Globalizing International Theory A. Layug, John M. Hobson, 2022-09-30 Globalizing International Theory adds to the literature on non Western international relations IR theory by probing the question of what it means to globalize international theory The book starts with the premise that international theory is unfinished incomplete and homogenous because it provides a limited conception of the international which in turn derives from its partiality that reflects its narrow Western centric bias The contributors argue that the IR vision of the world is projected through a polarizing Western filtered lens Rather than utilizing an objective set of explanatory tools for explaining world politics the reality is that orthodox IR theory only tells us why the West is best and why the Rest should become like the West This means that international theory is not truly international In provincializing Western international theory this volume navigates beyond the Eurocentric and imperial frontier of the prevailing limited conception of the international to explore the hidden contributions to international theory which can be found in the non Western world Bringing in excluded non Western conceptions of international theory highlights a broader conception of the international The book provides a framework for theorizing globally exploring the fundamental problems with Western IR theory and how to overcome them This book will be used by advanced undergraduate and postgraduate students scholars researchers and IR theorists worldwide who are interested in non Western IR theory It will help navigate the problem of internationalness in the face of the grand theoretical problem of our time the use and misuse of international theory in making sense of and responding to the complex global realities of the twenty first century

Resilient Communities of Central Eurasia Elena Korosteleva, Irina Petrova, 2023-03-21 This book argues for the need to rethink governance through the lens of resilience as self governance Building on complexity thinking it contends that in the context of change and complex life challenges are most efficiently dealt with at the source locally to make the global more responsive and sustainable Resilience as self governance is advanced as an overriding framework to explore its constitutive elements identity good life local coping strategies and support infrastructures which when mobilized can turn communities into peoplehood in the face of adversity It is argued that these communities of relations self organised and self aware of their worth is what makes them so resilient to crises and what helps them to transform with change and how they should be governed today Central Eurasia spanning from Belarus in the west to Azerbaijan in the south and Kyrgyzstan in the east provides fertile grounds for exploring how resilience works in practice in times of complex change By immersing into centuries long traditions and philosophy local experiences of survival and visions for change this book shows that governability at any level requires a substantive local input to make the global more enduring and resilient in a complex adaptive world This book will be of great value to students and scholars in the fields of Politics including Eurasian politics and the various aspects of Governance Most of the chapters in this book were published as a special issue of Cambridge
