National Library of Medicine Audiovisuals Catalog National Library of Medicine (U.S.), [Mayo Clinic Gastroenterology and Hepatology Board Review](#) Stephen Hauser, 2011-06-23 Mayo Clinic Gastroenterology and Hepatology

Board Review book has been designed to succinctly and clearly assist both physicians in training who are preparing for the gastroenterology board examination and the increasing number of gastroenterologists awaiting recertification. The text provides a review of essential knowledge in gastroenterology, hepatology, and integral relevant related areas of pathology, endoscopy, nutrition, and radiology, to name a few. Clinical knowledge related to diagnostic and therapeutic approaches to patient management is also emphasized. Although less detailed than encyclopedic textbooks, this board review provides much more information than outline booklets. Clinical knowledge to enhance patient management rather than the latest scientific advances is emphasized. For persons preparing for their board examination, each subspecialty section concludes with a case-based presentation, and numerous board examination type single best answer questions with annotated answers are provided. The faculty authoring this book are all Mayo Clinic gastroenterologists and hepatologists who spend most of their time caring for patients and teaching in an academic environment. Because of this overlapping yet diverse expertise, the text provides broad expertise across all of gastroenterology and hepatology.

Atlas of Liver Pathology - E-Book Gary C.

Kanel, 2023-04-07 Highly illustrated and conveniently templated for quick reference, *Atlas of Liver Pathology* 4th Edition is a useful atlas and text for every practicing pathologist or trainee who assesses liver biopsy specimens. From cover to cover, it contains all the information needed to identify histologic features and correlate them with clinical findings, offering a clearer understanding of the clinical implications of the disease as it relates to treatment. More than 1,200 high-quality full-color images and illustrations provide you with a complete visual guide to the vast majority of liver diseases and assist in the diagnoses of biopsy and resected liver specimens. Provides clear templated information for each disease: Major Morphologic Features, Special Stains, Differential Diagnoses, Clinical and Biologic Behavior, and Treatment and Prognosis. Incorporates relevant data from ancillary techniques: immunohistochemistry, cytology, cytogenetics, and molecular genetics, giving you the necessary tools required to master the latest breakthroughs in diagnostic technology. Incorporates the latest diagnostic biomarkers and their utility in differential diagnoses, newly described variants, and new histologic entities. Contains two new chapters on liver biopsy interpretation and autoimmune hepatitis. Features concise bulleted text and abundant tables that cover common as well as rare diseases, differential diagnoses, and more.

Hepatocellular Carcinoma in Adults and Children, An Issue of Clinics in Liver Disease Adrian Reuben, 2015-06-03 Dr. Reuben provides a timely update to the topic of HCC, which was last covered in 2011. The highly respected authors in this issue address advances in imaging for diagnosis, surgical resection, and liver transplantation, and local and systemic therapy. The breadth of the topic is covered with articles devoted to histopathology, classification, and staging, and screening and detection.
