regulations should be efficient striking a balance between safeguarding some important aspects of the business environment and avoiding distortions that impose unreasonable costs on businesses Where business regulation is burdensome and competition limited success depends more on whom you know than on what you can do But where regulations are relatively easy to comply with and accessible to all who need to use them anyone with talent and a good idea should be able to start and grow a business in the formal sector The Doing Business report which was started in 2003 has become one of the key ways in which the bank and other observers gauge business climate within developing countries The Financial Times Doing Business started as a way to encourage countries to reduce obstacles to entrepreneurship Developing countries compete to land a spot on the top 10 list of most improving countries because it is seen as a way to get attention and investment The Wall Street Journal Doing Business has succeeded in putting the issue of business red tape on the international political agenda The Economist
