Does The Butch Come With The Recipe:

A Taste of Power Katharina Vester, 2015-10-02 A Taste of Power is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States. Nutritional advice and representations of food and eating including cookbooks, literature, magazines, newspapers, still life paintings, television shows, films, and the internet have helped throughout American history to circulate normative claims about citizenship, gender, performance, sexuality, class, privilege, race, and ethnicity while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms. The study examines culinary writing and practices as forces for the production of social order and at the same time as points of cultural resistance against hegemonic norms, especially in shaping dominant ideas of nationalism, gender, and sexuality, suggesting that eating right is a gateway to becoming an American, a good citizen, an ideal man, or a perfect mother. Cookbooks as a low prestige literary form became the largely unheralded vehicles for women to participate in nation building before they had access to the vote or public office for middle class authors to assert their class privileges for men to claim superiority over women even in the kitchen and for lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture. The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food, politics, and privilege in American culture. Provided by publisher

Twisty Tortoise Tussles Ann Charles, 2022-07-27 When someone is dead and buried they're supposed to stay that way. Aren't they? Claire Morgan thought so, but now she suspects the dead guy whose treasures she's been digging up is not only breathing but spying on her too. Crap. When someone is divorced from a pain in the ass they're supposed to stay that way. At least that's what Ronnie Morgan had hoped when she dumped her husband. But then he rolled over on some bloodthirsty criminals. With him tucked away in prison they'll settle for taking their revenge on her. Fudge. When someone is temporarily insane, Kate Morgan is not crazy, dang it. A few twitches and some mad laughter aside, she has a gut feeling her family is in danger. Big danger. The kind that ends with a lot of blood. Now it's her job to keep them alive. The Morgan sisters are back for another round of twisty tussles and rollicking romps. *The Cambridge Companion to Literature and Food* J. Michelle Coghlan, 2020-03-19 This Companion provides an engaging and expansive overview of gustation, gastronomy, agriculture, and alimentary activism in literature from the medieval period to the present day, as well as an illuminating introduction to cookbooks as literature. Bringing together sixteen original essays by leading scholars, the collection rethinks literary food from a variety of critical angles, including gender and sexuality, critical race studies, postcolonial studies, eco-criticism, and children's literature. Topics covered include mealtime decorum in Chaucer, Milton's culinary metaphors, early American taste, Romantic gastronomy, Victorian eating, African American women's culinary writing, modernist food experiments, Julia Child and cold war cooking, industrialized food in children's literature, agricultural horror, and farmworker activism, queer cookbooks, hunger as protest, and postcolonial legacy and dude food in contemporary food.

Hornblum, 2015-09-10 From 1951 until 1974 Holmesburg Prison in Philadelphia was the site of thousands of experiments on prisoners conducted by researchers under the direction of University of Pennsylvania dermatologist Albert M. Kligman While most of the experiments were testing cosmetics detergents and deodorants the trials also included scores of Phase I drug trials inoculations of radioactive isotopes and applications of dioxin in addition to mind control experiments for the Army and CIA These experiments often left the subject prisoners mostly African Americans in excruciating pain and had long term debilitating effects on their health This is one among many episodes of the sordid history of medical experimentation on the black population of the United States The story of the Holmesburg trials was documented by Allen Hornblum in his 1998 book *Acres of Skin* The more general history of African Americans as human guinea pigs has most recently been told by Harriet Washington in her 2007 book *Medical Apartheid* The subject is currently a topic of heated public debate in the wake of a 2006 report from an influential panel of medical experts recommending that the federal government loosen the regulations in place since the 1970s that have limited the testing of pharmaceuticals on prison inmates *Sentenced to Science* retells the story of the Holmesburg experiments more dramatically through the eyes of one black man Edward Butch Anthony who suffered greatly from the experiments for which he volunteered during multiple terms at the prison This is not only one black man's highly personal account of what it was like to be an imprisoned test subject but also a sobering reminder that there were many African Americans caught in the viselike grip of a scientific research community willing to bend any code of ethics in order to accomplish its goals and a criminal justice system that sold prisoners to the highest bidder **Recipes for Thought** Wendy Wall, 2016 Situated at the vital intersection of physiology gastronomy decorum knowledge production and labor recipes from the past allow us to understand the significant ways that kitchen work was an intellectual and creative enterprise *Bobby Flay's Throwdown!* Bobby Flay, Stephanie Banyas, Miriam Garron, 2010-10-12 Are you ready Every week
