Vanoverbeke,Mattias Kumm,2018-11-29 Examines and compares East Asian and European perspectives of Global Constitutionalism United Nations Peacekeeping and the Principle of Non-Intervention Jennifer Giblin,2024-03-26 Using a unique application of Third World Approaches to International Law TWAIL this book provides a critical interdisciplinary examination of the contemporary practice of UN peacekeeping Is peacekeeping intervention Since its conception in the mid 1950s peacekeeping has significantly evolved from traditional lightly armed passive operations to robust multi dimensional stabilisation peacekeeping operations This raises questions as to whether this is simply a natural evolution of peacekeeping

or whether it marks an expansion of the concept beyond its boundaries pushing it into the realm of peace enforcement or intervention In response this book examines the frameworks which govern UN peacekeeping and seeks to understand the relationship between peacekeeping and the principle of non intervention Providing practical examples from the United Nations operations in the Democratic Republic of the Congo and drawing upon interviews with key international actors including UN personnel the book explores the boundaries of peacekeeping contending that peacekeeping at times becomes a form of intervention This the book argues is detrimental both to the concept of peacekeeping and to the host state and it concludes by offering a series of recommendations to re affirm peacekeeping s boundaries and amplify the effectiveness of contemporary peacekeeping This book will be of interest to scholars and students in international law international relations politics history and criminology
