Working with Interpreters and Translators Henriette W. Langdon, Terry Irvine Saenz, 2015-10-15 *Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists* offers state of the art procedures to conduct interviews assessments and conferences with students with limited English language proficiency and their families As no research base is available in the field of communicative disorders on this specific topic the information presented in this guide is supported by a critical review of the literature on best practices in interpreting for international conferences and legal and medical fields Furthermore the authors experience working with language interpreters and training professionals as well as graduate students in communicative disorders makes this a very valuable resource for professionals interpreters translators as well as undergraduate and graduate students Federal and state laws specify that if necessary English language learners ELL need to be assessed in their native language when referred for possible special education The number of ELL students attending public schools across the nation has increased in the past few decades There are not enough speech language pathologists SLPs or audiologists who are proficient in the various languages spoken by ELL students even in Spanish the most common language spoken by ELL students in the United States The next best solution is to conduct assessments in collaboration with a trained interpreter translator Key features include Information and references for the most common languages spoken by ELL students Discussion of culturally based variables that need to be considered in the process of interviewing and working with linguistically and culturally diverse populations Description of the roles and responsibilities for individuals who will be collaborating as interpreters and translators with SLPs and audiologists in various contexts such as interviews assessments and various meetings such as IEPs and IFSPs as well as suggestions on training individuals in this collaborative process Review of best practices in speech language and audiological assessments both with and without materials in the given language Disclaimer Please note that ancillary content such documents audio and video may not be included as published in the original print version of this book *Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists* is a must have reference for anyone working with ELL students Although the process was developed with the pediatric population in mind much of this information can be applied to older culturally and linguistically diverse populations in need of speech language and or hearing services It will also be useful to professionals working with language interpreters in allied health professions in other countries *Interpreters and Translators in Communication Disorders* Henriette W. Langdon, 2002 Langdon has developed an essential guide for

communication disorders professionals to share with the interpreters and translators they work with This companion book to Collaborating with Interpreters and Translators A Guide for Communication Disorders Professionals is just what you need for educating interpreters and translators This resource is organized into five sessions with a glossary that includes definitions of more than 100 terms Use this consumable text to lead five training sessions or suggest it for independent study Speech and Language Disorders in Bilinguals Alfredo Ardila, Eliane Ramos, 2007 During the last years a significant number of papers books and monographs devoted to speech and language impairments in bilingual children have been published Different aspects and questions have been approached and today we have a relatively good understanding of the specific characteristics of the speech and language difficulties potentially observed in bilingual and multilingual children This interest has been significantly resulted from the potential developmental and educational consequences of bilingualism Our understanding of the communication disorders in adult populations is notoriously more limited even though over 50% of the adult population can speak at least another language in addition to his her native language That simply means that over 50% of the communication disorders observed in adults are bilingual speech and language disorders bilingual aphasias bilingual dementias bilingual stuttering etc This book was written with the specific purpose of filling this gap The major purpose of this book has been to integrate the state of the art on the different aspects of the communication disorders observed in adult bilinguals The book is organised in such a way that an integrated perspective of bilingualism is presented from the normal conditions to the pathology from the clinical descriptions to the rehabilitation issues from the biological factors to the cultural variables **The SAGE Encyclopedia of Human Communication Sciences and Disorders** Jack S.
