotion as both a literary motif and as a social phenomenon. Authors throughout history have relied on the emotional make-up of their readers and audiences to make sense of the behaviours and actions of fictive characters. But how can a narrative voice contained in a text evoke feelings that are ultimately never real or actual, but a figment of a text, a fictive reality created out of words? How does one reconcile interiority, a presumed modern conceptualisation, with medieval emotionality? The volume seeks to address these questions. It positions itself within the larger context of the history of emotion, offering a novel approach to the study of literary representations of emotionality and its staging through voice, performativity, and narrative manipulation, probing how emotions are encoded in texts. The author argues that the deceptively laconic portrayal of emotion in the Icelandic sagas and other literature reveals an emotive script that favours reticence over expressivity and exposes a narrative convention of emotional subterfuge through narrative silences and the masking of emotion. Focusing on the ambivalent borders between prose and poetic language, she suggests that poetic vocalisation may provide a literary space within which emotive interiority

can be expressed The volume considers a wide range of Old Norse materials from translated romances through Eddic poetry and slendingas gur sagas of Icelanders to indigenous romance Sif Rikhardsdottir is Professor of Comparative Literature at the University of Iceland and Vice Chair of the Institute of Research in Literature and Visual Arts

**The Norse Sorceress** Leszek Garde?a, Sophie Bønding, Peter Pentz, 2023-08-24 Old Norse literature abounds with descriptions of magic acts that allow ritual specialists of various kinds to manipulate the world around them see into the future or the distant past change weather conditions influence the outcomes of battles and more While magic practitioners are known under myriad terms the most iconic of them is the v lva As the central figure of the famous mythological poem V lusp The Prophecy of the V lva the v lva commands both respect and fear In non mythological texts similar women are portrayed as crucial albeit somewhat peculiar members of society Always veiled in mystery the v lur and their kind have captured the academic and popular imagination for centuries Bringing together scholars from various disciplinary backgrounds this volume aims to provide new insights into the reality of magic and its agents in the Viking world beyond the pages of medieval texts It explores new trajectories for the study of past mentalities beliefs and rituals as well as the tools employed in these practices and the individuals who wielded them In doing so the volume engages with several topical issues of Viking Age research including the complex entanglements of mind and materiality the cultural attitudes to animals and the natural world and the cultural constructions of gender and sexuality By addressing these complex themes it offers a nuanced image of the v lva and related magic workers in their cultural context The volume is intended for a broad diverse and international audience including experts in the field of Viking and Old Norse studies but also various non professional history enthusiasts

*Women and Weapons in the Viking World* Leszek Gardela, 2021-09-02 Invigorating Garde a reappraises the connections between women and violence in an early medieval society that has left few texts to guide us Studies in Late Antiquity This book sets out to investigate the idea of the armed woman in the Viking Age through a comprehensive and cross cultural approach and weaves a nuanced picture of women's lives in the Viking world The Viking Age c AD 750 1050 is conventionally portrayed as a tumultuous time when hordes of fierce warriors from Scandinavia wreaked havoc across the European continent and when Norse merchants traveled to distant corners of the world in pursuit of slaves silver and exotic commodities Until fairly recently Norse society

during this pivotal period in world history has been characterized as male dominated with women's roles dismissed or substantially downplayed. There is however ample textual and archaeological evidence to suggest that many of the most spectacular achievements of Viking Age Scandinavians in craftsmanship, exploration, cross-cultural trade, warfare and other spheres of life would not have been possible without the active involvement of women and that both within the walls of the household and in the wider public arena, women's voices were heard, respected and followed. Lavishly illustrated, this pioneering book explores the stories of the female warrior and women's links with the martial sphere of life in the Viking Age, using literature and archaeological evidence from Scandinavia and the wider Viking world to examine the motivations and circumstances that led women to engage in armed conflict.

**Tolkien and Alterity** Christopher Vaccaro, Yvette Kisor, 2017-10-11 This exciting collection of essays explores the role of the Other in Tolkien's fiction, his life and the pertinent criticism. It critically examines issues of gender, sexuality, race and ethnicity, language and identity in *The Lord of the Rings*, *The Silmarillion* and lesser known works by Tolkien. The chapters consider characters such as Lobelia Sackville Baggins, Saruman, Gollum and the Orcs, as well as discussions of how language and identity function in the source texts. The analysis of Tolkien's work is set against an examination of his life, personal writing and beliefs. Each essay takes as its central position the idea that how Tolkien responds to that which is different to that which is Other serves as a register of his ethics and moral philosophy. In the aggregate, they provide evidence of Tolkien's acceptance of alterity.

