Neoliberal Legality Honor Brabazon, 2016-11-10 Neoliberalism has been studied as a political ideology an historical moment an economic programme an institutional model and a totalising political project Yet the role of law in the neoliberal story has been relatively neglected and the idea of neoliberalism as a juridical project has yet to be considered That is neoliberal law and its interrelations with neoliberal politics and economics has remained almost entirely neglected as a subject of research and debate This book provides a systematic attempt to develop a holistic and coherent understanding of the relationship between law and neoliberalism It does not however examine law and neoliberalism as fixed entities or as philosophical categories And neither is its objective to uncover or devise a law of neoliberalism Instead it uses empirical evidence to explore and theorise the relationship between law and neoliberalism as dynamic and complex social phenomena Developing a nuanced concept of neoliberal legality neoliberalism it is argued here is as much a juridical project as a political and economic one And it is only in understanding the juridical thrust of neoliberalism that we can hope to fully comprehend the specificities and continuities of the neoliberal period as a whole

these topics through discussion of theory empirical work and policy objectives This book is ideally designed for business professionals policy makers financiers students and researchers in the fields of public policy and economics **Untying the Land Knot** Xiaofang Shen,Xiaolun Sun,2012-06-15 This book argues that access to industrial and commercial land is crucial to investment but sustainable development requires government policy measures that balance investors needs with broader public interests **Securing Livelihoods** Isabelle Hillenkamp,Frédéric Lapeyre,Andreia Lemaître,2013-11-07 Far from the vision of popular actors in the popular economy as reactionary and archaic stubbornly resisting any move towards change this book s overall aim is to contribute to a broadening and deepening of our understanding of the logic and socio economic practices of those operating in the informal economy It focuses on the vulnerabilities of these participants resulting from high exposure to different risks combined with low social protection and on the interactions between vulnerability and poverty It considers security of livelihoods as the guiding principle for multiple practices in the informal economy Thirteen studies based on careful analyses of empirical data in different contexts in Africa Latin America and Asia contribute to this multidisciplinary discussion This book describes how people develop their own strategies to solve their problems through the use of interpersonal networks associations and other community based arrangements Moreover it shows that informal economy actors systematically reposition themselves vis vis the State markets international and national policies with the aim of enhancing their economic and social security and they may do this either individually or collectively The book emphasizes how adaptability of the informal economy can be influenced by such factors as the macroeconomic context access to financial technological and information resources infrastructure social protection schemes and the institutional environment within which adaptations occur Case studies stress the need to reformulate questions relating to policy intervention based on a more thorough understanding of the perspective of informal economy actors *OECD Economic Surveys: Greece 2011* OECD,2011-08-02 This 2011 edition of OECD s periodic survey of the Greek economy includes chapters covering fiscal sustainability structural fiscal reforms and labour and product market reforms *Moving the AEC Beyond 2015* Tham Siew Yean,2018-02-14 The ten Southeast Asian economies reached a milestone on 31 December 2015 when they announced the formation of an ASEAN Community Although this includes three pillars ASEAN Political Security Community ASEAN Economic Community AEC and the ASEAN Socio Cultural Community it is the economic pillar that generates immense debate due to its expected quantifiable benefits to member countries This book thus focuses on the ASEAN Economic Community and seeks to explain the need for building domestic consensus within the member countries It starts with an overview chapter describing the current achievements of the AEC It then explores possible explanations for the achievements non achievements and offers a hypothesis on conflicting economic interests in a country as one possible explanation for gaps in implementation This is because any form of economic liberalisation brings with it the winners and losers thereby raising resistance to liberalization measures and slowing down the implementation process The book includes six country chapters

Indonesia Malaysia the Philippines Singapore Thailand and Vietnam that examine sources of domestic conflict s in greater detail and depth It also includes a regional chapter co authored by the ex Secretary General of ASEAN Mr Rodolfo Severino that brings out the political nature of ASEAN economic cooperation since its inception in 1976 For ASEAN beyond 2015 the book articulates the need to obtain a strong domestic consensus that supports the integration initiatives of the AEC This can be viewed as a way forward to accelerate and deepen integration within ASEAN The book concludes with some suggestions on how each country can move towards achieving domestic consensus based on the respective country level analysis

