Custodial Week 2015:

"*Code of Massachusetts regulations, 2015*" ,2015 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 *From Sit-Ins to #revolutions* Olivia Guntarik,Victoria Grieve-Williams,2020-01-23 *From Sit Ins to revolutions* examines the evolution and growth of digital activism while at once outlining how scholars theorize and conceptualize the field through new methodologies As it closely examines the role that social and digital media play in enabling protests this volume probes the interplay between historical and contemporary protests emancipation and empowerment and online and offline protest activities Drawn from academic and activist communities the contributors look beyond often studied mass action events in the USA UK and Australia to also incorporate perspectives from overlooked regions such as Aboriginal Australia Thailand Mexico India Jamaica and Black America From illustrating the allure of political action to a closer look at how digital activists use new technologies to push toward reform *From Sit Ins to revolutions* promises to shed new light on key questions within activism from campaign organization and leadership to messaging and direct action **Shared Physical Custody** Laura Bernardi,Dimitri Mortelmans,2021-07-07 This open access book provides an overview of the ever growing phenomenon of children in shared physical custody thereby providing legal psychological family sociological and demographical insights It describes how despite the long evolution of broken families only the last decade has seen a radical shift in custody arrangements for children in divorced families and the gender revolution in parenting which is taking place The chapters have a national or cross national perspective and address topics like prevalence and types of shared physical custody legal frames regulating custody arrangements stability and changes in arrangements across the life course of children socio economic psychological social well being of various family members involved in different custody arrangements With the book being an interdisciplinary collaboration it is interesting read for social scientists in demography sociology psychology law and policy makers with an interest family studies and custody arrangements **Don't Send Him in Tomorrow** Jarlath O'Brien,2016-08-04 In *Don t Send Him in Tomorrow* Jarlath O'Brien shines a light on the marginalised disenfranchised and forgotten children of today s schools The percentage of children achieving the government s expected standard in benchmark tests is national news every year The progress that children with learning difficulties and SEN make is never discussed because it is not understood That is a problem The bone crushing infrastructure which professionals have to negotiate is a problem The fact that so many parents have to fight tooth and nail so that the needs of their children are met something the rest of us would consider a basic entitlement is a problem This book describes how the system and can be improved if and when these marginalised children are given higher priority by the powers that be There is a widespread lack of understanding about special schools the work they do and the children they educate the sector is largely invisible Jarlath O'Brien has become increasingly frustrated by this and the varying quality of provision for children with learning difficulties

and SEN in mainstream schools The successes of special schools and pupil referral units in Ofsted inspections are just not celebrated or analysed in the same way that mainstream schools are While mainstream schools have their hands tied by fears over progress measures There is a human cost to the accountability culture that reduces schooling to data and judgements this is felt most profoundly by children with SEN and their families Jarlath shares some of the problems he s witnessed with inclusion and exclusion mainstream schools actively encouraging children with SEN to look elsewhere parents reporting their children have been formally or informally excluded from school and socially excluded by the parents of other children children asked to leave their mainstream schools because of their behaviour usually behaviour that is caused by their needs not being adequately addressed children who are in school but isolated from their peers If a child can t participate in activities or trips with the rest of the class or spends much of the day working one to one with a teaching assistant is this really inclusion The Pupil Premium has been established to ensure that children in receipt of free school meals are not disadvantaged why does something similar not exist for children with SEN Every health and wealth indicator that you could use to measure people with learning difficulties and special educational needs SEN reveals something alarming They die younger They work less They are more likely to live in poverty or end up in prison or face mental health difficulties They are much more likely to be excluded from school They are more likely to be bullied at school This has to end We all have to choose to commit to recognising that society as it is today is a difficult place for young people to thrive When you have autism or Down syndrome or any physical or learning difference it s even harder and the system as it stands isn t helping We need to acknowledge that this is not right that such a state of affairs must change and that we all have a part to play in making that change happen Jarlath offers suggestions for politicians Ofsted local authorities head teachers SENCOs teachers and teaching assistants about what they can do to make a difference For all politicians head teachers SENCOs teachers and parents