*A Critical Companion to Old Norse Literary Genre* Massimiliano Bampi, Carolyne Larrington, Sif Rikhardsdottir, 2020 A comprehensive guide to a crucial aspect of Old Norse literature.

**Gender and Protest** Frank Jacob, Jowan A. Mohammed, 2023-09-05 For centuries, women and other gendered minorities had to protest to gain equality. Their demands were often matched by counter-protest from conservative forces within historical societies that intended to return to old orders or good old times. The present volume will take a closer look at the interrelationship between gender and protest and analyze in detail how gender-related perspectives stimulated protests and initiated historical changes. Through historical case studies that range from antiquity until modern times, specialists from different countries and disciplines discuss reasons for protest, gender as a factor that stimulated social conflicts and the power of gendered protests of the past with regards to their impact and long-term impact until today.

*A History of Icelandic Literature* Daisy L. Neijmann, 2006-01-01 As complete a history as possible of the literature of Iceland.

*Death Doesn't Discriminate* Taylor Hathcock, 2022-03-30 Why were Scandinavian women such active proponents to Christian conversion? A question which has found itself recurrent in conversion literature. This book is a preliminary investigation which explores women in Norse and Christian mythology, highlighting their similarities and discussing the roles of Christian women and Norse pre-Christian women again, highlighting similarities between the two in order to show that some outlying factor was responsible for women's decision to convert to Christianity.

**The Poetics of Commemoration** Erin Michelle Goeres, 2015-11-19 *The Poetics of Commemoration* is a study of commemorative skaldic verse from the Viking

Age It investigates how skaldic poets responded to the deaths of kings and the ways in which poetic commemoration functioned within the social and political communities of the early medieval court Beginning with the early genealogical poem Ynglingatal the book explores how the commemoration of a king's ancestors could be used to consolidate his political position and to provide a shared history for the community It then examines the presentation of dead kings in the poems Eir ksm l and H konarm l showing how poets could re cast their kings as characters of myth and legend in the afterlife This is followed by an analysis of verse in which poets use their commemoration of one king to reinforce their relationship with his successor it is shown that poetry could both help and hinder the integration of the poet into the retinue of a new king Focusing then on the memorial poems composed for Kings l fr Tryggvason and l fr Haraldsson as well as for the Jarls of the Orkney Islands the book considers the tension between public and private expressions of grief It explores the strategies used by poets to negotiate the tumultuous period that followed the death of a king and to work through their own emotional responses to that loss The book demonstrates that skaldic poets engaged with the deaths of rulers in a wide variety of ways and that poetic commemoration was a particularly effective means not only of constructing a collective memory of the dead man but also of consolidating the new social identity of the community he left behind **Killing Hercules** Richard

Rowland, 2016-12-08 This book offers an entirely new reception history of the myth of Hercules and his wife killer Deianira The book poses and attempts to answer two important and related questions First why have artists across two millennia felt compelled to revisit this particular myth to express anxieties about violence at both a global and domestic level Secondly from the moment that Sophocles disrupted a myth about the definitive exemplar of masculinity and martial prowess and turned it into a story about domestic abuse through to a 2014 production of Handel's Hercules that was set in the context of the war on terror the reception history of this myth has been one of discontinuity and conflict how and why does each culture reinvent this narrative to address its own concerns and discontents and how does each generation speak to qualify or annihilate the certainties of its predecessors in order to understand contain or exonerate the aggression with which their governors of state and of the household so often enforce their authority and the violence to which their nations and their homes are perennially vulnerable

**Slaves and Warriors in Medieval Britain and Ireland** David R. Wyatt, 2009 Modern sensibilities have clouded historical views of slavery perhaps more so than any other medieval social institution Anachronistic economic rationales and notions about the progression of European civilisation have immeasurably distorted our view of slavery in the medieval context As a result historians have focussed their efforts upon explaining the disappearance of this medieval institution rather than seeking to understand it This book highlights the extreme cultural social significance of slavery for the societies of medieval Britain and Ireland c 800 1200 Concentrating upon the lifestyle attitudes and motivations of the slave holders and slave raiders it explores the violent activities and behavioural codes of Britain and Ireland's warrior centred societies illustrating the extreme significance of the institution of slavery for constructions of power