Informal Economies and Power Anna Danielsson,2018-10-26 The global ubiquity of informal economic activities has turned informality into a key policy question not least in international peace and state building This book explores a core aspect of economic informality its resilience despite comprehensive international anti informality operations Using Kosovo as an illustrative case Danielsson suggests that to understand the resilience of informality two distinct areas of practice need to be studied in conjunction rather than separately The first concerns the professional practices enacted by international organisations in their attempts to formalise the informal economy in Kosovo The second area of practice concerns the everyday informal economic practices of social agents in Kosovo To study these areas of practice at their junction Danielsson uses Pierre Bourdieu s concept of symbolic power and argues that in post conflict Kosovo the distinct practices have become interwoven and co constitutive of a novel ordering and meaning of informality The resilience of the informal thus plays out through while undermining and reinforcing the need of the international anti informality operations Including scholarship from global governance global political economy and social theory this book s original perspective on informal economies and power will appeal to scholars and professionals located in peace studies development studies and the field of international relations

Healthy Partnerships ,2011 Since the private health sector is an important and often dominant provider of health services in Sub Saharan Africa it is the job of governments as the stewards of the health system to engage with it Increasing the contributions that the existing private health sector is making to public health is an important but often neglected element of meeting the daunting health related challenges facing African nations This Report presents newly collected data on how and how effectively each country in the Africa region is engaging the respective private health sectors and how the engagement compares across the region While the approach taken by governments varies greatly between countries there is much room for improvement in the Africa region overall to engage more effectively and room for exchange of ideas and good practices on how to do so Improved solutions on the policy regulatory side should be supported by effective organization of the private sector itself and by adjustments in donor programs that take the dynamics of the private health

sector better into account **Investment Climate Reforms** World Bank World Bank,2015-11-02 Private firms are at the forefront of the development process providing more than 90 percent of jobs supplying goods and services and representing a significant source of tax revenues Their ability to grow create jobs and reduce poverty depends critically on a well functioning investment climate defined as the policy legal and institutional arrangements underpinning the functioning of markets and the level of transaction costs and risks associated with starting operating and closing a business The World Bank Group has provided extensive support to investment climate reforms This evaluation by the Independent Evaluation Group IEG assesses the relevance effectiveness and social value of World Bank Group support to investment climate reforms as it relates to concerns for inclusion and shared prosperity IEG finds that the World Bank Group has supported a comprehensive menu of investment climate reforms and has improved investment climate in countries as measured by number of laws enacted streamlining of processes and time or simple cost savings for private firms However the impact on investment jobs business formation and growth is not straightforward Regulatory reforms need to be designed and implemented with both economic and social costs and benefits in mind IEG found that in practice World Bank Group support focuses predominantly on reducing costs to businesses In supporting investment climate reforms the World Bank and the International Finance Corporation use two distinct but complementary business models Despite the fact that investment climate is the most integrated business unit in the World Bank Group coordination is mostly informal relying mainly on personal contacts IEG recommends that the World Bank Group expand its range of diagnostic tools and integrate them in the areas of the business environment not yet covered by existing tools develop an approach to identify the social effects of regulatory reforms on all groups expected to be affected by them beyond the business community and exploit synergies by ensuring that World Bank and IFC staff improve their understanding of each other s work and business models **Doing Business 2015** World Bank,2014-10-24 Twelfth in a series of annual reports comparing business regulation in 189 economies Doing Business 2015 measures regulations affecting 10 areas of everyday business activity Starting a business Dealing with construction permits Getting electricity Registering property Getting credit Protecting minority investors Paying taxes Trading across borders Enforcing contracts Resolving insolvency Labor market regulations This year s report will present data for a second city for the 11 economies with more than 100 million inhabitants These are Bangladesh Brazil China India Indonesia Japan Mexico Nigeria Pakistan the Russian Federation and the United States Three of the 10 topics covered have been expanded with further plans to expand on five additional indicators in next year s report Additionally the Doing Business rankings are now based on the distance to the frontier measure where each economy is evaluated based on how close their business regulations are to the best global practices This provides a more precise view of each economy s performance and its improvement over time The report updates all indicators as of June 1 2014 ranks economies on their overall ease of doing business and analyzes reforms to business regulation identifying which economies are strengthening
