Kimbles, 2021-04-13 Intergenerational Complexes in Analytical Psychology The Suffering of Ghosts draws attention to human suffering and how it relates to unacknowledged and unrecognized traumatic cultural histories that continue to haunt us in the present The book shows the many ways that our internal lives are organized and patterned by both racial ethnic and national identities and personal experiences This

book shows how the cultural unconscious with its multiple group dynamics identities nationalities seething differences of conflicts polarizations and individual personalities are organized by cultural complexes and narrated by archetypal story formations which the author calls phantom narratives The emotional dynamics generated constitute potential transitional spaces or holding containers that allow us to work with these issues psychologically at both the individual and group levels offering opportunities for healing The chapters of the book provide numerous examples of the applications of these terms to natural and cultural catastrophes as well as expressions as uncanny phenomena Intergenerational Complexes in Analytical Psychology is essential reading for analytical psychologists Jungian psychotherapists and other professionals seeking to understand the impact of intergenerational trauma on individuals and groups It is also relevant to the work of academics and scholars of Jungian studies sociology trauma studies politics and social justice

**Gnosticism and the History of Religions** David G. Robertson, 2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation

Psychopathy Within Eve Maram, 2016-04-29 Psychopathy Within offers a new way of conceptualizing and defining psychopathy that is a convergence of the author's divergent professional experiences as a forensic psychologist and a Jungian oriented psychotherapist and her personal life experiences over decades as a Jungian student and analysand When her father died the story of his life and their relationship ignited her curiosity about the meaning of psychopathy enriching and amplifying what she already felt she knew from a wide range of experiences study and observations The result is an invitation to explore this charged topic psychopathy with a new perspective that holds the potential for growth and healing At the heart of the story is the power of eros the devastating ramifications of its absence and the tremendous healing energy of its presence Eve Maram's Psychopathy Within brings a cogent synthesis of Jungian and forensic perspectives uniquely presented both clinically and from personal experience A well researched approach to psychopathy is followed by a vision for potential healing providing hope and useful advice and making this a valuable resource not only for clinicians but anyone

confronted with a psychopathic situation Robert Hinshaw This book is an expression of the Feminine principle of Eros Guiding us through the labyrinths of the human heart in its experience of psychopathy an experience described qualitatively by Dr Eve Maram as a sense of something deep within that is missing and that exists in a dormant continuum with all of us Dr Maram draws on her experiences as a forensic psychologist a Jungian therapist and most centrally a daughter to a father who suffered from psychopathy to challenge the strict separation of us and them in diagnostic criteria and in relationship Beyond the yearnings to make logical sense of psychopathy she eloquently expresses the ways in which Eros or the Feminine Principle is often missing or devalued in both professional work and in personal life Authentic not sentimental engagingly written and filled with personal story Dr Maram s genuine feeling and her capacity to communicate it is what makes this book a gem and a much needed contribution to accepting and healing the dark and cold frozen dimensions of ourselves By going consciously into dark experiences of psychopathy with love appreciation for symbol compassion and a touch of humor Dr Maram shows us the gold the possibility of authentic life that lies hidden in what seems most unacceptable and most destructive to ourselves and others Thomas Elsner J D M A Jungian Analyst      **Psychiatric Studies** C.G.
