[The ETERNAL MONEY CALENDAR - Daily Cash Flow to More Wealth](#) Thomas Pfennig, 2017-09-11 With this Eternal Money Calendar you start your daily cash flow and this completely without hypnosis Actually you can start the flow of money in the subconscious by dealing with this calendar daily and it doesn't even afford much time It's as easy as reading The Eternal Money Calendar is one of the largest affirmation and affirmation collections The user guide will tell you about the really easy to use application It only takes you a few minutes a day but you can reap a life full of cash flow

Sample Preface Thank you for choosing this book and your new path My name is Thomas Pfennig Additional information about me my further projects and offers can be found at the end of the book about the author At first you are bound to be guaranteed some questions in the foreground For example you are interested in knowing if and how this calendar can lead you into an independent and financially good to very good situation The IF I can answer quite clearly with yes The HOW you will find out immediately in the manual But the WHY I would like to answer here and now Most of my esteemed readers are probably already familiar with hypnosis suggestion affirmation and affirmation and for all the others I allow myself to make a small statement But please do not cry out now you do not have to go into a self hypnosis to work successfully with this calendar I just want you to well understand the actual process With this knowledge it is much much easier to successfully use this calendar Hypnosis is a concentrated state where we are in the frequencies of the alpha or theta state This occurs in a natural form that is not itself or externally produced form whenever we are close to falling asleep or waking up Generally at least twice a day afternoon nap included four times a day In this phase the

consciousness and also the critical part of the subconscious is still a bit dazed and more concerned with sorting all body related values e g blood pressure heart rate etc than to take care of the environment With a hypnotic introduction we hypnotists create the same state of distraction and or relaxation While the natural state of hypnosis only exists for a few moments during waking up it can be maintained for a very long time during a hypnosis session Through the distraction of consciousness changes can now be suggested and affirmed All the professionals may forgive me this very simple explanation There is however at least one way to give affirmations and suggestions to the subconscious outside of hypnosis In this concern I have to go a little further The human body receives and transmits energy This energy can be felt by concentrating on it Try it out and move the hand with the forefinger in a distance of about half an inch across the palm of the other hand When you close your eyes you will always know where your finger is You feel a slight tingling or a slight touch on the palm of your hand This is the energy flowing out from our secondary chakras We receive energy again through our main chakras Aura reader can see these energies Energy is everywhere and it is neutral and contains as far as I know no information But one can send energy to other people and enrich it with information such as suggestions and affirmations Then the energy is no longer neutral but carries an information Globules homeopathic medicines for example are also manufactured this way And when that happens from man to man one calls it the healing hand *Crazy Affirmation* J. A. Austenn, 2017-12-15 Do you want to be rich and succeed This the the great book to help you get it as soon as possible You can get it quick as the wind Suggestion read this book twice a day in the morning after you wake up and at night before you sleep You will be surprise about your life changing in a short period of time DO NOT BELIEVE Just try it
