Eye of the Heart William F. Sullivan,2005-01-01 What is the role of feelings in the euthanasia debate This is the central question in William F Sullivan s unique philosophical and ethical exploration of the issue Eye of the Heart Employing the principles and techniques of the great Canadian theologian and thinker Bernard Lonergan Sullivan offers a concrete examination of the role of feelings in grasping moral values and the key role that feelings play in ethical decision making The

heart has its reasons he argues convincingly and it is a type of reason that bioethicists philosophers and legal scholars all need to know Sullivan draws on his experiences as a practicing physician to analyse the distinguishing elements of human knowing illustrating them through common examples of decision making in health care He highlights the occurrence of various types of insight particularly deliberative insights that occur in the process of making value judgments These deliberative insights are affective and through them a person apprehends moral values Eye of the Heart proposes that feelings are relevant to knowing moral values and orient us towards moral self transcendence The implications of this stance in ethics are drawn out for the euthanasia debate

The Integrated Nervous System Walter J. Hendelman, Peter Humphreys, Christopher R. Skinner, 2017-07-12 This innovative textbook is modelled on problem based learning It bridges the gap between academic neuroanatomy and clinical neurology and effectively takes the reader from the classroom to the clinic so that learning can be applied in practice This second edition has been updated and expanded to include many more clinical cases within both the book and the accompanying Web site This book and the associated Web site will be of practical value to all the professionals who deal with people who have neurological conditions as well as being invaluable to medical students and residents This includes psychiatrists rehabilitation medicine specialists physiotherapists occupational therapists and speech therapists and nurses who specialize in the care of neurological patients We think that this text will also be of value for family physicians and specialists in internal medicine and pediatrics all of whom must differentiate between organic pathology of the nervous system and other conditions
