Nitta, 2008-01-07 Education policymaking is traditionally seen as a domestic political process The job of deciding where students will be educated what they will be taught who will teach them and how it will be paid for clearly rests with some mix of district state and national policymakers This book seeks to show how global trends have produced similar changes to very different educational systems in the United States and Japan Despite different historical development social norms and institutional structures the U S and Japanese education systems have been restructured over the past dozen years not just incrementally but in ways that have transformed traditional power arrangements Based on 124 interviews this book examines two restructuring episodes in U S education and two restructuring episodes in Japanese education The four episodes reveal a similar politics of structural education reform that is driven by symbolic action and bureaucratic turf wars which has ultimately hindered educational improvement in both countries **Public Papers of the Presidents of the United States, William J. Fight for the Soul of Public Education Steven Ashby,Robert Bruno,2016-11-04 In reaction to the changes imposed on public schools across the country in the name of education reform the Chicago Teachers Union redefined its traditional role and waged a multidimensional fight that produced a community wide school strike and transformed the scope of collective bargaining into arenas that few labor relations experts thought possible Using interviews first person accounts participant observation union documents and media reports Steven K Ashby and Robert Bruno tell the story of the 2012 strike that shut down the Chicago school system for seven days A Fight for the Soul of Public Education takes into account two overlapping parallel and equally important stories One is a grassroots story of worker activism told from the perspective of rank and file union members and their community supporters Ashby and Bruno provide a detailed account of how the strike became an international cause when other teachers unions had largely surrendered to corporate driven education reform The second story describes the role of state and national politics in imposing educational governance changes on public schools and draconian limitations on union bargaining rights It includes a detailed account of the actual bargaining process revealing the mundane and the transcendental strategies of both school board and union representatives **Education at the End of Time** Stefan Bengtsson,Jonas Andreasen Lysgaard,Dylan McGarry,2025-08-18 Education at the End of Time explores the role of education in current and future society not in a limited sense of formal schooling but rather in terms of what it means to live and engage with a world that is at the brink of collapse *Elementary and Secondary Education Act of 1966, Hearings Before the Subcommittee on Education* United States. Congress. Senate. Committee on Labor and Public Welfare,1966

Board of Education of Grand Rapids v. State Tax Commission, 291 MICH 50 (1939) ,1939 74 *Congressional Record* United States. Congress,2003 **Tea, Automats, and Time Machines** Misti McCanna-Porter,2024-04-02 Contemporary art must get inspiration from somewhere In Tea Automats and Time Machines the subculture of Steampunk art is studied in relation to art history Addressing three main topics within social and environmental justice a comparison of art styles and creativity stems from an artist s passion within popular culture Using arts based research methods and personal introspection viewed through the lens of nostalgia a unique perspective of art history studies comes to life Nostalgia being

primarily a psychological study is used as a lens to view art culture and memoir into a complete research project We live in a world in need of change Historically artists have provided a means for change through their work and the lives they choose to live The vastness of art history provides plenty of room for inspiration and interpretation In this study the contemporary sub culture of Steampunk looks nostalgically at Arts and Crafts Art Nouveau and Art Deco eras in a way that paves the way for social change and environmental preservation using fantasy cos play and art to demonstrate needed changes Through the art and culture of Steampunk we explore areas that could use improvement in our modern world and yet they do tie in with similar occurrences of the past We find that we re not that different but with art and demonstration we too can make positive changes for our future
