Hume, Passion, and Action Elizabeth S. Radcliffe,2018-05-24 David Hume's theory of action is well known for several provocative theses including that passion and reason cannot be opposed over the direction of action Elizabeth S Radcliffe defends an original interpretation of Hume's views on passion reason and motivation which is consistent with other theses in Hume's philosophy loyal to his texts and historically situated She challenges the now orthodox interpretation of Hume on motivation presenting an alternative that situates Hume closer to Humeans than many recent interpreters have Part of the strategy is to examine the thinking of the early modern intellectuals to whom Hume responds Most of these thinkers insisted that passions lead us to pursue harmful objects unless regulated by reason and most regarded passions as representations of good and evil which can be false Understanding Hume's response to these claims requires appreciating his respective characterizations of reason and passion The author argues that Hume's thesis that reason is practically impotent apart from passion is about beliefs

generated by reason rather than about the capacity of reason Furthermore the argument makes sense of Hume's sometimes ridiculed description of passions as original existences having no reference to objects The author also shows how Hume understood morality as intrinsically motivating while holding that moral beliefs are not themselves motives and why he thought of passions as self-regulating contrary to the admonitions of the rationalists

Ambiguity and Religion in Ovid's Fasti Darja Šterbenc Erker, 2023-03-20 Ovid's Fasti offers multifocal views of Augustan religion to convey ambivalences inconsistencies and paradoxes in the imperial family's religious agenda Darja Šterbenc Erker explores Ovid's irreverent and ambiguous presentations of calendrical aetiologies deifications and imperial gods that humorously call to mind Arachne's tapestry depicting faulty gods and that stand in sharp contrast to the poet's more serious discussions of the values he cherishes such as freedom and poetic immortality Especially in the exilic revisions of the poem Ovid emphasises the motif of bestowing divine honours upon mortals through poetry For him the stars in the heavens do not represent deified statesmen but immortal authors

The Allied Bombing of Central Italy Teresa Fava Thomas, 2023-09-15 The Allied Bombing of Central Italy examines the results of the Second World War Allied bombing campaign on Palestrina and Rome Italy and the long-term impact of the war on the mountainside town and on the Barberini family's art collection including the Nile Mosaic It explores the history and cultural significance of Palestrina its strategic setting the recovery of the town the restoration of the Nile Mosaic which remains the largest Egyptian style mosaic extant A unique aspect of the destruction was that it uncovered a pagan temple the Sanctuary of Fortuna The bombing destroyed the homes built on its terraces but revealed the ancient structure buried beneath which had remained unseen for half a millennium It took more than a decade for the mosaic to be restored and the Sanctuary of Fortuna established as a national archaeological museum The book explores the pressure by the Mussolini regime to control the Barberini family's art collection the uses of cultural materials for propaganda purposes the Allied use of airpower in the Italian theater of war the postwar decision making and recovery process The book is one of the very few long-range studies of the war's impact on a single Italian town It is suitable for academic seminars and an educated general audience

Grace of

the Ghosts Jeannine Hill Fletcher, 2025-05-06 A profound new volume that reckons with the history of an American Catholic Church embedded in and drawing benefits from White supremacy For the Church to become a truly anti racist institution we must first understand how today s racial challenges are embedded in the theo logic of American Christianity and the cultural production of our Christian educational institutions As colleges and universities reckon with their involvement in slavery Grace of the Ghosts asks Christian affiliated institutions of congregation school and media to expand this reckoning with attention to the many ways they have been embedded in and drew benefits from American systems of White supremacy Too often White Christian histories render White Christians as the good guys in order to make a brutal history plausible and thus erase countless injustices committed against Indigenous Black Latinx and Asian peoples Author Jeannine Hill Fletcher writes instead a US Catholic history that sheds light on the crimes committed against these ancestors by members of their own faith community Grace of the Ghosts focuses on specific case studies of Catholic educational and ecclesial institutions journeying through numerous microhistories to provide an accessible program to work toward the flourishing of a multiracial and multicultural Church Hill Fletcher digs deeply into the details of Jesuit slaveholding at Georgetown the expansion of Church networks on the frontiers to the West and South and emergent cities to the North and the extension of the work of religious women from the East Coast to the Midwest The volume considers the implications of Catholic involvement in Indian Boarding Schools and envisions alternative possibilities in the Catholic activism of the United Farmworkers Each microhistory elevates the theological insights that emerge from those who withstood the assaults of White Christian supremacy Hill Fletcher then orients the reader forward by envisioning possibilities of repair Recognizing that this will require extensive and ongoing work the book closes with the consideration of spiritual capital including a reclamation of Ignatius s Spiritual Exercises that might sustain us as we write the next chapter in the nation s long struggle against White supremacy Much work must be done for reparation reconciliation and repair to unfold fully Grace of the Ghosts provides a bridge to institutional accountability for past failings and a path toward becoming transformative institutions for the future
