

# What is Feminist Theory?

- Feminism is an evolving philosophy that states that the Western world (America, Europe, Latin America) is fundamentally Patriarchal
  - Patriarchal: created by men, ruled by men, viewed through the eyes of men, judged by men
- Feminist Literary Theory began in the 1960s
- Until then, the works of female writers or works about women, were examined by the same standards as those by male writers, and women were thought to be less intelligent than men, in part because they received less formal education
- Many people, including women, accepted this judgment at the time
