Secret Formula Frederick Allen, 2015-10-27 A highly entertaining history of global hustling cola wars and the marketing savvy that carved a niche for Coke in the American social psyche Publishers Weekly Secret Formula follows the colorful characters who turned a relic from the patent medicine era into a company worth 80 billion Award winning reporter Frederick Allen's engaging account begins with Asa Candler a nineteenth century pharmacist in Atlanta who secured the rights to the original Coca Cola formula and then struggled to get the cocaine out of the recipe After many tweaks he finally succeeded in turning a backroom belly wash into a thriving enterprise In 1919 an aggressive banker named Ernest Woodruff leveraged a high risk buyout of the Candlers and installed his son at the helm of the company Robert Woodruff spent the next six decades guiding Coca Cola with a single minded determination that turned the soft drink into a part of the landscape and social fabric of America Written with unprecedented access to Coca Cola's archives as well as the inner circle and private papers of Woodruff Allen's captivating business biography stands as the definitive account of what it took to build America's most iconic company and one of the world's greatest business success stories

The Real Thing Constance L. Hays, 2005 A definitive history of Coca Cola the world's best known brand by a New York Times reporter who has followed the company

and who brings fresh insights to the world of Coke telling a larger story about American business and culture Everything Evolves Mark Vellend,2025-08-19 How the science of evolution explains how everything came to be from bacteria and blue whales to cell phones cities and artificial intelligence Everything Evolves reveals how evolutionary dynamics shape the world as we know it and how we are harnessing the principles of evolution in pursuit of many goals such as increasing the global food supply and creating artificial intelligence capable of evolving its own solutions to thorny problems Taking readers on an astonishing journey Mark Vellend describes how all observable phenomena in the universe can be understood through two sciences The first is physics The second is the science of evolvable systems Vellend shows how this Second Science unifies biology and culture and how evolution gives rise to everything from viruses and giraffes to nation states technology and us He discusses how the idea of evolution had precedents in areas such as language and economics long before it was made famous by Darwin and how only by freeing ourselves of the notion that the study of evolution must start with biology can we appreciate the true breadth of evolutionary processes A sweeping tour of the natural and social sciences Everything Evolves is an essential introduction to one of the two key pillars to the scientific enterprise and an indispensable guide to understanding some of the most difficult challenges of the Anthropocene *The Crystal Coast* Lynn Salsi,Frances Eubanks,2000 Modern day conveniences and luxuries appeared like the inventions of science fiction in a place where electricity seemed at first unnecessary and short sighted to many of the coastal inhabitants who were simply comfortable living in the ways and manners of their ancestors However the progress offered by the twentieth century would not be denied even in rural Carteret County Though fishing remained the industrial backbone as it had for generations of Down Easterners Carteret County began a remarkable transition from a coastal outpost community to a tourist destination attracting thousands of seasonal and year round tourists The Crystal Coast documents this time through a collection of firsthand accounts that touch upon the many elements of everyday living including childhood games early schooling from both the students and teachers perspectives daily chores the toils of fishing the intricacies of home remedies such as the ubiquitous cure alls castor oil and corn liquor a variety of cooking techniques courtship and marriage and life around town Not just a simple time these years were marked by major cultural events and the people of Carteret County were not immune experiencing intimately the hardships of Depression era America and the challenges and fears of a world war at their doorstep Sharing both the black and white experience this volume with over 100 images celebrates a special place and people in the Southern landscape A unique visual history The Crystal Coast allows readers a rare opportunity to venture into the Morehead City Beaufort and Portsmouth Island of a bygone era viewing not only the region s vivid past but breathing its true essence *Soda Politics* Marion Nestle,2015-09-07 Sodas are astonishing products Little more than flavored sugar water these drinks cost practically nothing to produce or buy yet have turned their makers principally Coca Cola and PepsiCo into a multibillion dollar industry with global recognition distribution and political power Billed as refreshing tasty crisp and

the real thing sodas also happen to be so well established to contribute to poor dental hygiene higher calorie intake obesity and type 2 diabetes that the first line of defense against any of these conditions is to simply stop drinking them Habitually drinking large volumes of soda not only harms individual health but also burdens societies with runaway healthcare costs So how did products containing absurdly inexpensive ingredients become multibillion dollar industries and international brand icons while also having a devastating impact on public health In Soda Politics the 2016 James Beard Award for Writing Coca Cola and PepsiCo spend billions of dollars each year to promote their sale to children minorities and low income populations in developing as well as industrialized nations And once they have stimulated that demand they leave no stone unturned to protect profits That includes lobbying to prevent any measures that would discourage soda sales strategically donating money to health organizations and researchers who can make the science about sodas appear confusing and engaging in Corporate Social Responsibility CSR activities to create goodwill and silence critics Soda Politics follows the money trail wherever it leads revealing how hard Big Soda works to sell as much of their products as possible to an increasingly obese world But Soda Politics does more than just diagnose a problem it encourages readers to help find solutions From Berkeley to Mexico City and beyond advocates are successfully countering the relentless marketing promotion and political protection of sugary drinks And their actions are having an impact for all of the hardball and softball tactics the soft drink industry employs to maintain the status quo soda consumption has been flat or falling for years Health advocacy campaigns are now the single greatest threat to soda companies profits Soda Politics provides readers with the tools they need to keep up pressure on Big Soda in order to build healthier and more sustainable food systems