Routledge Handbook of Youth and Young Adulthood Andy Furlong, 2016-10-14 The second and completely revised edition of the *Routledge Handbook of Youth and Young Adulthood* draws on the work of leading academics from four continents in order to introduce up to date perspectives on a wide range of issues that affect and shape youth and young adulthood It provides a multi disciplinary overview of a dynamic field of study that offers unique insights on social change in advanced societies It is aimed at researchers policy makers and advanced students on a global level The Handbook introduces the main theoretical perspectives used within youth studies and sets out future research agendas Each of the ten sections covers an important

area of research from education and the labour market to youth cultures health and crime discussing change and continuity in the lives of young people introducing readers to some of the most important work in the field while highlighting the underlying perspectives that have been used to understand the complexity of modern youth and young adulthood **Cradle to Kindergarten** Ajay Chaudry,Taryn Morrissey,Christina Weiland,Hirokazu Yoshikawa,2017-03-01 Early care and education for many children in the United States is in crisis The period between birth and kindergarten is a critical time for child development and socioeconomic disparities that begin early in children s lives contribute to starkly different long term outcomes for adults Yet compared to other advanced economies high quality child care and preschool in the United States are scarce and prohibitively expensive for many middle class and most disadvantaged families To what extent can early life interventions provide these children with the opportunities that their affluent peers enjoy and contribute to reduced social inequality in the long term Cradle to Kindergarten offers a comprehensive evidence based strategy that diagnoses the obstacles to accessible early education and charts a path to opportunity for all children The U S government invests less in children under the age of five than do most other developed nations Most working families must seek private childcare which means that children from low income households who would benefit most from high quality early education are the least likely to attend them Existing policies such as pre kindergarten in some states are only partial solutions To address these deficiencies the authors propose to overhaul the early care system beginning with a federal paid parental leave policy that provides both mothers and fathers with time and financial support after the birth of a child They also advocate increased public benefits including an expansion of the child care tax credit and a new child care assurance program that subsidizes the cost of early care for low and moderate income families They also propose that universal high quality early education in the states should start by age three and a reform of the Head Start program that would include more intensive services for families living in areas of concentrated poverty and experiencing multiple adversities from the earliest point in these most disadvantaged children s lives They conclude with an implementation plan and contend that these reforms are attainable within a ten year timeline Reducing educational and economic inequalities requires that all children have robust opportunities to learn fully develop their capacities and have a fair shot at success Cradle to Kindergarten presents a blueprint for fulfilling this promise by expanding access to educational and financial resources at a critical stage of child development *The Resettlement of Sex Offenders after Custody* David Thompson,Terry Thomas,2017-07-14 Circles of Support and Accountability is a voluntary initiative that assists people with convictions for sexual offences to resettle in the community People leaving prison with such convictions often have difficulties in resettling They carry the burden of the conviction itself which may be both stigmatising and isolating and they are the subject of sex offender register requirements parole and other supervisory conditions Circles of Support and Accountability in the UK started over ten years ago and have slowly spread across the country They work closely with the police and probation services but rely entirely on volunteers

prepared to give up their time to work with people often otherwise shunned by communities Circles offer support to the person concerned but also hold them accountable for their future behaviour They aim to ensure there are no more victims This book is based on original research and provides a close up picture of how these Circles of Support and Accountability work in practice It brings together for the first time the voices of all the participants from the offenders and the volunteers through to the Coordinators who link the volunteers to the professionals in the form of the police and probation services The research was commissioned by Circles UK and funded by the Wates Foundation and the University of Leeds School of Law

The Social Impact of Custody on Young People in the Criminal Justice System Claire Paterson-Young, Richard Hazenberg, Meenu Bajwa-Patel, 2019-07-10 This book explores the journey of young people through a Secure Training Centre and more generally the criminal justice system in the UK It examines the extent to which young people have been failed by the system at every stage of their lives with incarceration used as a means of removing the problem from society To explore this process the authors utilise an integrated theoretical framework to develop a new rehabilitative approach focused on developing positive outcomes for young people The book deploys a social impact measurement methodology to evaluate the experience and outcomes of youth justice interventions at a Secure Training Centre Such an approach provides a fresh perspective on the youth justice debate which has traditionally utilised outcome data to measure immediate impact relating to recidivism and is therefore not focused on the young person holistically Using a social impact framework to evaluate youth justice underpinned by an integrated theoretical framework allows for assessment to be made which place the young person at the centre of evaluation
