so few examples of canonically great women writers The common prejudices of the time suggested this was caused by and proof of women s creative and intellectual inferiority to men Woolf argued instead that it was to do with a very simple fact across the centuries male dominated society had systematically prevented women from having the educational opportunities private spaces and economic independence to produce great art At a time when art was commonly considered to be a province of the mind that had no relation to economic circumstances this was a novel proposal More novel though was Woolf s manner of arguing and proving her contentions through a fictional account of the limits placed on even the most privileged women in everyday existence An impressive early example of cultural materialism *A Room of One s Own* is an exemplary encapsulation of creative thinking
