stage *Oscar Wilde and the Cultures of Childhood* Joseph Bristow, 2017-11-09 This is the first collection of critical essays that explores Oscar Wilde's interest in children's culture whether in relation to his famous fairy stories his life as a caring father to two small boys his place as a defender of children's rights within the prison system his fascination with youthful beauty and his theological contemplation of what it means to be a child in the eyes of God The collection also examines the ways in which Wilde's works not just his fairy stories have been adapted for young audiences The Triumph of the Moon Ronald Hutton, 2019-10-10 a brilliant history The Sunday Times makes for riveting reading The Independent Modern pagan witchcraft is arguably the only fully formed religion England has given the world and has now spread across four continents This second edition of *The Triumph of the Moon* extensively revises the first full scale scholarly study of modern pagan witchcraft Ronald Hutton examines the nature and development of this religion and offers a history of attitudes to witchcraft paganism and magic in British society since 1800 Its pages reveal village cunning folk Victorian ritual magicians classicists and archaeologists leaders of woodcraft and scouting movements Freemasons and members of rural secret societies We also find some of the leading figures of English literature from the Romantic poets to W B Yeats D H Lawrence and Robert Graves as well as the main personalities who have represented pagan witchcraft to the public world since 1950 Thriller writers like Dennis Wheatley and films and television programmes get similar coverage as does tabloid journalism The material is by its nature often sensational and care is taken throughout to distinguish fact from fantasy in a manner not previously applied to most of the stories involved Meticulously researched *The Triumph of the Moon* presents an authoritative insight into an aspect of modern cultural history which has attracted sensational publicity but has hitherto been little understood This edition incorporates new research carried out by the author as well as research by others who have been inspired by this book over the twenty years since its first publication Utopia Ltd. Matthew Beaumont, 2005-03-01 This book uncovers the historical preconditions for the explosive revival of utopian literature at the nineteenth century fin de siècle and excavates its ideological content It marks a contribution not only to the literary and cultural history of the late Victorian period and to the expanding field of utopian studies but to the development of a Marxist critique of utopianism The book is particularly concerned with three kinds of political utopia or anti utopia those of state socialism feminism and anti communism the characteristic expression of this last example being the cacotopia After an extensive contextual account of the politics of utopia in late nineteenth century England it devotes a chapter to each of these topics before developing an original reinterpretation of William Morris's seminal Marxist utopia *News from Nowhere* Harriet Martineau Shelagh Hunter, 1995 Harriet Martineau 1802-1876 was one of the leading journalists of the 19th century and a role model for women's success in a man's world She was a feminist in practice rather than by principle and used the certainties of religion and of femininity as then defined by religion to invent a public role and persona achieving economic and spiritual independence in an innovative career without offending accepted social mores **Russomania** Rebecca Beasley, 2020-03-31 *Russomania* Russian Culture

and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class, the British intelligentsia. Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s future.
