The Chemical Choir P. G. Maxwell-Stuart, 2008-05-15 Beginning in China in the search for the secret of immortality and appearing independently in Egypt as an attempt to produce gold through the arts of smelting and alloying metals alchemy received a great boost in Europe from studies by Islamic and Jewish alchemists Translated into Latin and then combined with what was known of Greek natural science these accounts provoked an outburst of attempts to manipulate matter and to change it into transformative substances known as the Philosopher s Stone or the Elixir of Life Alchemy s heyday in Europe was the sixteenth and seventeenth centuries Demonstrations of the art were

performed in royal courts and specimens of the gold so transmuted can be seen in various museums today During the nineteenth century attempts were made to amalgamate alchemy with the religious and occult philosophies then growing in popularity and in the twentieth century psychologists principally Carl Jung perceived in alchemy a powerful vehicle for aspects of their theories about human nature The Kingdom of Pylos Sharon R. Smith,2011-01-01 Too often the negative characterization of others in the biblical text is applied to groups and persons beyond the text whom we wish to define as the Other Otherness is a synthetic and political social construct that allows us to create and maintain boundaries between them and us The other that is too similar to us is most problematic This book demonstrates how proximate characters are constructed as the Other in the Acts of the Apostles Charismatics Jews and women are proximate others who are constructed as the external and internal Other *The Sublime* Timothy M. Costelloe,2012-07-30 This volume offers readers a unique and comprehensive overview of different theoretical and interdisciplinary perspectives on the sublime Forgery Beyond Deceit John North Hopkins,Scott McGill,2023 This book examines the cultural historical and rhetorical functions of forgery that extend beyond the desire to deceive and profit Its chapters reach from antiquity to the twentieth century and cover literature and art the two areas that predominate in forgery studies as well as the forgery of physical books coins and religious relics **T&T Clark Encyclopedia of Second Temple Judaism Volume One** Loren T. Tierney-Hynes,2015-12-11 Eighteenth century philosophy owes much to the early novel Using the figure of the romance reader this book tells a new story of eighteenth century reading The impressionable mind and mutable identity of the romance reader haunt eighteenth century definitions of the self and the seductions of fiction insist on making an appearance in philosophy *Orthodox Constructions of the West* George E. Demacopoulos,Aristotle Papanikolaou,2013-09-02 The category of the West has played a particularly significant role in the modern Eastern Orthodox imagination It has functioned as an absolute marker of difference from what is considered to be the essence of Orthodoxy and thus ironically has become a constitutive aspect of the modern Orthodox self The essays collected in this volume examine the many factors that contributed to the Eastern construction of the West in order to understand why the West is so important to the Eastern Christian s sense of self **Pauline Churches and Diaspora Jews** Barclay,2016 Seminal essays from a leading New Testament scholar For the past twenty years John Barclay has researched and written on the social history of early Christianity and the life of Jews in the Mediterranean Diaspora In this collection of nineteen noteworthy essays he examines points of comparison between the early churches and the Diaspora synagogues in the urban Roman world of the first century With an eye to such matters as food family money circumcision Spirit age and death Barclay examines key Pauline texts the writings of Josephus and other sources investigating the construction of early Christian identity and comparing the experience of Paul s churches with that of Diaspora Jewish communities scattered throughout the Roman Empire **Times of Transition** Sylvie Honigman,Christophe Nihan,Oded Lipschits,2021-03-15 This multidisciplinary study takes a fresh look at Judean history and biblical literature in the late fourth and third centuries BCE In a major reappraisal of this era the contributions to this volume depict it as one in which critical changes took place Until recently the period from Alexander s conquest in 332 BCE to the early years of Seleucid domination following Antiochus III s

conquest in 198 BCE was reputed to be poorly documented in material evidence and textual production buttressing the view that the era from late Persian to Hasmonean times was one of seamless continuity Biblical scholars believed that no literary activity belonged to the Hellenistic age and archaeologists were unable to refine their understanding because of a lack of secure chronological markers However recent studies are revealing this period as one of major social changes and intense literary activity Historians have shed new light on the nature of the Hellenistic empires and the relationship between the central power and local entities in ancient imperial settings and the redating of several biblical texts to the third century BCE challenges the traditional periodization of Judean history Bringing together Hellenistic history the archaeology of Judea and biblical studies this volume appraises the early Hellenistic period anew as a time of great transition and change and situates Judea within its broader regional and transregional imperial contexts Methods and Methodologies Margaret Cameron, John Marenbon, 2010-11-26 This book examines the medieval tradition of Aristotelian logic from two perspectives The first examines the ways in which Latin and Arabic authors went about their work in medieval logic and how it was related to other intellectual branches The second invites critical comparison between contemporary and medieval approaches to logic *Jesus Tried and True* H. H. Drake Williams, 2013-01-11 Are the gospels found within the New Testament superior to others Has the church unfairly chosen Matthew Mark Luke and John while leaving out many others Are there truly lost Christianities that would enrich our understanding of Jesus Would modern day seekers as well as followers of Jesus be better served by including gospels outside of the New Testament in their understanding of Jesus *Jesus Tried and True* answers these questions by examining the date source and reception of the canonical gospels of Matthew Mark Luke and John and then comparing this data with the other gospels It assesses this information by looking within these gospels and also evaluating early church history examining the writings of early church writers such as Papias Ignatius of Antioch Justin Martyr Irenaeus and Eusebius It then compares these findings with the date source and reception of the non canonical gospels that have received the most attention lately such as the Gospel of Thomas Gospel of Mary Gospel of Judas Gospel of Philip and Gospel of Peter There is also a brief survey of thirteen of the most important non canonical gospels The survey provides an opinion on the dependence of these upon the gospels within the New Testament *Jesus Tried and True* affirms the superiority of the New Testament gospels It concludes by addressing whether non canonical gospels are lost Christianities and also whether the designation apocryphal is appropriate for other gospels *The Saturday Review of Politics, Literature, Science and Art* , 1873 **APHex I** Marco Perale, 2020-10-12 *Adespota Papyracea Hexametra Graeca* provides a comprehensive corpus of anonymous hexameter texts on papyri parchments ostraca and tablets that have appeared in the current and past two centuries The project has three main objectives i to retrieve and determine how many and what type of unidentified hexameter poems reached us via Egyptian papyri ii to restore a readable and reliable text for these poems providing straightforward access to material that has been hard to reach in print format is still unavailable
