Sarah Worth addresses from a philosophical perspective the many ways in which reading benefits us morally socially and cognitively Worth leads her readers through the subtle questions of the ways in which we understand fiction nonfiction and the overlap and blending of other genre distinctions Ultimately she argues that reading hearing and telling well told stories is of the utmost importance in developing a healthy sense of personal identity a greater sense of narrative coherence and an increased ability to make different kinds of inferences Engaging classical philosophical questions in the contemporary landscape of educational literacy and the inclusion of fiction in a classroom curriculum Worth demonstrates how our hyper focus on genre distinctions moves us away from a real engagement with narrative understanding and narrative comprehension <u>Unleash Your Inner Storyteller</u> Sloane Montgomery, 2024-07-30 Unlock the power of your personal narrative with Unleash Your Inner Storyteller Mastering the Craft of Memoir by Sloane Montgomery This comprehensive guide takes you on a journey through the art of memoir writing where the emotional hues of your experiences come alive on the page Drawing from the rich history of storytelling Montgomery offers a deep dive into crafting memoirs that are authentic poignant and resonant Learn to shape your life s most significant moments into compelling prose revealing the universal truths within your unique story Perfect for aspiring writers and seasoned authors alike this book is your essential companion to mastering the craft of memoir blending emotional honesty with technical precision Let your story unfold with grace and power and leave a lasting impact on your readers Storytelling for Sustainability in Higher Education Petra Molthan-Hill, Heather Luna, Tony Wall, Helen Puntha, Denise Baden, 2020-03-25 To be a storyteller is an incredible position from which to influence hearts and minds and each one of us has the capacity to utilise storytelling for a sustainable future This book offers unique and powerful insights into how stories and storytelling can be utilised within higher education to support sustainability literacy Stories can shape our perspective of the world around us and how we interact with it and this is where storytelling becomes a useful tool for facilitating understanding of sustainability concepts which tend to be complex and multifaceted The craft of storytelling is as old as time and has influenced human experience throughout the ages The conscious use of storytelling in higher education is likewise not new although less prevalent in certain academic disciplines what this book offers is the opportunity to delve into the concept of storytelling as an educational tool regardless of and beyond the boundaries of subject area Written by academics and storytellers the book is based on the authors own experiences of using stories within teaching from a story of the Ecology of Law to the exploration of sustainability in accounting and finance via contemporary cinema Practical advice in each chapter ensures that ideas may be put into practice with ease In addition to examples from the classroom the book also explores wider uses of storytelling for communication and sense making and ways of assessing student storytelling work It also offers fascinating research insights for example in addressing the question of whether positive utopian stories relating to climate change will have a stronger impact on changing the behaviour of readers than will dystopian stories Everyone working as an educator should find some inspiration
